### No. 9 Hard Steel Wire

from top to bottom. Does it look strong? Do you know what No.

9 hard steel wire means? It
means double the strength and
durability of light wire fences. Meat
the toughest thing known to fer
builders. Means the biggest a
heaviest wire used for fencing

Mr. Fence Builder, just stop one moment and think. You don't want to do the job over again year after next, Take a lesson from some of the two-year old fences you know. They are usually made, or partly made, of light, soft wires that break easily—of poorly relivanized wires that thus soon easi

## Ideal Fence

Look at one that's been up two, three, four or five years. If you'll examine carefully, we'll be satisfied with your judgment. Don't forget to look at the lock. It grips the wire on FIVE bearing points. We show it good and large below so you'll be sure to see it. No. 9 wires, No. 9 stays, locked as Ideal locks them at every crossing, there's not going to be any slips or breaks or holes in your fence and there's not going to be any sagging. The railroads know how to fence for permanency. They are buying more Ideal than any other make. Farmers are following suit, fencing their farms

Take a little time to think of the essentials of good fencing before you buy. The Ideal has them all. We know you'll want Ideal when you know about it. Let us talk Ideal fence personally to you for a few minutes. Write in and give us the chance. We'll send you a little book with the particulars to start with.
