Always Ready for Hard Work

Long Hours or Lodged Grain Do Not Bother This Binder

The Frost & Wood No. 3 Binder was built purposely to stand up and work satisfactorily under the heaviest and most trying conditions to be met with in Canada. Long hours in the field may tire you, but the No. 3 is always ready for more work. Lodged Grain—Short Grain—Long Grain—the No. 3 cuts and ties it all into tight, compact bundles. In buying a Binder you want to be assured of three things—a machine that will cut all your crop; that is able to elevate and bind it into sheaves without crowding on the deck or missing at the Knotters; and one that is easily handled and light in draft, yet capable of standing hard work. You'll find these in all

Frost & Wood Binders

The Cutter bar is so arranged that the guards get down under the most tangled grain and save it all. The Reel is easy to operate—back, forward, up, down—so you can instantly shift it to suit varying conditions. That means clean work.

Elevators have ample capacity for handling the heaviest and lightest crop, and Frost & Wood Knotters have yet to be equalled for sure and positive work. Run the Binder as fast and as long as you like—you'll find it always ready to tie the next sheaf.

Are Light Draft Machines

Carefully-fitted Roller Bearings are put in every part where they will make things run easier. These Bearings on Frost & Wood machines are made to last and do their work. They won't fall apart and clog as do some others. They are there to make the Binder draw light, and they do it. The No. 3 is certainly easy on horses. There are features other than the presence of many Roller

Bearings that account for this—for instance the Eccentric Sprocket Wheel. You should get our special Binder Book describing the machine in detail. It contains much information that will prove interesting to you. A Frost & Wood Binder will do the work on your farm as you want it done, so don't wait another day to get more information about it. Ask our nearest agent or write us.
