**BEVERLY, Mass., Sept. 14.**  
Special Evening Telegram.  
Negotiations for a Reciprocity Treaty between the United States and Canada will be opened next month. It is learned in Beverly today that the British Ambassador, Mr. Bryce, has consented to the negotiations being carried on directly with Canada and the United States, without the formality of being conducted through the British Ambassador. The details of the negotiations have not been arranged as yet, but it is the hope of President Taft that before the end of October representatives of both countries will be able to come together. Whether the United States will send delegates to Canada, or Canada its representatives to Washington, is not yet known. Neither is it known whether any agreement that may be reached will be made effective by concurrent legislation or by treaty. The Reciprocity idea will meet with considerable opposition in both countries, but it is believed that the Canadian opposition is more pronounced than that in the United States, chiefly because of the growth of Canadian manufacturing enterprises. The Canadian Premier, Sir Wilfrid Laurier, has declared in favor of proposed agreement, and it is felt here that negotiations will be

carried through to a satisfactory conclusion. The President, it is known, is deeply interested in the matter and considers it of the greatest importance.

**OTTAWA, Sept. 14.**  
Sir Wilfrid Laurier, after over 12 months of practically incessant stress of daily attention to his multifarious duties as leader of the Government, will on Saturday next join Lady Laurier at his old home in Arthursville, for a brief holiday of 3 or 4 days, preparatory to again taking the tiller of the ship of State for another session of Parliament.

**WINNIPEG, Sept. 14.**  
The Countess of Antrim who passed through here two days ago, on her way to the coast, was robbed of jewelry valued at many thousands of dollars, and priceless from the fact that they are partly family heirlooms at the Royal Alexandra on Saturday night. She left for the coast the following evening, where she will visit her son, who is in business in British Columbia.

### Naval Men Encamped.

A number of the men of H. M. S. Brilliant with several officers have been encamped for several days and nights past at Angle's Hill. They have rifle practice daily at the old range there and some good shooting has been recorded. The place has the appearance of a regular military encampment and at night the hill presents a strange spectacle to the people living nearby, with the tents illuminated till a certain hour when all have retired and then darkness reigns supreme. After that is only heard the faint tramp of the men detailed for sentry duty.

### Gloucester Banker From the Grand Banks

The Gloucester banker John and Mand, Capt. M. Smith, arrived here Tuesday night from the Grand Banks after a four weeks' trip, during which time he has been "baked" with squid bait and got 100,000 fish, or equal to 500 qts. She fished 25 miles S. E. of the Virgin and this is all the fish the vessel has, she being only out from the home port since July 17th. All the crew of 18, including the captain, with the exception of four Nova Scotians, are Newfoundlanders, being natives of Placentia and the Southern Shore, who have resided in Gloucester for several years. One of the men, in. Entrance, Lawlor, a cousin of Capt. E. Lawlor of St. John's. The vessel gets water here and supplies from Job Bros. and will again go to the banks, she carries 800 tons.

### Stricken With Paralysis.

Mrs. Greene of Thim Harbor, sister of Capt. Hartley of the Duntar, was recently stricken with paralysis and fears for her recovery are entertained.

### Worst Case Of Eczema

Cure only came when doctors gave up and DR. CHASE'S OINTMENT was used.  
Mrs. Wm. Miller, St. Catharines, Ont., writes: "My daughter Mary, when six months old, contracted eczema and for three years the disease baffled all treatment. Her case was one of the worst I have ever seen. I had three different doctors attend her all to no purpose. Finally I decided to try Dr. Chase's Ointment and to my surprise the immediately began to improve and was completely cured of that long standing disease. That was four years ago when we lived at Cornwall, Ont., and as not a symptom has shown itself since, the cure must be permanent." The record of cures which Dr. Chase's Ointment has to its credit have placed it alone as the standard cure for eczema and all forms of itching skin disease. Do not get satisfied with imitations or substitutes, 50 cents a box at all doctors or Edman's and Co., Toronto.

### Fire Last Night.

Last evening about 7.35 a fire began at the residence of Mr. George Hayward Cochrane Street. When the firemen arrived the upper portion of the house was enveloped in flames, and sheets of fire shot up through the roof. On arrival the men quickly had cut three lengths of hose, and took as many streams of water from the hydrants at the head of Cochrane Street and Bond Street, while at the start the chemical engine was used to advantage. The firemen worked with a will and prevented the fire encroaching on the residence of Mr. Thomas Kennedy, adjoining Mr. Hayward's. After a hard fight of fully half an hour the firemen had the blaze under control, but not before the upper portion of the house was completely gutted and the furniture in it destroyed. The loss incurred by the blaze will total several hundreds of dollars. How the fire occurred is not definitely known, though it is thought that children playing with matches in the upper rooms caused the blast. Master Launce Hayward who went up stairs while the rest of the family were seated in the dining room, discovered a lot of clothing on fire, and gave the alarm to his parents, while a sudden passing and seeing smoke issuing from the house, rang in the alarm.

### Portugal Cove Fishery.

This is the third week of a big "spurt" of fishing at Portugal Cove, and still there are no signs of diminution in the quantity of the cod which-abound on the fishing grounds there. The men are using trawls, and getting all the squid they require in the Cove, they secure from 4 to 8 qts. daily. John Harding who was the first, after the trap voyage was over, to take advantage of the spurt has now 60 qts. in salt, and the others range from 30 to 40 qts. Harding will run up 100 qts. if the fish remains for the next couple of weeks. Cod are also very plentiful around Bell Island, and the only two men catching it there—Messrs. Bennett and Dwyer—get from 2 to 4 qts. daily. The Cove men are in with loaded boats by dinner time each day, and they say they never saw fish so plentiful on the ground at this season of the year, or of so large a run.

