OUR SCHOOL INSPECTOR'S GRAMMAR, ETC.

wear poorer coats than other men, and that no mans shoes are half so tattered as the shoemakers: on the scholars write elegantly and well, sitions.

The new Inspectors, all, save one. have written lengthy reports to the Education Office, and some of these their duties nobly !! but in others out a pocket dictionary. much culpable carelessness and ins Inspector Gaunce writes a report, benefit of the Inspector we may say be our aim to loss our inferior teachs when the subject of a sentence is made ers.' Had be said it should be our up of two or more nouns, joined by aim to get rid of such teachers we "and" a plural verb is required.

questions the Inspector begins a paragraph thus, "Much ill feeling, and animosity is also displayed" etc. The Inspector ought to borrow a grammar—as some little knowledge granted local licenses. He says, of the rudin ents of English grammar would be convenient for a School In-

fashion, "I found that there was quite a number of teachers at work etc. Perhaps Mr. Smith thought his report would sot read well if he hadn't place he speaks of 'quite a sum of would be bad enough for an Editor, money.' He also gravely tells us that reading is one of the greatest. lime ssource of information." Well now, but is not that a wonderful statement! Any other writer in his senses would say it was the greatest.

He thinks people ought to have entertainments in the school houses in the evenings, that by this means a library could be collected, and have the books, he says, 'Not only would the young become educated and intelligent, but the old as well. Imagire a poor old farm, r of 70 becoming all at once 'educated and intelligent' from baving a half dezen books in a school house library It is evident the Board of Education will soon want to see ab ut building a Lunatic Asylumin conta xion with the Normal School. And thus be

"And now I would tender my most you, he thanks Messra Wilson and Robinson, but be forgets to say from whom le received the "kindness and courtey," &c. Exit poor Inspector

Inspector Wetmore has this clegant sentence in his report. "One school in No. 6 Hampstead, was not visited on recount of my being detained a day at OakPein Ferry by high winds, and thus missing the appointment." Everybedy of comie can see how necessary the "and" is here, and how it assigns two reasons, as it one were not enough for not visiting the poor only in such cases as Where "trained is sul lime composition!

says, "This is a wise provision, of Great is Gri ism and Snowball is its necessity &c., as it will appear when prophet!

the schools shall be opened." He for got just then that there was a future perfect terse, -or he would have writ ien, "shall have been opened." He chides the teacher's for not having J. E. COLLINS EDITOR certain supplementary books, and one of these "Herbert Spencer on Educaion." Now Herbert Spencer is a man who does not believe in a personal with such absurdities as the 'quality display shabbiness, bad English and of the knowledge acquired by the bad grammar in their own compo- pupils under certain conditions, &c..

Mr Eldor Mullin writes a fair report but when he tells us he hopes truly do exhibit wonderful samples of that 'the next few years will witness style and elegance. Giancing through a revival of Educational activity, we them yesterday, pencil in hand, we are melined to think he looks upon noted a few cases in point, and Education in the province as having marked them down for-posterity. dropped off, as having once been what Reading over Mt. Valentin A. Lans it ought to be; for a 'revival' in this dry's report, we find that in speaking sense would mean a return to the old of the laxity of Trustees he says "In conditions not a stirring up de novo. some districts these officers discharge No school inspector should be with-

difference is manifested." Of course rich in figures of speech, and altoif Mr. Landry saw a pupil make such gether presents a cleverly wrought a blunder as this in grammar, he out document. But his composition intended only for the boys, not for and overstrains construction in a few etc., in next issue, the Inspectors. However for the cases. For example he says 'It must

might allow his language. A losing' teacher) is lax or inefficient those as the fitteen puzzle. He then speaks what is complained of is perverting stated visits (by the trustees) will of some children who could read no the intention of the system, and the intention of the system. prove an excellent stimulus." A new farther than the fourth book; and above all let us have assurance of slaughter away, and went to work, they prove an excellent stimulus." A new farther than the fourth book; and above at the distance of the principal of some, in certain subjects having this from gentlemen of culture who improving an "inefficient" of some, in certain subjects having this from gentlemen of culture who in the fourth book; and above at the distance of the principal came into New Brunswick tound plenty of some, in certain subjects having the principal came into New Brunswick tound plenty of some, in certain subjects having the principal came into New Brunswick tound plenty of some, in certain subjects having the principal came into New Brunswick tound plenty of some, in certain subjects having the principal came into New Brunswick tound plenty of some, in certain subjects having the principal came into New Brunswick tound plenty of some, in certain subjects having the principal came into New Brunswick tound plenty of some, in certain subjects having the principal came into New Brunswick tound plenty of some, in certain subjects having the principal came into New Brunswick tound plenty of some, in certain subjects having the principal came into New Brunswick tound plenty of some in the came into New Brunswick tound plenty of some in the came into New Brunswick tound plenty of some in the came into New Brunswick tound plenty of some into New Brunswick tound plenty of some in the came into New Brunswick tound plenty of some into New Brunswick tound plen teacher, is to "stimulate" him. Now you might stimulate a "lax" or remiss when he ought to have known that you might slimulate a "lax" or remiss elegant writers of this age would have change will soon be necessary but we strip these of their bark and let the teacher, but Inspector Landry is the written further.' PUBLIC REPORTS.

We have not been enabled to day to give any of our space to llon. Michael Adam's Report on Crown we shall do so in other issues.—
The report is an entire departure from the old beaten track where every pig, and every calf, and every goat that the settler on free grants had, was duly set down, and every head of cabbage, and bnshel of potentiates raised, accurately accounted for. Now we have all the information of the settler on the part of the settler on free grants had being tribes and bushel of potentiates are unarmed.

If any change in Local representation is to be made, let us wait till the call them by the old name of Miramichi. Last season 349 Miramichi. Last season 349 Several French subjects in Algeria have been taken.

Several French subjects in Algeria have been killed by maranding tribes men from Tunis.

Several French subjects in Algeria have been killed by maranding tribes men from Tunis.

HEMLOCK QUESTION

The report is an entire departure call them by the old name of Miramichi. Last season 349 Miramichi. Last season 349 Miramichi with cargoes of lumber for the European and Australian markets. If to these we add coasters we have a total of 700 John O'Neill, westerly by lands occupied by Thomas Lowis and in rear by the base-line trade. We will do this and hours of 12 o'clock noon and 5 o'clock call them by the old name of Miramichi. Last season 349 Miramichi. Last season 349 Miramichi with cargoes of lumber for the European and Australian markets. If to these we add coasters we have a total of 700 John O'Neill, westerly by lands occupied by Thomas Lowis and in rear by the base-line God, but says what we call a Deity is from the old beaten track where cousas have been taken. There is an old saying that tailors a Force underlying nature, belonging every pig, and every calf, and every to matter, and with nothing Spiri- goat that the settler on free grants tual about it. He laughs at the term had, was duly set down, and every God, and uses instead the term Un- head of cabbage, and bushel of poknown. Would Mr Oakes have such tatoes raised, accurately accounted urally find that our School Inspectors a man's book as a 'chart for the for. Now we have all the informawhose trade is to see that teachers and teacher.' We have not time to deal tion necessary respecting the settle to the members of the local legisof "tables," we have a report from ProfessorSheldon and MrSparro v on and shall let Mr Oakes by for the the Agricultural resources of the pro-&c. &c. But better than all is the was not left to our keeping. tale of a surplus of over \$30,000 for the year, which it tells. We congratulate the Surveyor General, but shall not further anticipate the report.
