

Red Eagle Gold Mining Co.,

Limited Liability.

Capitalization 1,200,000 Shares. Treasury 500,000 Shares. Par Value \$1.00. Fully Paid and Non-Assessable.

OFFICERS: W. H. Fife, President; Wm. Bennison, Vice President; Jno. W. Cover, Manager; T. G. Elgie, Secretary-Treasurer.

The Red Eagle Gold Mining Co.'s Properties

CONSIST OF THE

Red Eagle and Red Pole Mineral Claims,

Composed of about 75 acres.

The Red Eagle.

The Red Eagle mineral claim is situated on the east slope of Deer Park mountain, between the Mayflower and Curlew claims. There are three known ledges crossing this property. These veins are known as the South vein, the Curlew vein and the Mayflower vein. The South vein, which has produced some of the richest surface ore ever discovered in the district, is six to eight feet wide with a 24 inch pay streak, assays from which gave returns of \$18 to \$285. This vein was but recently discovered by workmen grading for a tramway across the claim for the sawmill company, and is generally regarded as the most important of recent discoveries in the south belt. This vein is traceable across the entire width of the claim a distance of over 1400 feet. On the Curlew ledge an open cut has been made exposing a vein of ore four feet wide, from which assays of from \$14 to \$161 per ton have been secured. This vein has been exposed by a number of shallow pits and crosscuts for several hundred feet. The Mayflower ledge, from which this well known mine is now shipping such high grade ore, crosses the Red Eagle claim for a distance of 300 feet.

The Red Pole.

The Red Pole is situated one-half mile south of the Red Eagle and east of the Silver Bell mine. The Silver Bell ledge crosses the Red Pole mineral claim. Assays from this vein have shown over \$100 per ton of gold and silver.

Treasury Shares.

The company has secured the survey and are applying for the Crown grant, and will continue developing the property all winter, and fully expect to be able to find pay ore to cover the development almost from the surface. But to prepare for all mining emergencies and to fully equip the property with machinery we have placed 500,000 shares in the treasury, a limited amount of which we offer to the public at the rate of 7 1/2 cents, and when the paid limit is reached the company will close their books and reopen in the course of ten days at an advanced rate for further stock.

Capital Stock 1,000,000. Par Value \$1.00.

FULLY PAID AND NON-ASSESSABLE.

Treasury Stock 350,000 Shares.

TRUSTEES. A. C. Sinclair, R. C. McDonald and J. S. Patterson, Rossland, B. C.

Head Office Mine
Rossland, B. C. The Snowdrop.

Description of Property.

The Snowdrop is 3 1/2 miles from Rossland in the South Belt. It is distant from the Crown Point about three-quarters of a mile. Adjoining it on the east is the Summit. A shaft on this claim shows a large ore body assaying \$12 per ton in gold. This vein runs through the Snowdrop. A site has been selected for a tunnel and work on the Snowdrop will be continued all winter.

Shares.

The remainder of the First block of Stock has been advanced to

Three Cents per Share.

The second block will shortly go on at Five Cents per share.

Officers.

Albert Stein, President; H. E. Cover, Vice-Pres. and Gen. Man.; J. A. Scaman, Secretary-Treasurer; W. H. Fife and W. J. Green, Trustees.

Description of Property.

The company owns the Trail Hunter and Cromwell mineral claims. The Trail Hunter is situated in the South Belt about 1 1/2 miles from Rossland and about 1/2 of a mile from the railroad on the Red Eagle. A strong iron-capped vein crosses the property and in the bottom of an 18-foot shaft there is a fine showing of ore. A wagon road has already been built to the property and development work will be pushed as rapidly as possible. Assays \$20 per ton.

The Cromwell is a full claim located on the North Fork of the Salmon River and joins the Lizzie B. and Porto Rico, two claims which were recently sold for \$63,000 and \$45,000 respectively. Assays have been obtained from the surface of the Cromwell running as high as \$140 in gold per ton.

It is the intention of the company to push development as rapidly as possible and has placed the unusually large sum of 500,000 shares in the treasury for that purpose.

The company is now offering the first block of stock at the low price of

Three and a Half Cents.

For shares, prospectus or other information apply to

Par Value \$1.00 Fully Paid and Non-Assessable.

Treasury 350,000 Shares.

OFFICERS AND DIRECTORS. Wm. Bennison, President; W. A. Campbell, Vice-President; M. O. Tibbits, Sec.-Treas.; J. W. Cover, Managing Director; C. O. Lalonde, A. J. McMillan, J. W. Boyd, Hiram Kitley, and J. S. Patterson.

Edward Pritchard, F. G. S., Consulting Engineer.

Head Office, Rossland, B. C.

Description of the Property.

The company owns the Annie Fraction and the Comet No. 2 mineral claims. The Annie Fraction is situated between the California, San Francisco and Black Bear, the latter of which is the property of the great Le Roi Mining & Smelting company and is the first western extension of the Le Roi mine. The vein of the Le Roi can be traced through the Annie Fraction and men at work on this property have tapped an ore chute at a depth of 40 feet from which assays gave returns of from \$14 to \$20.

