Advertising Our Advertisers.

WE ASK THE ATTENTION OF EVERY READER OF THIS PAPER TO-DAY.

Ninety-six per cent. of all the people in this country earn less than \$1,000 a year.

Therefore it behooves everyone of you to learn to read this paper day by day with two purposes. One, that you may post yourself upon the general news. The other, that you may post yourself upon the advertising news.

The day is past when anyone can afford to overlook this second feature. It is the road to economy in every home. There isn't a day passes when money cannot be saved or when better goods cannot be bought for the same money simply by following carefully the advertising news that is published here.

The reason for this is simple; advertising is the cheapest, quickest and best method of salesmanship that has yet been found.

Therefore the most progressive merchants, advertise.

And naturally, when you want the cheapest or the best article of any

kind, it is fair to assume that the most progressive men will have it for sale.

Every shrewd merchant advertises in this paper because there are thousands of you readers eager to see his advertising when it appears.

He knows that you are looking for whatever good merchandise news he has to offer. And if any merchant scout discounts your value to him as not to advertise in the paper you read, you can equally well afford to discount his value to you.

If any merchant is so careless as to overlook the great combined purchasing value of thousands of you readers every day, the chances are he is overlooking many a good merchandise value when it comes his turn to get into the markets and buy.

So learn, not only to read the advertising news in this paper every day, but learn also to rely upon it for everything you need.

There isn't one family that cannot reduce its cost of living at any time simply by carefully reading and buying entirely through the advertising pages of this paper day by day.

Dr. de Van's Female Pills
A reliable French regulator; never fails. These pills are exceedingly powerful in regulating the sensitive portions of the female system. Sufferers with the La Bourgeoise affair, for these pills are going out upon the ocean in the hope and expectation that they would be used as temporary receptacles for the bodies of many of the missing victims of the Titanic disaster. As the coffins stood stacked up on the wharf men were busily engaged shifting on board a cable steamer from the wharf about one hundred tons of ice which had just been delivered there on quick order by one of the houses. The coffins only awaited completion of the ice shipment to be also placed on board. About noon the work was all concluded and the big cable steamer was on her way to the scene of the disaster.

It was Tuesday night that the arrangement to send out a steamer to search for bodies of the victims of the disaster was decided upon and it is believed that the arrangement was completed by the White Star Line and Mackay-Bennett officials at New York. Orders were received here to the ship and White Star agents, and Commander Larnder was all ready to proceed as soon as the coffins and ice were on board. The Mackay-Bennett is ever ready at quick notice, so that there was no delay on her part. At the wharf in the morning there was bustle and bustle. At the inner end of the pier was the pile of coffins, half way out were the big blocks of ice in process of transfer to the ship's hold, and at the outer end was a corps of New York, Boston and local press representatives with kodaks slung on their shoulders and ready at a moment's notice for human interest pictures.

The orders of the ship are to proceed to the scene of the disaster, cruise about the vicinity and pick up any bodies sighted. The ship is not limited to time or course, this being left to the discretion of Commander Larnder, but the order here that no effort is to be left untied to secure bodies of victims or information regarding the disaster. Whether the ship will proceed to New York or Halifax after her search is concluded is not yet known, but will be determined by developments of the cruise and conveyed to the ship from headquarters by wireless. The ship has been taking in a lot of cable here this week and was to have left shortly for the New York coast to do cable repair work there that was expected to take some weeks. It is expected, therefore, that if any bodies are picked up she will be ordered to land them at New York and while there will undertake her job, not returning here perhaps for a month. Should no bodies be recovered she is likely to return to Halifax before proceeding to New York.

TAKEN TO PRISON.—The laborer, of Tilt Cove, who is held by the police charged with eight larcenies; was taken to the Penitentiary yesterday afternoon to await being tried before Judge Knight who is ill at present.

COAL SCARCITY.—Owing to the scarcity of coal in the city yesterday the prices advanced. The famine, however, was relieved this morning when the a.s. Regenerator arrived from Sydney with 1,500 tons. We have it on good authority that the prices will soar much higher before 1913 is ushered in.

Why Not be Well and Strong

When weak and run down DR CHASE'S NERVE FOOD will help you back to health.

This letter tells of two women who have recovered their health. "After recovering from typhoid fever I was left in a very low state of health. I was weak, nervous and not fit to do any work. A friend of mine, Mrs. G. M. Brown, had used DR CHASE'S NERVE FOOD and told me that it benefited her wonderfully. I took courage and began the use of the medicine. After taking the first box I began to feel an improvement in health and now after using four boxes I am completely cured. I now feel like myself once more and believe that I can attribute the cure to Dr. Chase's Nerve Food."

