

THE ACADIAN.

WOLFVILLE, N. S., MAY 5, 1911.

School Books.

The parents in Nova Scotia who have to buy school books for their children are paying nearly four times for their books as much as they pay in Ontario. This means that the parents of Kings county are being bled most freely. Some one is getting the difference while the Murray government is looking on with a wide smile while this "sweating" process is being performed.

Now don't any one imagine for a moment that there is no remedy, because there is. The blame lies right at the feet of the Murray government, and they alone are responsible for this robbery in the price of our school books. They could remedy the evil immediately if they wished to, but instead of that they protect the school book ring of Halifax and permit them to get the parents' money. When elections come on the ring are all too ready to help the government, and the help is human and not in prayers. When the old Ross government was defeated and the Whitney government came into power, almost the first thing they did was to appoint a commission to investigate the question of cheaper school books. The result was revelations of a system of graft and stealing almost unbelievable, and when the present Murray government is cast away an unearthing will take place in Nova Scotia.

Ontario is to-day selling its school books from 30 to 40 per cent. cheaper than they were sold under the previous government, and almost identical with the experience of Ontario, was that of New Brunswick, immediately the old government was defeated, so that to-day their school books are 40 per cent. cheaper than previous to 1908.

And yet the government at Halifax has not, will not and dare not use a finger to solve the hardship. Is it not about time for a change?

For Aged People.

OLD FOLKS SHOULD BE CAREFUL IN THEIR SELECTION OF REGULATIVE MEDICINE.

We have a safe, dependable and altogether ideal remedy that is particularly adapted to the requirements of aged people and persons of weak constitutions who suffer from constipation or other bowel disorders. We are so certain that it will relieve these complaints and give absolute satisfaction in every particular that we offer it with our personal guarantee that it shall cost the user nothing if it fails to substantiate our claims. This remedy is called Rexall Orderlies.

Rexall Orderlies have a soothing, healing, strengthening, tonic and regulative action upon the bowels. They remove all irritation, dryness, soreness and weakness. They restore the bowels and associate organs to more vigorous and healthy activity. They are eaten like candy, may be taken at any time without inconvenience, do not cause any griping, nausea, diarrhoea, excessive looseness, flatulence or other disagreeable effect. Price 25c and 50c. Sold only at our store—The Rexall Store, A. V. Rand.

Horse Show.

Drags, (5 entries)—1st, C. C. H. Eaton, Casard; 2nd, George Starr, Port Williams; 3rd, J. H. Lyne Evans, Church St.

A Good Medicine for the Baby.

Baby's Own Tablets is the one medicine that can be given little ones with the firm knowledge that nothing but good will result. The Tablets are sold under the guarantee of a government analyst to contain no opiate nor any other drug which will harm the youngest child—they cannot possibly do harm; they always do good, and once a mother has used them she will never again give her little ones castor oil or the "soothing" stuff which simply drug baby into temporary relief and in the end do harm. Mrs. Phyllis Parada, Hampton, Que., writes: "Send me two more boxes of Baby's Own Tablets. I have used them for constipation and have always found them very good. My baby is certainly progressing under the Tablets." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Political Pot Boiling.

As the provincial campaign in Nova Scotia progresses some interesting sidelights are being developed. Mr. E. M. Macdonald, the federal member from Pictou county, can be put down as the next judge to be appointed in this province, where a vacancy is said to be pending. A Kings county K. C., a perennial applicant for a vacancy upon the Bench, so it is said, is again to be relegated to the political necessities of the people who fix all such questions.

The political pot has been boiling of late, and over a fever and subservient K. C. is absolutely "out of it" for a time at least, and in the meantime there may be a new king over Egypt which knew not Joseph.

