MUTILATED COINS.

Could You Be Sent to Jail?—Assistant Receiver-General Writes a Letter That May Cause Many Shivers.

In the following letter to the press of Toronto, Mr. David Creighton, the Assistant Receiver-General, gives life average citizen an attack of the shivers, if he does not, in fact, subject the reader to nervous prostration. Though punched and mutilated coins are common, nowadays, most people regard their possession merely as a nuisance, rather than as a jeopardizing of personal liberty. But now Mr. Creighton, at one fell stroke, destroys our cherished sense of security by clearly pointing out that we have all offended against the Criminal Code, probably, time and time again, and that we are likely any day to repeat the crime. In short, few have not broken section 475 of the Code, and by "uttering gold or silver coin of less than its lawful weight," become liable to three years' imprisonment. Because of the startling information contained in it, Mr. Creighton's letter is appended in full:

Some one, through the Toronto press, has been enquiring what to do with mutilated and defaced coins. It is a notorious fact that many such coins remain in circulation, but I believe their circulation would soon be stopped if people were aware what severe penalties they incur by themselves liable to by passing them. For public information, publish the following sections of the Criminal Code:

468. Everyone is guilty of an indictable offence and liable to two years' imprisonment who imparts, diminishes or lightens any current gold or silver coin, with intent that the coin so impaired, diminished or lightened may pass for current gold or silver coin.

469. Everyone is guilty of an indictable offence and liable to one year's imprisonment who defaces any current gold, silver or copper coin by stamping thereon any names or words, whether such coin is or is not thereby diminished or lightened, and afterward tenders the same.

475. Everyone is guilty of an indictable offence and liable to three years' imprisonment who utters, as being current gold or silver coin, of less than its lawful weight, knowing such coin to have been impaired, diminished or lightened, otherwise than by lawful wear.

476. Every one who utters any coin defaced by having stamped thereon any names or words, is guilty of an offence, and liable, on summary conviction before two justices of the peace, to a penalty not exceeding ten dollars.

The easiest way for a person into whose possession any of these mutilated or defaced coins have come, to get rid of them, is to sell them to a jeweller for old gold or silver.

ASTRONOMY IN CANADA.

Paper by Mr. W. F. King, Dominion Astronomer.—An interesting paper recently before the Astronomical Society, Toronto, on "Astronomy in Canada." Mr. King explained first the conditions which had caused the chief line of practice in astronomy in Canada to be with reference to its direct practical applications, in surveying especially, the determination of the meridian line, and of latitudes and longitudes, and of time. Owing to the necessity of our students earning their own living, they naturally turned to the branches of science from which they could derive practical results, and therefore astronomy had not made as great progress here as in older and more wealthy countries. Speaking of the equipment and aims of the Government observatory, which is now in course of erection at Ottawa, Mr. King gave this statement of the objects which a public observatory should have in mind:

A national observatory, maintained by the Government, should aim chiefly at kinds of work not easily within the reach of private and educational observatories, extended series of observations which require persistent prosecution without interruption or material change of plan, such, for instance, as:

(a) Continuous observations of the positions of the sun, moon and planets, partly by the meridian circle, partly by photography.

(b) The determination of the absolute positions of a reasonably large list of fundamental stars, and of such other stars as are needed for reference points by observers of planets or comets, or by those engaged in geodetic operations.

(c) Certain astrophysical investigations, especially in the line of stellar spectroscopy.

(d) The refined reduction and prompt publication of the results of observation, this implying a thorough mathematical study of the theories involved and investigation of their corrections.

In the course of his remarks he mentioned that the Astronomical Department at Ottawa is about to install a new fifteen-inch equatorial telescope, equipped with a large spectrometer and eight-inch photographic camera, besides the usual micrometric means of making accurate measurements, and a meridian circle of good size with the accompanying instruments for meteorological and geodetic observations. It is proposed to open the Observatory at Ottawa to the public once a week.

Profit From Waterloo.

The Duke of Wellington, who has no occasion to worry as to whether his income will be sufficient for his needs, has just been officially informed that his revenues have been increased. Ever since the battle of Waterloo the Duke of Wellington has received a yearly grant of money from Belgium. An infinitesimal parcel of land belonging to the duke, and valued at 115 francs 50c. (\$23.12), has been acquired by a railway company, with the result that a clear profit to the revenues of the Kingdom of Wellington of 3 francs 75c. (75 cents) has accrued.

