NOTICE.

It is the intention of the Directors to hold two meetings during the Exhibition for the discussion of subjects relating to Fruit Growing. The time and place of meetings will be announced through the press previous to the 6th of August.

The success attending the Exhibition last August, and the importance which the Association has obtained, has led the Directors to somewhat extend their prize list hoping thereby to increase the interest in this important industry, and make this, their second Exhibition, superior to anything of the same description ever before held in the Province.

The co-operation of all is cordially invited.
