## FARMERS READ THI

MCCORMICK CORN HARVESTERS GIVE PERFECT SATISFACTION.

This is to certify that we witnessed the operation of one of your Corn Harvesters on the farm of Mr. James Holmes, and are pleased to say that it is one of the most perfect pieces of machinery that we ever saw for cutting and handling corn, and in point of making an even but and tying. The sheaf carrier works to perfection, in point of making an even but and tying. The sheaf carrier works to perfection, there not being any ears knocked off. It is very easy draft, has no side draft, and two horses had it with ease.

We would recommend the McCormick Corn Harvester to any persons wishing to purchase a corn harvester.
