

## WANTS TO HELP OTHER WOMEN

Grateful for Health Restored by Lydia E. Pinkham's Vegetable Compound

Toronto, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for backache and for weak and dreary feelings caused by my condition. Sometimes I felt so bad that I couldn't do my housework. My neighbor told me of your medicine and I got a box. It built me up and I have told several friends what it has done for me. You may use this testimonial as it may be of help to some one who has suffered as I have."—Mrs. J. Lee, 25 Harvie Ave., Toronto, Ont.

Mrs. Lee is willing to write to any girl or woman suffering from such troubles, and answer any questions they may like to ask.

Women suffering from female troubles, causing backache, irregularities, pains, bearing-down feelings and weakness should take Lydia E. Pinkham's Vegetable Compound. Not only is the worth of this splendid medicine shown by such cases as this, but for nearly fifty years letters like this have been received from thousands of women.

## Must Register Entering Woods

The Royal Gazette contains a Proclamation issued by the Minister of Lands and Mines under the authority of the Forest Fires Act, 1922, in which all forest land in the Province is proclaimed "a protected area" with the following regulations:

No person may enter upon any forest land after May 1st 1923 until November 1, 1923, for the purpose of travelling, camping, fishing or picnicking or for other purposes, without first having registered with a local fire warden, Councillor, game license vendor, or other person duly authorized, giving his name, date and having obtained a registration certificate. Such certificate shall be produced when requested by any fire warden or other authorized person, provided that the following persons or Companies shall not be subject to the above regulations, namely: "Licenses or owners of forest lands entered upon, or to their employed, or to the fire wardens, fire fighters, Land Surveyors or to persons accompanied by registered Guides or to holders of hunting, fishing, mining or guides licenses. All persons shall, when requested by any fire warden show their license and give the above mentioned information regarding their stay in the forest.

Penalties for non-compliance with the above, not less than \$10 and not more than \$100 or 30 days in gaol.

This action is deemed necessary by the Government in a determined effort to prevent a repetition of the immense forest fires damage this year resulting from the carelessness or thoughtlessness of those entering the forest on pleasure bent. This regulation was passed last year but was not enforced on account of the wet season. It is hoped that the registration certificate will bring to the mind of those who enter the woods a greater realization of the value of the forests and the necessity for always being careful of fire.

The adoption of the registration certificate here is not an attempt by the Government to keep people out of the woods and deprive the fisherman the camper or the hunter of his annual vacation. It is merely a regulation whereby each individual will be reminded and encouraged to be careful of fire when in the forest. It is in keeping with the extra precautions being taken by private landowners this year, several of whom are placing special patrols to see that people enter at all. In the past the fire hazard was augmented by tops and brush from logging but to-day this has been increased to hundred-fold by the addition of so much dry material as a result of the standing timber being killed by the spruce bud worm. Forest fires which once gain headway this year cannot

be expected to be controlled. The seriousness of the situation cannot be over-estimated and the owners of forest land as well as the inhabitants of settlements, and towns near extensive areas of forest cannot be too careful.

A review of the fire damage in previous years shows that those entering the forest, including the camper, fisherman, picnicker, have caused an average of fifty per cent of the total damage,—as much as all other causes combined. In 1921, the year of such heavy fire losses, seventy-five per cent was traced to the carelessness of those entering the woods. It is the only serious cause of forest fires which have not been restricted in the past. The settler cannot burn his slash only under regulations as prescribed by law and controlled by the fire warden. Railway companies are not allowed to operate locomotives which through defective appliances may set a forest fire. Mills and other plants operating near forest land must be equipped with proper screens before being allowed to operate. In this way forest losses from these causes have been greatly reduced, the damage from settler's fires being reduced from 75% of the total damage in 1920 to 1.5% in 1921. But the person entering the woods has not been restricted in any way. He has come and gone as he pleased and while the majority have been careful of fire, the camp fires neglected or burning tobacco carelessly thrown away has caused an annual loss to forests amounting to hundreds of thousands of dollars—a loss which is not replaceable for a century.

## Typhoid Peak Now Reached

Owing to the prompt measures taken by the Department of Health it is believed the outbreak of typhoid at Edmundston has passed the peak and from now on there will not be many new cases. Up to date there has been 131 cases reported. Of these 93 were mild, 26 were serious and 12 were dangerous. Three deaths have occurred. All of the cases, except at St. Jacques are in town and 96 homes are involved.

## Quebec Is Alarmed As Settlers Leave

Montreal, April 15—Grave concern was expressed by Premier Taschereau at what he termed "the heart-rending" problem of the rural population in parts of the province of Quebec leaving their homes to settle elsewhere, principally in the United States, when he addressed the members of the St. Denis Club here Saturday night.

"No matter what party be in power politically, it must concentrate on the development of our rural centres; it is not merely a political question, it is emphatically an economical question," declared Mr. Taschereau.

Outlining the question, Hon. Mr. Taschereau spoke of the two millions of French-Canadians who are now in the United States.

## LUMBER PRICES LIKELY TO RISE

Reports from Boston indicate that the spruce lumber market is buoyant. Two adverse factors are hanging over the market at the present time, namely the difficulty of buyers to get deliveries and the inability of the builders and workmen to reach an agreement for the season which began on April 2. The embargo at the New Brunswick-Maine border has been lifted, but the Canadian Pacific railroad will not allow its cars to leave its own iron at the border except with the understanding that they are not to leave the lines of the Mafn. Central, which extends west only as far as Portland. An embargo exists on the Quebec border, and this is delaying lumber from
