**Wedding Bells.**  
SOPER—FOWLER.  
The wedding of the Rev. S. H. Soper B.A. to Miss Maud Florence Fowler, takes place at Elm Street Methodist Church, Toronto, at 12 o'clock (noon) to-day. The reception held at the home of the bride's parents, Mr. and Mrs. George D. Fowler, 5 Baldwin Street. Immediately after the ceremony, we understand that Mr. and Mrs. Soper will then spend a few days visiting the pleasure resorts near Toronto. It is their intention to leave Montreal for St. John's per Black Diamond boat on or about June 19th.  
Mr. Soper will be ordained at the present annual conference of the Newfoundland Church in this city, and it is their intention to remain in the city about a month, after which they will spend a month with Mrs. Soper's parents in Toronto, leaving there some time in October to take up their work in West China as missionaries of the Methodist Church of Canada, supported, we understand, by the Newfoundland connection.

**Here and There.**  
EELS PLENTIFUL.—Eels are plentiful all along the Southern Shore. Capt. Larder, of the Amphitrite, who was there a few days ago saw large schools of them.  
FELL OVERBOARD.—Yesterday afternoon a lad named Hynes fell over the side of a boat at Woods' dock into the water; being a good swimmer he swam ashore safely.  
BANKER RETURNS.—St. Mary's banking schooner arrived at the home port with a full cargo of fish yesterday afternoon and reports fish plentiful on the Grand Banks.  
BERI-BERI PATIENT.—There arrived in the city yesterday a resident of Bonavista. He was brought to hospital as he has contracted beri-beri, but the ailment is only mild.  
MORE SCARLET FEVER.—Five new cases of scarlet fever developed at the Methodist Orphanage yesterday afternoon, and two cases were reported from a house on Brazil Square.  
FALSE REPORT.—Yesterday report had it that one of our local bankers had not been reported since leaving here in April. The report was incorrect as she was at Bonne Bay last week.  
GOOD TROUT FISHING.—Mr. S. K. Bell, of the Crosbie, arrived by last night's train with a basket of "speckled beauties" taken at N. E. Arm, Placentia. Hon. J. C. Crosbie is still there and is having splendid fishing.

ANOTHER FIRE ALARM.—At 7.20 p.m. yesterday the 7th fire alarm for the month was turned in from box 336, bringing the Western and Central Companies to the residence of Judge Knight. Sparks from the chimney ignited the shingles on the roof, but a few buckets of water quenched the blaze and no damage worth while was done.  
The S. S. Florizel leaves New York to-morrow for here.

**Over the Hills to the Poor House**  
Over the hills, to the poorhouse. I'm getting a sixling pace; I've mortgaged my home for an auto. And I'm playing her straight and for place. There are others well up in the running. But I'm holding my own, you bet; I can see the roof of the county farm. And I'm going to get there yet.  
Of course, I can't afford it (There are very few who can). But the family whined about it. And insisted I wasn't a man if I didn't get six cylinders. A tonneau, some tires and plugs. And got out and speed on the highway With the automobile bugs.  
So we plastered the house with a lien. The second I'd have you know; The first was for part of the purchase price.  
And a few other things I owe. My wife said it would be a saving. We'd soon pay for the machine. With the difference between the car fare bill And the cost of the gasoline.  
The girls had to hire a "shuffer." A lantern-jawed son-of-a-gun. And when Sonny goes out for a joy-ride. I'm sorry he hasn't one.  
For whenever he hits a lamp-post Or sends the car into a ditch, I cough up some more spondulix. To fatten the bloated rich.  
Once I was known for my wisdom. My business foresight it was keen. But that was before I invested In an aid-to-bankruptcy machine. Now others are getting the rhino. Their assets with solvency shine. While I'm on the road to the poor-house.  
The Home for the Indigent, mine.  
Whoopee! Clear the way for I'm coming— Just passed by a bunch of my friends. All bent in the same direction. Where the road of the scorcher ends. It's the pace of a drunken sailor. At the helm of a rudderless ship; Over the hills to the poorhouse. I'm hitting a lively clip.  
—Exchange.

**CONCERNING BREAD**  
And of Special Interest to the Millions Who Eat It.  
The housewife together with every lover of good, pure bread, will welcome the announcement that it is possible to obtain Flour from which can be made Bread possessing all the wholesome nutritive and digestive properties contained in the Best and Purest Spring Wheat. Bread made from "ARUNDELL" flour in addition to these merits has that distinctly sweet and wheaty taste obtainable only from the best spring wheat. "ARUNDELL" goes largely into competition in London and throughout the U. K. with these flours milled by special process and which have become so deservedly popular by reason of their retaining all the best properties of the pure spring wheat none of the merits of which are sacrificed to obtain the maximum of whiteness.  
Try a barrel of "ARUNDELL" and be convinced of all that is claimed for it; also that by reason of its strength and absorbent qualities it is the most economical flour for family use.—may27,61,eod.

