areas have been selected on account of indications more or less encouraging. It is the intention of the holders of these licenses to form a company, with a paid in capital of \$25,000, for the purpose of sending prospecting parties to explore the lands in question. Wherever a valuable mine is discovered the license to search will be exchanged for a mining grant, and a company organized to develop it.

We have been informed a few days ago that a large bed of coal has been discovered inside of Northern Bay by a Mr. Hogan, of the Post Office Department, who intends having operations commenced early in Spring. Samples exhibited are of the best quality, and Mr. H. expects in the near future to place in the market an article equal to, if not superior to Sydney coal. This ought to be another inducement both to the Government and Syndicate to extend the branch to this town, as there would be much traffic between here and the coal regions, not to speak of the Harbor Rock Hill lead and silver deposit, Mr. Badoek's gold deposit, and the much spoken of coal regions at Crocker's Cove, Fresh Water, and Oehre Pitt Cove, of which the Northern Bay deposit is probably a lead.

It is with sincere regret we have to announce the death of John Kendall, Esq., M.H.A., for the district of Trinity, and son of our much respected fellow citizen the Hon. S. Kendall, of the old and highly respectable firm of Job Brothers & Co., of this city. The intelligence of this melancholy event which occurred at Twillingate on Tuesday morning last, whether he had arrive per steamer Hercules, on his way to his mercantile establishment at Round Harbor, was received here last evening. It appears that the deceased left here the previous Friday evening, became so seriously indisposed during the voyage that he had to be landed at the Harbor above mentioned, where, notwithstanding medical assistance being promptly at hand, he gradually sank, death supervening on the morning above referred to. We respectfully tender to the bereaved family and friends of the deceased our sincere and heartfelt sympathy in their affliction.—Advocate.

By advices from Northern Bay, we are informed that diphtheria is very prevalent in that locality and many children have died of that disease. The doctor have very prudently ordered the schools to be closed for a few weeks.

POLICE COURT.

BEFORE I. L. McNEIL, J. P.

Newfoundland Lights.

TO MARINERS.

[No. 2, 1881.]

ROCKY POINT HARBOR BRETTON, FORTUNE BAY.

Latitude 47° 27' 30" North. Longitude 56° 47' 45" West.

The Light Tower built down in June last has been replaced by a CIRCULAR IRON one, in which, on and after 21st November a fixed white light will be exhibited nightly, from sunset to sunrise, at an elevation of 68 feet above the level of the sea, and illuminating the whole horizon seawards, excepting towards the Harbor Rock. This Rock bears N. E. ½ E. 230 yards distant; on this bearing the light is obscured.

The illuminating apparatus is Dioptric of the 8th order, with a single argand burner. The Tower is painted Red and White in alternate horizontal bands.

[No. 3, 1881.]

HANTS HARBOR, TRINITY BAY

Latitude 48° 01' 07" North. Longitude 53° 15' 07" West.

A Wood Octagon Tower on a square base has been erected at this Harbor on the N. E. Head, on which, at an elevation of 65 feet above the level of the sea, a fixed red light will be exhibited nightly from sunset to sunrise on and after 21st November, and which will illuminate the whole horizon seaward.

The apparatus is Dioptric of the 8th order, with a single argand burner. The buildings are painted White.