### Whiteley's Crew Arrive Home

The schr. Louise, Capt. George Whiteley, arrived here yesterday forenoon from Bonne Esperance in the straits of Belle Isle with his crew of 25 men. Speaking to Mr. Whiteley he informed the Telegram representative that this season could hardly be called an average one in the Straits and that they only secured a little over 2,000 qts. for 13 traps. The vessel left there last Thursday and had fine weather on the run to port. Fish was very scarce all the summer and even while the trap season was on, most of the fish were taken with hook and line. The season opened so early that all thought good work would be done, and they are disappointed over the result. Before they left fish was very plentiful on the grounds but there was no bait to catch it with. If there was, the permanent residents of the place would do well, good deal of the last fish caught by Mr. Whiteley and others was taken on clams which they used as bait. Formerly lance would be plentiful and on this good fishing could be done, but this year there was no sign of this bait and all lost a good spurt of fishing. The schr. My Liver, Patridge master, sailed for Liverpool on the 22nd of August.

### Fishery News.

Heart's Content—Squid fairly plentiful; little fish with hook and trawls; on arrival from the Labrador fair catch.

Carbonear—Trawls 1/2 to 1 qts.; hook and line, 1/4 to 1/2 qts.; plenty squid.  
Fogo—Boats yesterday from 1/2 to 1 1/2 qts.; one arrival from Labrador with 450 qts.  
Lawn—Codfish scarce; dog fish numerous; better sign of squid, enough for bait.  
Nipper's Harbour—Few fish; squid in abundance.  
Harbour Grace—Plenty squid; boats 1/2 to 2 qts. codfish.  
Sound Island—Codfish very scarce; plenty squid.

### Fire Endangers Town.

Last week through the carelessness of berry pickers a forest fire was started inside of Musgrave Hr. in a place which is heavily timbered and Friday last it promised to reach serious proportions. That day a gale blew from the S.W., sending the flames and burning timbers in the direction of Musgrave and Ragged Harbours, the residents of both places became so alarmed that some began to remove their household effects. Fortunately heavy rain prevailed that night and quenched the flames. But for this both harbours might have been wiped out.

**BRUCE PASSENGERS.**—The S. S. Bruce arrived at Port aux Basques at 1.15 a.m. yesterday with these passengers: Rt. Rev. Bishop Jones, Rev. Canon White, Rev. G. H. Bolt, Sister M. Antonio, Sister M. **Special to Evening Telegram.**  
BOSTON, Sept. 13.  
Claude Graham White, of England, flying a Farman Biplane and a Blériot monoplane, proved himself the champion of the first annual Harvard-Boston Aero Meet at the close of 9 days' competitive event-to-night, having won the blue ribbon sweep of the meet. The Boston Globe prize of \$10,000 for a harbor trip to Boston light, taking altogether four first and three second, winning \$22,100 in prize money, one world's record, that of accurately landing on skids, and two American records. Duration and distance were broken, while Mr. White in his Boston Light trip covered 33 miles in 34 mins. 1-5 seconds. The regular competitions for prizes ended to-night, but the management will continue the exhibition two days, offering prizes for new world's records.

**Special Evening Telegram.**  
LONDON, Ind., Sept. 14.  
Scores of miners entombed, with a heavy roll of dead and wounded, is the result of an explosion which occurred at Vandalia Mine, No. 1, 10 miles from here at 9 o'clock this morning. The dead are variously estimated at from 1 to 20, and it has been impossible thus far to penetrate the entry where the explosion occurred or to do anything toward the relief or rescue of the imprisoned men. A miner named Baxter is definitely reported killed, but this is the only name given thus far. Relief parties have gone out from here, and all doctors in town were rushed to the scene of the disaster at once. A few of the men were between the air shaft and the explosion and managed to make their way to freedom, although several of them were fearfully burned.

**Special to the Evening Telegram.**  
BADEN, BADEN, Sept. 14.  
If anything could discourage that intrepid apostle of aerostatics, Count Zeppelin, it would appear to have been furnished to-day when the Zeppelin Sixth, the latest model of his aerial invention, was torn by the explosion of one of the three motors which located in the stern gondola. Three of the airship's crew were seriously injured. The accident occurred without warning, as the dirigible was being slowly worked into her shed here. The defective motor had been

operating as usual, when suddenly the crew were hurled from their seats in the rear gondola as the craft tumbled and lurched. There was a sharp report, a flash of flame, and in a moment the immense fabric of silk canvas was a fire. The crew hardly realizing what had happened, tumbled over the sides of the airship, barely escaping with their lives. The fire spread so rapidly that the shed was soon destroyed. This is the fifth serious accident which has befallen the Zeppelin dirigibles, the histories of which have been brilliant but brief, and usually ending in disaster. The Zeppelin Sixth was under charter of the Passenger Airship Co., having replaced the passenger service the recently wrecked Deutschland.

### Obituary.

It is with feelings of sincere regret we record the death of Mrs. Wylie, wife of Mr. Robert J. Wylie, which occurred at her residence, Military Road, last night. Mrs. Wylie some time ago while skating at the Roller Rink fell and broke her wrist, and recently contracted erysipelas, which was the cause of her demise. Her father is the venerable Mr. T. Carew, of Rankin & Co's., and she leaves to mourn her also a husband, six children and two sisters. To these the Telegram extends its condolence.
