"Brother Feels Sick! He Wants a Candy Cascaret"

To Mothers! You will avoid worry and trouble by giving your children Cascarets instead of nasty Castor Oil, Calomel and Pills. Children look upon Cascarets as Candy and never refuse them even when sick, bilious, feverish, constipated. Besides Cascarets cost only 10 cents a box.

Nothing else works the bile, sour fermentations and poisons from a child's tender stomach, liver and bowels like good old harmless Cascarets. They never gripe, never injure, never disappoint the worried mother. Give Cascarets to children aged one year and upwards. Directions on each 10 cent box.

June Weddings

ZIMMERMAN-PETTIGREW

A very pretty house wedding took place at high noon on Saturday, at the home of Mr. and Mrs. Alex Pettigrew, Disher Street, Merriton, when their youngest daughter, Iva Marie, became the bride of Lloyd Wesley Zimmerman, only son of Mr. and Mrs. Fred Zimmerman, 59 Albert Street, St. Catharines. Promptly on the hour, the bride entered the room on the arm of her father, through a ribbon aisle held by four girl friends to the strains of Lohengrins wedding march played by her cousin Miss Nellie Gillis. The house was beautifully decorated with orange blossoms and roses, and the ceremony was performed by the Rev. J. Culp of Hamilton, formerly of Merriton, under an arch of marguerites.

The bride looked charming in a dress of white charmeuse satin with georgette overdress trimmed with pearls and wore the customary veil and orange blossoms. She carried a shower bouquet of bridal roses.

The bride was attended by her sister Kathleen who was handsomely gowned in a maize colored dress of crepe-de-chene and georgette. Her bouquet was of pink sweetheart roses. Little Eva Pettigrew, of Toledo, Ohio, cousin of the bride made a very pretty flower girl dressed in white nixon with pink rosette trimmings and carried a basket of pink and white roses. The groom was ably supported by his cousin Lieut. George Sheppard, who has recently returned from overseas. The groom's gift to his bride was a diamond necklace, to the bridesmaid and pianist pearl brooches, to the flower girl, gold beauty-pins, and to the groomsmen, gold cuff links. After the ceremony a delicious buffet luncheon was served. The happy couple motored to Buffalo, where they left by boat for Detroit, Toledo, and Cleveland. The bride travelled in a navy blue serge suit with hat to match and wore a fox fur gift of the groom. The gifts were numerous and costly including a substantial check from the groom's parents and a victrola from the brides parents. Out of town guests were present from Toledo, Cleveland, Hamilton and Beausville.

MEN SWEAR-WOMEN COMPLAIN.

Just because their corns ache—easy to cure them with Putnam's Corn Extractor; it acts painlessly in twenty-four hours. For corns, warts and callouses the only thing is 'Putnam's'; try it, 25c at all dealers.

Department of Railways and Canals. WELAND SHIP CANAL NOTICE TO CONTRACTORS.

SEALED TENDERS, addressed to the undersigned and marked, "Tender for the Supply and Delivery of Sand, Season 1919", will be received at this office until 12 o'clock noon on Thursday, June 26, 1919. Specifications and tender form can be obtained on and after this date from the Chief Engineer of the Department of Railways and Canals, Ottawa, and the Engineer in Charge, Welland Ship Canal, St. Catharines, Ont.

An accepted bank cheque on a chartered bank of Canada for the sum of \$6,000, made payable to the order of the Minister of Railways and Canals, must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rate stated in the offer submitted. The cheque thus sent in, will be returned to the respective contractors whose tenders are not accepted. The cheque of the successful tenderer will be held as security for the fulfilment of the contract to be entered into. The lowest or any tender not necessarily accepted.

By order,
J. W. PUGSLEY, Secretary.
Department of Railways and Canals, Ottawa, June 11, 1919.

Conserve the Soil Moisture.

Moisture is the most important soil property. Without it a crop is absolutely impossible, no matter how much fertility may be present. With the proper amount large crops are obtained, while on the other hand if moisture is excessive or deficient the yield is diminished according as it will excess or deficiency increases. If all the water necessary for the production of a full crop could be collected on the surface of the ground at one time it would be from 18 inches to 24 inches deep, depending on the crop and the season! During the growing season only 10 or 12 inches of rain falls in Ontario, and this is only half the amount required by the crops. Hence it becomes necessary to store up in the soil as much of the winter and spring rains as possible, while at the same time guarding against excess.

The amount of water a soil may contain depends on the pore space in the soil. Sands have least pore space, loams and mucks most, and clay is intermediate. The porosity of a coarse sand is about 35 per cent, of a loam or muck about 50 per cent, and of a heavy clay about 45 per cent. From these figures it will be seen that a soil may contain nearly as much water as soil grains. Since the plant roots require air it is desirable to have all the soil pores filled with water; some free air space must be left, hence drainage becomes necessary.

There are three ways that water may be lost: first by run-off, second by drainage, and thirdly by evaporation. Of these three the greatest loss is evaporation. It may amount to half the total rainfall. As long as the soil is wet in the spring we want all these at work, but as soon as the soil is dry enough for cultivation we want the losses cut off. And cultivation is the only direct means by which this can be done in summer. Cultivation should begin just as early as the soil is dry enough. To delay one week may cause the loss of an inch of water, and this is as much as falls in the month of April, a very serious matter when the needs are so great and the supply so limited. In the fall of the year cultivation should be deep to increase absorption and retention of water; in the spring shallow, in order to produce a dry layer of soil on the surface to cut on evaporation.—Prof. W. H. Day, Ontario Agricultural College.

A Cheap and Efficient Method of Controlling Grasshoppers.

Grasshoppers may be easily and cheaply controlled by poisoning with the bran mixture, which is made as follows: 20 lbs. bran, 1 lb. Paris green, 1/2 gal. molasses, 2 gals. water, 2 or 3 lbs. kerosene.

The bran and Paris green should be mixed thoroughly together when dry. This should be done the night before using. In the morning squeeze the juices of the lemons into the water, run the pulp and rind through a meat chopper and add this and the molasses to the water. Stir well and then pour the liquid on the poisoned bran and mix so, thoroughly that every part is moist and will fall like sawdust through the fingers. The mash should be applied early in the morning between five and seven o'clock, by scattering thinly over the infested field, in the fence corners and on roadsides where the insects have been observed. The above amount will suffice for four or five acres. It will be well to make an inspection three or four days later, and if there are many survivors to make a second application. It is important to attend to this matter as early in the season as the young grasshoppers are noticed, and not to wait till they grow big and have caused a considerable amount of damage.

PRESIDENT WILSON TO LEAVE FOR HOME THIS WEEK END

WASHINGTON, June 24.—President Wilson cabled Secretary Tamm that he expected to leave Brest on his homeward journey Wednesday or Thursday.

There were only two or three minor cases of violations of civic by-laws in the Police Court today.

Shortage of farm help in Welland County is said to be seriously interfering with the work of the farmers. Sixty per cent. of the applications for help that cannot be filled are for farm labor.

The strike of 175 ship workers and helpers at the ship yards of the Canadian Allis Chalmers plant at Bridgeburg has been settled. The men returned to work yesterday.

Citizens are complaining to The Journal of the number of dogs that are running at large. The Police department stated that it is hard to get a dog catcher. Even the man who used to officiate at the solemn burial of canines quit his job. The hot season is here when dogs become dangerous and citizens should be careful.

AUCTION SALE

At Mr. Bolc's, cor. Geneva and Dacotah Sts., Thursday, June 26th, at 1.30, carpets, dressers, beds, dining room furniture, chairs and china. W. J. WESTWOOD, Auctioneer. j24-25
