THE NAVY PROPOSAL. "The Simcoe Reformer says it is pleased to keep the course of the people who are not on the naval programmes of the party is a large one—greater the politicians imagine—Stratton (Liberal). Why should the Reformer at Beacon imagine that so large a ber do not want Canada to do what it all on behalf of the M. Land? Surely any thinking Canadian realize that there has been an overdue obligation upon the people of the Dominion in this matter. It is all very well to deplore enormous navy outlays, and yet John Bull is not to blame. He has frankly stated that he stop if the other fellows do, but won't, especially Germany, and ain't she supremacy is of vital importance to the whole Empire, more especially Canada. For countless years the people three tight little islands borne the burden alone. Canada in a monetary way has been worth one cent to the Old World. We do not contribute one cent taxes, and all we have done, accept and pay a Governor-General from the Old Land, who has what he has been advised by the lobby of the day. It has cost and is costing the British taxpayer, many hundreds of millions to make secure the coasts of the commerce of all us who proud to pay allegiance to the old Union Jack and why should the sons and daughters lend a hand. In the name of common decency those who object to do any ought not to feel proud of that."

CHOICE FARMS! 100 extra good clay loam, situated 3 miles East of Brantford, red brick house, 8 rooms, cellar under whole house, bank barn, drive shed, pig pen and other buildings; fenced good, spring creek running through farm; 20 acres Fall ploughing, 20 acres seeded, 2000 lbs. Fall wheat. Immediate possession. Price \$2800. This is a bargain for any one wishing a choice farm close to the city. We also have a large list of farm and city property. Call and see us before buying.

THE RISE OF JAPAN. Who would have thought a years ago that little Japan with area of about 150,000 square miles (Ontario alone has an area of 40 square miles) would some day among the first nations and have been taken heed of as such? Yet so it is. Only as recently as 1853 the United States signed a treaty with the of the Mikado, and it shortly began to take the marvellous which in the lifetime of one placed her in the forefront with empires.

When the Japs thrashed the nose, the achievement was regarded as more of less of an easy job, when single handed they tackled Asia (a power which all other nations had been secretly loth to take notice of) and did up the job on land and sea to the King's taste rest of the world began to sit up and take notice that a new power was arrived.

Now Japan is of such importance that even the President of the United States has roused his chief aide, Bryan, to California, in order to avoid friction with the Girl country.

Japan's fleet is smaller than of the United States, but more modern. She can place, if necessary, a million and a quarter of fighting in the field, and what fighters are.

Mr. Frederick Villiers, the famous old war correspondent, a man who has seen and reported...