How to Get Rich.

Take a quantity of silica costing one-fourth the price of oil; mix it with oil, and sell the compound to the public at the price of pure oil; offer "prizes" with the compound to make it sell. It is such a compound the public get when they buy common soaps. In Sunlight Soap—Octagon Bar—the public buy a pure and well-made soap. Sunlight Soap reduces expenses by prolonging the life of the articles washed with it, which is much more profitable to the public, than common soaps with "prizes." 204

Discretion is an old-fashioned virtue, perhaps, but it has made many women beloved and many men successful.

Nature has just one pigment on her palette with which she produces all the beautiful tints of beauty, and that one pigment is the blood. The shell-like pink beneath the finger nails, the delicate rose of the cheek, the cherry ripeness of the lips, the iridescent brilliancy of the eyes are all produced by the blood. Just as the permanence of a beautiful painting will depend upon the purity of the colors with which it is painted, so the permanence of beauty depends on the purity of the blood. Paint, powder and cosmetics won't avail to preserve beauty. Beauty begins in the blood. Dr. Pierce's Golden Medical Discovery is a true BLOOD-MAKING LINIMENT. It gives you nature that pure blood with which alone she can paint. The use of this medicine will cleanse the skin, heighten the complexion, brighten the eyes, and give to face and form that radiance of health which is the greatest charm of beauty. Dr. Pierce's Pleasant Pellets are very effective in ridding the system of clogging residuum, which accumulates with constipated habit.

He who has never helped the needy knows but little of the richer light that falls on the pathway of the just.

Messrs. C. C. Richards & Co.

Gentlemen,—My three children were dangerously low with diphtheria. On the advice of our priest my wife began the use of MINARD'S LINIMENT. In two hours they were greatly relieved, and in five days they were completely well, and I firmly believe your valuable Liniment saved the lives of my children.

Gratefully yours,

How a Sprain Does Hurt

But isn't the pain alone that is dreaded, just think of the loss of time and wages. Sprains without number have been cured by rubbing Polson's Nervine well into the pores of the skin surrounding the joint. No matter whether it is a sprained wrist, ankle, knee or back, just try Nervine on it, and see how quickly it will cure. There is only one liniment that can be depended upon to cure sprains, strains and swellings, and that is Polson's Nervine. Large bottle 25 cents.

Visitor—So your brother is taking lessons on the violin. Is he making progress?
Little Girl—Yes'm; he's got so now we can tell whether he is tuning or playing.

Never Say Die.

You may be weak, miserable, nervous, sleepless, your digestion may be poor, and you despair. Never say die, until you have used Ferrozone, the most wonderful blood maker, nerve strengthener and brain invigorator. It tones up the whole system. You can eat anything and digest it if you use Ferrozone. You sleep well. You make blood quickly, strength increases daily, in a short time you're well. Try Ferrozone, which you can obtain at McCall & Co's Drug Store.

Only the religion that is realized as a personal experience has power to sweeten and lift the life.

Here is a Pointer.

Because you haven't used Catarrh-ozone is the best reason why you should use it right away. It will cure the Catarrh that makes your breath so heavy and your hearing so poor. Catarrh-ozone is a scientific cure for Catarrh, Bronchitis and Asthma, recommended by doctors and druggists as a certain cure. Mr. Henry A. Taylor, the oldest druggist in Halifax, says, "Catarrh-ozone gives satisfaction wherever it goes. It is simple and convenient to use, and enjoys fully three times the sale of any other Catarrh remedy sold in the city. Catarrh-ozone is guaranteed to cure, and if it fails you can have your money returned. Price \$1.00 for two months' treatment. Small size 25c. Druggists or Polson & Co., Kingston, Ont.

WINTER FASHION HINTS.

Smart Costumes in the Color—Green and Black Combinations.

The old fashioned notion of the light blouse with the dark coat and skirt is only permissible for purely practical purposes. Even then it is better to have some sort of connection between the waist and the skirt. For instance, if you have a dark blue Russian blouse coat and skirt it is better taste to wear under it a waist of some blue material or white material figured in blue.

The craze this autumn among smart women is to dress entirely in one color from headgear down. This can be carried out particularly well in the browns and dark reds.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its states, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient health and strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