Life is too short to spend weeks or months dragging out a miserable existence of weakness and suffering. Dr. Chase's Nerve Food cures by forming new rich blood and building up the system. You can depend on it to benefit you, 50 cents a box, 8 for \$2.50, at all dealers or Edmondson, Baker & Co., Toronto.

England's Dead.

Son of the ocean lele! Where sleep your mighty dead? Show me what high and stately pile is reared o'er Glory's bed.

Go, stranger! track the deep, Free, free, the white sail spread! Wave may not foam, nor wild wind sweep Where rest not England's dead.

On the frozen deep's repose, 'Tis a dark and dreadful hour. When round the ship the ice-fields close, To chain her with their power.

But let the ice drift on! Let the cold-blue desert spread! Their course with mast and flag is done. Even there sleep England's dead. —Hemans.

Notes From the Ancient Capital.

The fishermen are now busily engaged making preparations for their hazardous and precarious calling—repairing boats, mending nets, &c.

Mr. Thomas Smith, the genial and enterprising millman, who has been logging all winter, has now commenced to operate his fine substantial steam mill. He has lately installed a fine planer at the cost of \$400. The mill is now fully equipped and is a credit to his ability and energy. He has also purchased a motor boat for the purpose of conveying logs to the mill and the output with despatch to Placentia and adjacent settlements.

The beautiful new house belonging to Michael Hartigan was burned to the ground yesterday in a few minutes. He saved nothing from the devouring element, and even the \$70 or \$100 which he had in the house went up in smoke. This homestead represented the savings of a lifetime, and himself and his large family are now homeless and penniless. His case is a sad one indeed, and we recommend it to the charity disposed.

The funeral of the late Edward Sippott, sub-collector here for many years, took place on Sunday, and was very largely attended. There are several applicants for his position, no doubt, but Mr. Edward O'rielly, the esteemed and popular tide-waiter, is the most deserving of it, and is the one whom the people would like to see promoted. We understand that Capt. T. Fitzpatrick is one of the applicants, but the consensus of opinion is that the Government will be guided in their selection by the principles of seniority of service, experience and qualifications, and if so, the appointment of Mr. Edward O'rielly is a foregone conclusion. Placentia, April 20th, 1912.

ARRIVED FROM BARBADOES.—The schr. Duchess of Cornwall, 20 days from Barbadoes, arrived in port at 4 p.m. yesterday, bringing a cargo of molasses for A. S. Rendell. Fine weather prevailed during the passage.

FINE HORSES ARRIVE.—By the freight train which arrived at 11 last night there came a shipment of horses in a Badger Brook to Mr. T. Curran. A staff of men were at work last night looking after the animals.

COME to St. Andrew's Young Ladies' Guild Sale in the Presbyterian Hall, APRIL 24, AT 3.30 p.m. All sorts of BARGAINS besides a HIGH CLASS CONCERT. Admission only 10c.—ap22,t.

STOKERS GET MORE PAY.—Less firemen but more pay are the new conditions adopted by the owners to apply to the Bellaventure and Bonaventure which ply in the fruit trade this year. Each ship will carry three stokers who will receive \$45 per month, and will be assisted by three trimmers.

SALT CARGOES DUE.—At present there is a large consignment of salt en route to this port from Cadiz. There is one shipment coming to Bowring Bros. and the other to Goodridge & Sons. The salt cargoes will be warmly welcomed as soon as it arrives as a number of crafts are now awaiting to be supplied.

ALBERT EDWARD CONCERT.—The juvenile branch of the N. B. S. held their monthly meeting last night and preparations were made for the annual tea to be held May 1st. Before the close of the meeting a suggestion was advanced for the formation of an athletic club. Much discussion arose but nothing definite occurred.

NOTE OF THANKS.—The family of Mrs. J. H. Nichols wish to tender sincere thanks to the nurses of the General Hospital who were so kind and attentive to her during her stay at that institution. Special mention must be made of Nurse Sheppard, Nurse Taylor and Miss Susie Mallard, whose kindness and attention will be held in grateful remembrance.—adv.

A FINE SAILER.—The schr. Gertrude L. Capt. Kennedy, which left here Feb. 23rd fish laden for Gibraltar, made the passage to the "Rock" in 21 days, notwithstanding that she met terrific weather and cargo had to be jettisoned. After discharging she proceeded to Malaga for repairs, and thence went to Cadiz to load salt, which occupied 9 days. She left the latter port on Saturday last for Bonavista. The vessel is a fine sailer and is owned by Mr. P. Templeman.