There is the best evidence for stating that the member for Pictou has been on the point of bolting from his party on the reciprocity question. At the federal capital he has not opened his mouth in favor of it, but was known to be really in sympathy with his political friends, Sifton, German, Harris and Sealey. He kept away from the House on various pretexts. It was a too bitter pill for him to digest in more ways than one. If we were to say that Mr. Macdonald had denounced the pact to his intimate friends it might be hard to prove, because these friends would not go back on their friend Macdonald. If it were alleged that for a long while he and Mr. Fielding were on anything but friendly terms, another denial might be produced, but one that would bring a smile even to the face of the Premier of Canada himself, than whom no one knows better the relations existing between these two leading Liberals from our little province. No judge has been appointed since 1896 without the personal approval by intimate knowledge of the Premier himself. In fact Sir Wilfrid appoints the judges, and he only.

It is known that when the reciprocity question was first presented, Mr. Fielding insisted, with the co-operation of Premier Murray, that the pact be a paramount issue in the coming provincial campaign, because these two gentlemen believed that it would be so popular as to overshadow all local shortcomings of the Murray Government. Everything was prepared, the stage was erected, a resolution of approval passed the Legislature, Murray warmly espoused it in a speech made at his Halifax banquet. But, there came a change. Something cracked, and that something, it transpired, was the revelation of a strong adverse sentiment throughout the whole province, when once the people had an opportunity to follow the arguments pro and con. The faithful were summoned to Halifax from the various sections and their opinions earnestly solicited. The farmers, the lumbermen, the fishermen and the artisan all had arguments in opposition to the reciprocity agreement, and this was a big surprise party for Mr. Murray, and, above all, throughout loyal Nova Scotia there was a sentiment showing that our prosperity, so boasted about by Premier Murray, had been brought about under a self respecting Canadian policy, despite hostile American tariffs and the too plain signs that lay behind these tariff enactments. And beside, there was no necessity for such a radical departure, when the trade relations between Canada and Great Britain were on the point of being further attenuated in the general interests of the empire.

But a still further element dropped up to spoil the little plans so nicely laid by Mr. Fielding, and of course seconded by Premier Murray. While Mr. Fielding, as is his wont being wedded to his idols, was unwilling that any changes should occur in his mapped out and stamped program, and the faithful Murray, anxious to go with the Finance Minister, with-
soever he went, a new actor appeared upon the scene in the Hon. Mr. Maclean, the Attorney General, who is somewhat determined and clear-headed. He didn't show much pleasure in this Fielding-Murray program and set himself to the task of relegating it to the scrap heap despite Fielding's stubbornness and Murray's smile. He let it be known that he did not throw up his job at Ottawa and interfere with his political outlook in the larger field to be led by the nose as regards matters of policy for this province. He felt it was his part as one in training for the premiership of Nova Scotia to put his ear to the ground and report what he heard. He, therefore, let the great Fielding know that the reciprocity agreement was bound to be a failure, and so the program was much altered, and Premier Murray is now on record as advising his followers to "defend the pact if you have it, but otherwise do not regard it as an issue in the coming campaign." Mr. Maclean knew the powerful and far-reaching influences arrayed against the pact, and he wisely refused to be dragged along at the wheels of Mr. Fielding's Yankee driven chariot.

Pictou was selected by Mr. Fielding, with the assistance of Mr. Murray, as the strategic point for the newly arranged program to be displayed. Mr. Macdonald, with his promises and agreements, couldn't help being present, and his endorsement of reciprocity was not only a lesson of a momentary defeat by the leader but it did not do so how could he deliver his end of the deal. E. M. Macdonald, M. P., has a ghost of a chance to win Pictou to a federal contest because of the reciprocity pact, and he knows it. Mr. Macdonald is slated for the Nova Scotia Bench. The leading politicians all have their eyes, while the loyal masses of real men, seldom, if ever, gets there. These other chaps are in the way.

EVER HAVE YOUR EYES EXAMINED?

In railroad and other lines of business all employees have to go through severe tests at regular intervals.

That is because eye strain is becoming more common and because it is worth guarding against.

We make no charge for testing your eyesight and our system of examination is based on scientific calculations that a child can understand.

Eye rest for tired eyes is obtained from our scientifically fitted glasses.

CARD.

To the Rectors of Kings County—GENTLEMEN.—Having been nominated by the Liberal Conservative Convention, I beg to solicit your suffrages in the coming Provincial Election.

