Lakeside Ayrshires.

The majority of our dairy readers throughout Ontario and all of the Eastern Provinces need very little introduction in the way of lengthy comment, to the high quality of the Lakeside herd of pure-bred Ayrshires, owned by Geo. H. Montgomery, K.C., of Phillipsburg, Que. For the past twelve years Lakeside Ayrshires have figured largely in the monthly reports of nearly all Record of Performance tests, as well as among championship awards at the Ottawa, Quebec and Sherbrooke exhibitions. The 1917 catalogue published recently, shows the strongest aggregate of breeding material Mr. Montgomery has ever had in the herd. The catalogue will be mailed to all on request, and in reviewing its pages it is interesting to note the number of great record sires that appear in every pedigree.

Barcheskie Cheerful Boy (imp.), Howie's Conductor (imp.), Hobbsland Bonnie Boy, Morton Mains Planet (imp.), and Auchenbrain Sea Foam (imp.), are sires that have all been used in the herd, and naturally the majority of the younger breeding females are got by these bulls. While their dams are, in nearly every instance, the good old imported cows that laid the foundation for the noted Ogilvie and Greenshield herds, from which Mr. Montgomery made his first selections.

Auchenbrain Sea Foam by Lessnessock Good Gift, dam Auchenbrain Buntie 18th, is still in service in the herd. He has been a prominent winner, different years, at all of three shows mentioned, and by his get, is proving himself one of the greatest sires that has ever seen service in the Dominion. The majority of the young bulls advertised for sale at present are by him, and each is good enough to ship any distance on approval.

Those who are in need of a young bull for the present season should write Mr. Montgomery at once for a catalogue and keep these youngsters got by Sea Foam in mind. His heifers, too, are showing wonderful promise. Several will soon be heard from in the R. O. P., and to use on these Mr. Montgomery has recently purchased the newly imported calf that won the grand champion ribbon for R. R. Ness at Ormstown when only four days out of quarantine.

Mr. McArthur, manager of the Lakeside herd, reports the following recent sales: To W. C. Strong, West Brome, Que., a 7-months bull from Ardyne Pomona, a 10,370-lb. cow; to Mr. Green, of Athens, Ont., a 9-months calf from a 7,200-lb. 3-year-old; To Noel Pelletier, Ecole de Agriculture, Saint Anne de La Pocatiere, Que., a May calf from a 10,237-lb. two-year-old, and to R. B. Angus, Montreal, a November calf by Auchenbrain Sea Foam, and out of a daughter of Barcheskie Cheerful Boy.

Questions and Answers.

Miscellaneous.

Sweet Clover.

1. What is the enclosed plant? I found it growing in my meadow. Is it a bad weed?

H. D.

Ans.—The plant is yellow-flowered sweet clover. It is not a noxious weed. Some are growing it as a feed crop for both hay and pasture. It is a biennial, and if not allowed to seed dies the second year.

Patents.

1. Is it legal for a minor to handle his or her own invention?

2. Where could a person get information regarding the getting a patent and disposing of same for an invention?

A. C.

Ans.—1 and 2. Write the Chief of the Patents Branch, Department of Agriculture, Ottawa, for full particulars.

Our No. 4 All-Steel Self-Dumping Rake

will give absolute satisfaction under any and all conditions. The wheels are solid, strong, interchangeable. The rake teeth are made of finest steel, oil tempered, elastic. The points of the teeth run parallel with the ground, and are so

curved and adjusted that they gather up every bit of hay without digging into the ground or stirring up grit and dust. The self-dumping device operates from either wheel and is adjustable for use in either heavy or light hay, also adjustable for fast or slow driving. Our New Rake is made in 8, 9 and 10 ft. sizes, for either one or two horses. Write for free descriptive folder.
