

The Book that is Gripping the Reading World

A STUDENT IN ARMS

By **DONALD HANKEY**

INTRODUCTION BY J. ST. LOE STRACHEY, EDITOR OF "THE LONDON SPECTATOR."

Possibly the one real and great human book of the war—a book to enrich your understanding of a soldier's purpose, to kindle your patriotism and to stir your soul.

The Mail and Empire says:—"This book should be read by the chaplain, and by clergymen and ministers and all religious leaders—it has for all such people a most telling message. It can't help having an interest for all soldiers, and the reading public cannot afford to miss it. Hankey is gone, but though dead he still speaks, speaks with tremendous timeliness, and this book will come more and more into its own. One of these days the fighting will be over; doubt and confusion will try to assert themselves. For a war-weary world we know of no more strong, healthy, helpful and effective message than a 'Student in Arms.'"

Dr. Andrew Robertson says:—"This is a volume which can be recommended without any hesitancy or qualification whatever. No one runs any risk in saying the very best and the very highest with regard to it. With each article the wonder and the delight grow, until one was assured that the war had discovered one more of the great minds of England."

"Such chapters as that on 'The Beloved Captain,' and, perhaps, best of all, that on 'An Englishman Philosophizes,' once found are never lost again. It is always dangerous to prophesy, but one can scarcely be wrong in saying that, unless another miracle happens, this is the one permanent book which the war has given."