The Comet No. 2 is a full claim, 1500 feet square, and lies about three miles north of Rossland. It has two strong well-defined ledges running through it. A prospecting shaft now down 10 feet shows nothing but vein matter the whole mass being well diffused with copper and iron pyrites. Assays averaging \$6 to \$8 have been obtained from this showing.

Shares.

The entire capital stock of the company excepting treasury shares has been pooled. The company now offers 50,000 shares of treasury stock at the low price of

Twelve and One-Half Cents a Share.

The proceeds will be used in purchasing machinery for the Annie Fraction.

For shares, prospectus or other information apply to

M. O. TIBBITTS, Secretary-Treasurer.

Or J. W. COVER, Managing Director.

ROS

Two Dollars a Year.

\$2,000,000 CAPITAL

Gooderham-Blackstock Syndicate Will Organize a New Company.

CALLED WAR EAGLE CON.

It Will Include the War Eagle, Crown Point Group, E. Lee and Five Silver Properties in the Sloan-The Probable Directors.

The sale of the War Eagle mine, subject to the ratification of the company at a meeting called for January 20 was concluded this week. The various articles on the subject appearing in this issue of THE MINER are from the daily edition of different dates.

Further particulars of the big War Eagle deal are at hand. The new company is to be known as the War Eagle Consolidated Mining company, capital \$2,000,000, with \$350,000 in the treasury for development purposes. There are to be 2,000,000 shares of the par value of \$1. George Gooderham, president of the Bank of Toronto, is to be president; the Hon. George Coxe, a member of the senate of Canada and president of the Bank of Commerce of Toronto, will probably be vice-president, and two of the directors will be T. G. Blackstock and W. H. Beatty of Toronto. Mr. Beatty is vice-president of the Bank of Toronto, president of the Toronto Silver Plate company and representative of the Wortz syndicate. Both Gooderham and Blackstock are pretty well known in Kootenay, owing to their connection with the Crown Point mine here. Coxe and Beatty are both wealthy men. The syndicate as now made up is a very strong one financially, and any move it may make will command attention.

The properties to be included in the consolidated company are the War Eagle, Crown Point, White Swan, Hidden Treasure, E. Lee (not Robert E. Lee), Tiger, Uncle Sam, Richmond, Star View, Empire, Watson and one quarter of the Summit. The last five are silver mines and not in this camp. It is presumed they are in the Sloan country, and that Mr. Beatty, the expert of the War Eagle, has been passed on by the Sloan syndicate and Blackstock. The sale of the War Eagle mine is to be included. The stock in the consolidated company are now being offered in eastern Canada at 80 cents.

It is understood that T. G. Blackstock will arrive here from Toronto between now and the 20th. He, and perhaps Mr. Gooderham will be here when the final transfer of the mine is made. Nothing is yet known as to what plans the new company may have as to the working of the War Eagle.

One thing is certain, they will find the property in fine condition. The winze now being sunk from the floor of the No. 2 tunnel is down 80 feet and the ore in the bottom is very rich. It is by far the highest grade ore ever taken from the mine. If it holds out as it is now to the level of the Iron Mask tunnel now being run in, which will require the winze to be 175 feet deeper, the War Eagle will rank among the richest and greatest mines in the world and will be worth many millions of dollars.

MAKES A GOOD REPORT.

Superintendent Peterson of the Waneta-Trail Creek Company Pleased.

P. W. Peterson, superintendent of the work on the Waneta & Trail Creek Gold Mining company's property is in town. A meeting of the directors of the company was held last evening at which Mr. Peterson was present. His report was exceedingly satisfactory.

The company has one shaft down 30 feet following a stringer of galena ore from which an assay of over \$29 has been obtained. In another place they have a tunnel in 25 feet from which they have sunk 15 feet upon a vein of copper ore a foot wide of a very good grade. Three mining engineers have looked at the property and each expressed the opinion that the company has a mine, and all that is needed is further development.

The company's new prospectus is out and contains a picture of the property and all the surrounding mountains together with a view of the town of Waneta and a sketch plan of the Trail Creek district.

IDA QUEEN ASSAYS WELL.

It is a Lockout Mountain Property and Runs Best in Silver.

George Nelson, the general manager of the Ida Queen Gold Mining company, operating the Ida Queen on Lookout mountain, has some fine looking specimens of the ore that is now being extracted. The mineral in the quartz has a curiously dark cast. Assays of the ore gave 66 ounces in silver and \$14 in gold. Active mining development will continue throughout the winter.

TWO MEN INJURED.

Dynamite Explosion at the Monte Cristo Mine Last Night.

Luther Campbell and James Hatch, two men working in the Monte Cristo mine, were hurt about 9 o'clock last night by an explosion of dynamite. They had gone into the mine after a blast and were picking about when one of them struck a piece of dynamite which had been left in a hole partially
