Robert Stead's BRITAIN SAVES Greatest Book

IN HAPPY NOVEL OF THE **NORTHWEST**

"Neighbours" is Nearer the Heart of Canada than Any Other of Fam-ous Canadian Author's Books.

Romance of the Last Great Tide of Settlement in Saskatchewan Country is Big Theme.

You will never have to ask that question, "What is Canadian literature?" again when you have read Robert Stead's latest and, so far, his greatest novel, "Neighbours."

There are few Canadians who are not familiar with this author's former novels, "The Homesteaders," "The Cowpunchers," and "Dennison

Grant." This new book runs true to the Stead tradition of a good story, real humour, pure love and a real idea—even some real mystery, and it has more of the real atmosphere of life in it, than any other which has come to us in a long while. It is true writing, and will add fresh laurels to the fame of this already well-beloved author.

"Neighbours" relates how two families of young people, brother and sister, neighbours, in a little Ontario town; neighbours, fifteen years later on adjoining homesteads in the Saskatchewan country, find life and love. Their stories run smoothly until a young Englishman settles in the community and upsets all expectations, including the reader's. But the best part of "Neighbours" in my mind, and what makes it a great book, is the picture of the people who make up that far-scattered "Neighbourhood" of hognesteaders, Jake is the old villain who finds "locations" for the gullible newcomer; the "Sneezits" are a gaunt big-eyed Polak family, who live in a cave that the precious live-stock may have builded shelter—and the widow, and the Scotch family—and the wedding! All of that is writing of the finest type, and places this Canadian book in high order among the best literature of today.

Strength

Strength of muscle does not in-dicate strength of nerves. On this account many people who look healthy enough suffer from nervous troubles and cannot understand what is ailing them. Sleeples and irritability are among the early symptoms. Indigestion and tired feelings soon follow.

"I had been troubled for quite a while with indigestion. At times there would be a twitching of the nerves of my stomach; and I also found it difficult to get a good night's sleep. I am a moulder, and owing to the nature of my work my system became run-down. I took a treatment of Dr. Chase's Nerve Food, and found great benefit from this medicine. They did me a great deal of good. I have not been bothered at all with indigestion since, and can sleep much better. I have recommended Dr. Chase's Nerve Food to many of my friends, as I think it splendid for anyone run-down and needing a tonic."

Conditions in regard to the lumber cut on the North Shore during the coming logging season are most encouraging at the present time. Similar conditions are expected to prevail in other parts of the province and the entire lumbering outlook is bright.

A. T. Murchie, Chief Scaler, who has returned from the North Shore states that after covering the country as far down as Jacquet River he made an estimate of seventy-one million feet. With other districts taken into consideration that total will be increased considerably.

One feature of the lumbering situation which appears remarkable in contrast with conditions of the immediate past is the prospect of a scarcity of labor. Recently eleven hundred men were taken from the section of Gloucester County known as the Caraquet Shore to work in the lumber-woods of Quebec and Ontario Wages of a higher scale than was current in New Brunswick attracted them. One hundred men from Bay du Vin in Northumberland County went also. The result is that labor is scarcer than it was.