**Died in Boston.**  
Tuesday, Mr. M. Primm, Secretary of the Coopers' Union, had a wife from Boston stating that his younger brother, Leo, had died there. The message gave no particulars, but a letter affording details was promised.  
St. Bon's—Goal, St. John; backs, Firth, O'Flaherty; halves, Gear, Rennie, Byrne; forwards, W. Callahan, Shortall, R. Callahan, Robertson, Templeman.  
New Captain.  
Captain Smith, late of the sealer Pelican which was engaged in the far North, is now due here from England to take command of the S. S. Nascope, succeeding Captain Waite who goes in the S. S. Beothic. As previously noted in the Telegram the S. S. Nascope is now preparing for the Hudson Bay Cruise, leaving here about June 20th.

**Rowdyism.**  
Last evening while the football match was going on three toughs prevented from getting admission to the grand stand attempted to attack the man on the gate. As those on the stand saw their action the trio quickly desisted only to assail an innocent young man named Pike, who without provocation was hit and pummelled about the face unmercifully. There were no policemen about and it was a pity.

**The New Pulp Mills.**  
From men who arrived from Campbellton yesterday we learn that in addition to what the Telegram has already exclusively reported about this new local project, a fine pier of 150 yards in length is being erected with water deep enough about it to take the largest class of shipping. A track has been laid down from Campbellton to the site of the new dam and material for its construction will be taken along on trolleys. One of the finest residences in the whole of Green Bay is being erected for the manager, who will come from Sweden, and the general staff, while a large number of well built shacks are being rushed up for the workmen. There is plenty of water for the dam coming in from O'Brien's Lake and other sheets of water near. A big store is also being put up and 100,000 feet of lumber with a great pile of logs are on the scene for erection purposes. The foundations for the mills have already been laid.

**Regarding the Regatta.**  
Editor Evening Telegram.  
Dear Sir.—There is a whisper abroad that owing to the impossibility of the Messrs. Field's new race boat being finished before the 12th or 15th of August, this year's Regatta will not be held as heretofore, the earlier part of that month.  
If such is the case, and the Regatta is therefore postponed, accident will have led to what should prove a good idea—to hold the annual races day the first week of September.  
There are, I think, several good reasons why this would be a better period for the event. For instance, the whole of July and August months are given up to merry-making, garden parties, picnics, excursions, etc., which strange to say do not extend into September month. Many people who would like to attend the Regatta are absent from the city during August, as that is really the vacation time for most of our employees.  
Again, it is an old saying that "when the Races are over the summer is past"—one cannot exactly tell why—but everybody feels it so. To continue, the weather during the first week in September is suspiciously suitable for aquatic sports, the days are cool and pleasant, and the sun but looks down kindly on the gentleman who modestly glances upward from the vicinity of the back tent. The man with the straw hat, the immaculate shirt front and the glowing tie can still shine, as was his wont, and tell how races were rowed and won in his day, whilst the young lady from the west may, in company with Mrs. Tucker, still smile blandly on the weather clerk and flout him to desperation with white merinos and stunning bows.  
As I am on the subject now, sir, the idea strikes me to suggest that the Reid Co. call their new boat the Bruce. True, we already have a Bruce in the Gulf, but don't you think it would be fine to see another on good old "Kitty Vitty"?  
The now up to the Regatta Committee to consider the suggestion of September Regatta—or at least the holding of the event late in August; and I feel sure that our genial Secretary, Mr. Noonan (who by the way dearly loves to bark in the September sun) will place the proposition before the body.  
Yours truly,  
P. J. K.

**Star vs. St. Bon's**  
The Star and St. Bon's teams will contest in to-night's football match. The players will be:  
Star—Goal, Walsh; backs, J. Hart, J. Dunn; halves, L. Kavanagh, T. Jackman, W. Duggan; forwards, J. Kavanagh, R. Jackman, T. Duggan, T. Rodgers, F. Brien.  
St. Bon's—Goal, St. John; backs, Firth, O'Flaherty; halves, Gear, Rennie, Byrne; forwards, W. Callahan, Shortall, R. Callahan, Robertson, Templeman.

**The Bible Society**  
The Bible Society Committee will meet at 4 p.m. in the Board of Trade Rooms when it is likely an address will be made by Rev. Mr. Newcombe, the new District Secretary, who arrived here yesterday. Before leaving here the rev. gentleman will visit the outport branches of the Society.
