UNFERMENTED WINE!

KENSINGTON HIGH STREET, LON-DON, W.

"City Analyst's Laboratory, Glasgow.
"I have made a careful chemical analysis of the sample of Unfermented Wine received on the 29th ult., and have found it to have the composition of the fresh juice of ripe grapes, and to be entirely free from Alcohol, as well as other extraneous substances, with the exception of a trace of a preservative agent which is harmless. It is pleasent to the taste, and there cannot be a doubt as to its being perfectly wholesome.

perfectly wholesome.

N. B.—The sample here referred to was submitted to analysis for the information of the Elders of a large Church in Glas gow, which was then contemplating the use of Unfermented Wine, and was obtained from Mr. Wright's agent in the ordinary course of business without his knowledge. The result of the Analysis is kindly placed at the disposal of Mr. Wright by the Church Officers referred to.

MAKES A WRITING INK

Prepared for Sacremental and Dietic Uses by F. WRIGHT, Manufacturing Chemist,

THIS WINE is guranteed to be the juice of the finest grapes of the Cote D'OR, ANDALUSIA, and the MEDOC. It is perfectly free from ALCOHOL, and is guaranteed to be PURE GRAPE JUICE. It has stood the test of 22 years continuous sale in every climate, and is now used in upwards of 3,000 Churches of all denominations. The mode of manufacture is a slight modification of a well-known ancient practice, and effectually preserves the grateful flavour and the rich nutritious qualities of the grape unimpaired. It is therefore admirably adapted to cases of debility and fever, in which the stomach is too weak to digest other food. Children suffering from febrile ailments drink it with avidity, even when all other food has been refused.