While believing in the principles of the Liberal Conservative party, I am not of those who cannot see any good thing in my political opponents. I am in general accord with the agricultural policy of the Provincial Government. Representing the Fruit Growers' and Farmers' Associations, it has been my duty on a number of occasions to recommend to the Secretary for Agriculture a progressive policy. These associations, largely composed of Kings County farmers, have been a great factor in determining the policy of the government. Kings County fruit men established the Horticulture School at Wolfville, proposed the Provincial Agriculture College and forced the government to establish the Fruit Station at Kentville.

In common with the electors of this County, I must emphatically condemn the present road legislation, as impractical, wasteful and expensive. The Municipal Council unanimously denounced this legislation as detrimental to our interests, and by delegation led by the then Warden, asked for amendments that were not conceded. The experience of the past three years has not lessened in any degree the feeling of opposition. I am against the Road Policy of the government, first, last and all the time.

My attitude on the temperance question is well known. In the Municipal Council I have always stood for strict enforcement of existing laws, and a progressive forward temperance policy.

With confidence, I appeal to an electorate of whom ninety per cent. are fruit growers to support a practical fruit grower. For nearly twenty years, as secretary of the Fruit Growers' Association, I have done what I could to advance the interests of our business and of our country. My record is before you. Many of you know me personally, and I am confident, were it not for petty partisan politics I would receive your unanimous support. I appeal to you fruit growers, with whom I have worked shoulder to shoulder in building up our great orchard interest, to elect, as you easily can, one whom you know is in full sympathy with the best interests of this County. Yours very sincerely, S. C. PARKER, Berwick, May 1, 1910.

CARPET SQUARES

We have picked the best goods and most attractive patterns among the productions of the leading Carpet Mills.

They are well worth looking at, but if you cannot come, write, and we will send you full particulars about sizes and colors you are interested in, in many cases sending colored prints of the designs.

AMSTERDAMS with their deep, noiseless pile, BRUSSELS, so well known for hard wear, TAPESTRIES in handsome colorings.

WOOLS AND UNIONS at very low prices.

Our CATALOGUE tells about them.

We pay FREIGHT on orders amounting to \$10 or more.

WORKS LIKE A VACUUM CLEANER

Why not give your body a spring house cleaning? It is reasonable.

You stay indoors too much all winter—you breathe foul air—you sleep in close rooms—you eat too much. In fact your winter life is pretty much artificial and unnatural.

Then why not renovate your whole system this Spring?

Take a short-cut to youth and energy.

Nyal's Spring Tonic is the thing.

Sulphur and molasses was grandmother's way. She also scrubbed her fingernails off every Spring.

But Nyal's Spring Tonic is a regular up-to-date vacuum cleaner by comparison. Gives new snap and vim—puts life and spring into your muscles—makes you feel fit and ready.

One Dollar per Large Bottle.

Poultry Raising That Pay It All Back—And More

Many a dollar is invested in poultry raising and never comes back—for the simple reason that the necessary knowledge has not also been invested. The way to get your money back, and a lot more with it, is to learn exactly what to do, and how to do it.

You cannot get this practical knowledge from a book. You have to get it from those who have made big money raising poultry through right methods. The help and assistance of such experts are given you in the Poultry Course of the International Correspondence Schools. Every phase of successful poultry raising is covered in a clear, concise, practical way. He is an expert on the subject.

How to select most profitable breeds; feeding; marketing; eggs and poultry for profit; natural and artificial brooding; natural and artificial incubation; laying hens; combination plant poultry appliances; enemies of poultry; poultry houses and management; turkeys; water fowls; squabs; etc.

Besides all this, the I. C. S. is associated with the largest poultry farm in the world—the Ranmore Poultry Farm—where experiments of every kind are made for the benefit of those taking this Course.

The attached coupon will bring you descriptive circular of the great Poultry-Raising Course. Fill it in and mail it today.

International Correspondence Schools, 308 BEE, SCRANTON, PA.

Please send me free, and without cost, the circular in my name, circular of the Poultry-Raising Course.
