"Scrap Iron"

Charles E. Van Loun's Saturday Evening Post Story. It's not as a rube, not as a dude that he is seen but as a boy who meets trouble with two fists, just a mill-hand with a mother to support. It is doubly a triumph for Mr. Ray, who not only took the title role but directed the picture himself.

Rheumatic Treatment

This Trouble Can Only be Got Rid of by Enriching the Blood.

In no disease does the blood become thin so rapidly as in rheumatism. Not only does it become thin, but it is loaded with rheumatic poisons. Without proper treatment these poisons increase, the general health is undermined, the inflamed joints swell, and are very painful, and often the sufferer becomes crippled.

Dr. Williams' Pink Pills build up the blood and enable it to cast out the rheumatic poisons with the natural secretions of the body, thus driving out the pains and benefitting the general health. Sound proof of these statements is offered by Mrs. George Stanley, Sparta, Ont., who says:—"For a number of years I was troubled with rheumatism, which at times was very painful. My general health was also affected, and I could scarcely drag myself around. I had been doctoring a good deal, but did not get any better, until one day my daughter brought me a box of Dr. Williams' Pink Pills. By the time these were used I could notice a slight improvement, and I continued taking the pills until I had used about a dozen boxes, by which time I felt like a new person—and looked like one. I could do my work with ease, and have since enjoyed the best of health. I have since recommended Dr. Williams' Pink Pills to several others who received the same benefit as myself."

The best time to begin taking Dr. Williams' Pink Pills is the moment you feel the least bit out of sorts. The sooner you do so the sooner you will regain your old time energy. You can get these pills through any medicine dealer or by mail post paid at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

The citizens of Newcastle were aroused from their slumbers early Monday morning by an alarm of fire in the old blacksmith shop on the Hickson mill property. The alarm was sent in at 1.45 a. m. and in a short time many citizens who had answered the call were on the scene of the fire. The building, which was an old one was soon a complete mass of flames which illuminated the entire town. On the arrival of the Fire Department the blaze was soon extinguished and the fire confined to the one building. Fortunately there was no wind and the dampness caused by the recent rains, kept the sparks from igniting.

Because of the early hour at which the fire broke out and the fact that the building has been unoccupied for some years it is believed that the fire was of incendiary origin, and more serious destruction of property might have ensued. If Newcastle has within its limits a fire maniac, the sooner we know it the better, and as a means of ascertaining the truth, it perhaps might be advisable to have a substantial reward offered for the apprehension and conviction of such an one, if existing. Now is the time to take action and not after more serious conflagrations have occurred.

ONE MILLION FEET OF LUMBER BURNED
One million feet of pine lumber on Bay du Vin Island, the property of Mr. T. B. Williston, was destroyed by fire Wednesday night. It was a heavy forest of 100-year-old trees. Williston was offered a much larger price for it before the big drop in the price of lumber, but held it for a rise.

\$500,000 FOR BRIDGES IN N. B.

Fredericton, N. B. May 10—Approximately \$500,000 will be expended in the construction of permanent bridges in New Brunswick this year, Hon. P. J. Veniot, Minister of Public Works, who is here on departmental business, said today.

Between 20 and 25, new permanent bridges will be constructed but the season's complete programme has not been finally made up in respect to either bridges or permanent roads. There is a considerable reduction in costs of all kinds of construction work as compared with last year, and this it is stated, will be reflected in the contracts when awarded.

The first lot of contracts for new federal-aided highways work will be awarded next week, but it will be some time later before any new bridge contracts are prepared to complete some of last year's projects.
