second with two sons of the old bull. The milch cow class was a notable one. Turners won on Mountain Lass, a cow with a wonderful udder, chapely and capacious, correct dairy form but, if anything, a little lacking in size. She was not, however, looked after by her best as she was just newly calving. In the fourth place Turners had their great B.P. cow, Lady Jane, a fine specimen in Humeshaugh class and Lauries a good third with Shannonbank Lucy. Lauries had the best dry cow in a lengthy, deep cow that should look well when fresh. Stan- sell won the dry two year old class and Hume the milch class. Senior yearling heifers were a fine class of nine. "Not a cull in the bunch," remarked Mr. Ballantyne. The junior champion was found in Dainty Lass of Springbank, exhibited by Turner. Awards in full follow:
