The annual report of the Treasurer was presented showing the finances to be in a flourishing condition. The report of the Womens Auxilliary was also presented showing enthusiam among the ladies for the interests of the church highly flattering to them.

BILLIDING PAPER Their labors have added largely to the appearance of the church and to the interest in its ordinances. The election of church warden resulted in Mr. J. B Beaverton, Marren being returned as Peoples' Warden. Capt. C. A. Patterson, was appointed Minister's Warden, Mr.J.J. Cave was elected Synod representative of the congregation.

#### Cradle, Altar and Tomb. A Gratifying Record.

The following interesting statement has been handed us by Mr. R. Clarke, the esteemed Court Deputy of Court Barley per pushel, 43c. to 45c. At Beaverton, on Monday, April 12, mation we give will be read with interest, not only by our many readers who are Foresters, but by all our snbscribers:

Up to the present it has been the good fortune of the INDEPENDENT ORDER OF FORESTERS to find each year's history of the Order better than any preceeding year. Notably is this true of 1894; the record shows a higher gain than any other year. Allowing for deaths and lapses. The net gain in membership is 15,151. The total membership stood, on 31st December at 68,468. Another fact, equally gratifying, is that although the Order is now in the 20th year of its history, an age when the death rate might reasonage when the death rate might reasonably be expected to be increasing from year to year, the death rate for 1894 was 5.39 per 1000, as against 5,47 for 1893. Though the Order is a year older than it was twelve months ago yet owing to the influx of new members, the average age today is 24.82 as against 35.31 less years in other 34.82 as against 35.31 last year; in other words, we are growing younger as we grow older. We know of no fraternal organization where the average age of members is as low. It is an Order of young men, for young men. One of the most gratifying facts in the year's history is the rapid growth of the Reserve Fund. After paying out all death claims and sick and other benefits, claims and sick and other benefits, amounting to \$511,16230, the Order has increased the reserve by \$298,367.22 and stands now at \$1,255,188.57. This rather contradicts the assertions of financial journals that have been predicting all along that the reserve could not continue to grow, Four years ago we were told the end had been reached, growth would cease been reached, growth would cease, and the demands on the reserve to pay claims would wipe it out. As a matter of fact, the growth for 1894 of the character increase in Chairman. See'y Building Committee. of fact, the growth for 1894 of the reserve, shows the largest increase in its history. During 1894 the Order has been greatly extended both in America and Great Britain, the new organizations of the Order for the year being 4 high courts and 376 subordinate courts. The Subordinate Courts instituted show an average of over one per day, and the rate is increasing. Equally gratifying is the fact that the utmost harmony prevails that the utmost harmony prevails throughout the whole Order. The membership have the fullest confidence in the administrative ability and high integrity of Dr. Oronhyatekha, the Supreme Chief Ranger, and his colleagues on the Supreme Executive. Mr. W. J. Curran, of Toronto, spent leagues on the Supreme Executive.
The 26 High Courts are working cordially and heartly with the
