

CO-OPERATION

It ain't the guns and armaments
 Nor funds that they can pay,
 But the close co-operation
 That makes them win the day.
 It ain't the individual,
 Nor the army as a whole,
 But the everlastin' team work
 Of every bloomin' soul.—Kipling.

THE information given below conveys some idea of the progress that has been made in Saskatchewan during the past seven years through the medium of Co-operation.

Our Shareholders now number 22,000, and, together, we have handled 127,000,000 bushels of grain. We make our own business by minding our own business. Co-operation is sufficient for any eventuality, and only by it can we hope to tackle successfully the problems which will confront us after the war. Let us prepare together.

"The East is East and the West is West, but never the twain shall meet." So wrote Kipling, but the twain shall meet—in Co-operation.
