Hr. Grace Notes.

Several of our citizens who were at St. John's for the Regatta, returned yesterday and speak in the highest terms of the arrangements. One of them, who has witnessed a number of previous Regattas speak of the present one as the best on record.

Lady Pond Road has received a little attention at the hands of the Road Board lately, but still there are many places that should be attended to. Many people will visit there on Wednesday, and a kind word to the Board will be better than reverse criticism. Fix the roads.

Mr. Ian M. Thompson who is confined to his home suffering from a mild type of smallpox is doing well, being able to sit up by the window and smile pleasantly at the friends as they pass. Smallpox has lost its sting apparently, which few will regret.

Our own Regatta takes place on Wednesday next at Lady Lake. Mr. Wm. Madigan, the energetic Secretary of the Committee, is on the qui vive to have every detail perfect, so no hitch may occur and the day if fine, will be one of the most pleasant spent here for a number of years.

Mr. P. J. Cram, a former resident, but for the past nine years living under the Stars and Stripes, arrived in town on Wednesday afternoon. All his friends were glad to see him and to hear of his well being. Two of his friends were in conversation near the Post Office, and while he was several blocks away from them one said "Isn't that stranger coming up like Cram?" "Very much," said the other. "Why, it is him," said the first, and Mr. Cram had to use both hands in receiving the customary welcome back to town. He will remain a few weeks.

A visitor to St. John's a few days ago was particularly pleased with the treatment received at the half-dressing parlor of Mr. Wm. Donnelly. Attention to customers pays at all times and Mr. D.'s careful attention and pleasant manner is sure to do the trick. He is also thoughtful for his patrons comfort, and has lately added a boot-cleaning stand to his business which is looked after by a genial young negro from Barbados. Success to your efforts will.

Christ Church Strawberry Festival took place last night, and the very handsome sum of \$150 was realized. The money is here, and it only takes the tempting delicacies provided by the ladies to untie the purse strings of everyone, the lover of money included. The affair was held in the new school hall, and was the first public gathering held there. The ladies of the church are to be congratulated on the success of their efforts.

Successful Tests.

Ottawa, August 6.—Alex. Johnson, Deputy Minister of Marine and Fisheries is in receipt of a wireless from Professor Barnes on the steamer Montcalm, stating that most successful experiments have been carried on in the Straits of Belle Isle with the micro thermometer. Professor Barnes' invention for the detection of icebergs by ocean-going steamers.

The wireless further states that the steamer will arrive at Sydney at an early date this week and that the inventor will give the results of his investigations to the Department. Prof. Barnes has been absent in the vicinity of the Straits for about three weeks during which time he has made continuous experiments with the ice berg detector. Judging by the optimistic tone of the message received the results of the experiments will prove of great value in the safeguarding from collision of ocean steamers and other craft.

The Chances Against You

"Oh, I will be all right in a few days," says the person who is tired out and has to drag himself to his daily work because the nervous system is exhausted. Unfortunately, nervous diseases do not right themselves, and the wasting process which has brought you to this condition keeps right on until there is a complete break-down.

You must get the building-up process started, so that, instead of being a little weaker at the end of each day, you will find the balance on the other side and know that you are gradually getting strong and well. Dr. Chase's Nerve Food will help you wonderfully if you only give it a reasonable chance. As the system is built up you will find such symptoms as headache, sleeplessness and indigestion leaving you. You will find the old energy coming back. The mind and body will better serve you, and you will see a new pleasure in life. Dr. Chase's Nerve Food, 30c. a box, 6 for \$2.50, at all dealers or Edman-son, Bates & Co., Limited, Toronto.

Special to Evening Telegram.
CONSTANTINOPLE, To-day.

Difficulties with Montenegro and Bulgaria now appear in fair way of settlement, owing probably to peaceful counsel tendered to Porte by Russia. Britain and other powers anxious to avoid a Balkan conflict. Both Turkish and Montenegrin troops are withdrawn from frontier and the Governments are waiting a statement from the mixed commission. The Port also appointed a commission to enquire into the Kotecha massacre. The Turkish Minister of Justice visited the Bulgarian Minister and it is understood assured him that the Porte profoundly regretted innocent Bulgarian lives had been sacrificed. The Government is determined not only to punish guilty soldiers but intend to take active measures to prevent a repetition of massacre. The upsetting of a lamp by an earthquake started a conflagration at Adrianople and three hundred houses were destroyed. The fire is still raging.

Special Evening Telegram.
LONDON, To-day.

The capture of a seat at the by-election at North West Manchester, when Randles, Unionist, defeated Ewart, Liberal, infused a remarkable spirit of jubilation in Unionist party. It is the eighth seat the Unionists have won from Liberals since the general election. All efforts to explain away the successive defeats of Liberal candidates at the by-elections fail to dissipate the sense of depression on the Liberal side, which is enhanced by the resignation of the Master of Elibank who organised the successful Liberal election campaign, the rebellious attitude of the Labor Party which threatens to put 150 candidates in the field next election. There are 73 Liberal-Radical members whose seats were won by majorities not much greater than N. W. Manchester, and Unionists argue the country is so heavily discontented with the financial methods of Lloyd George that if a general election was held the majority of these seats would be won for the Unionists, and many other seats captured by Unionists.

NEWPORT, To-day.

Accidents are reported to battleships Nebraska and Connecticut engaged with Atlantic fleet in manoeuvres in Narragansett Bay, will keep both ships out of further drills for some time. Connecticut has broken a crank shaft, and the Nebraska ran on uncharted shoal.

Here and There.

Mrs. Kelly, of the Board of Trade office, left by Thursday's express for Grand Falls, on a two weeks vacation.
ERIK GOES NORTH.—The S. S. Erik, Captain Berrett, leaves port this evening with a full cargo of salt for the Labrador. This article is very much needed there at present, although it is expected that before the steamer reaches far north the fishing voyage will be practically over.

HORSE RUNS AWAY.—A horse, attached to a long cart, belonging to a Logy Bay man, while left standing near Cochrane Street, this forenoon, was frightened by an automobile and bolted. The animal ran furiously along Duckworth Street, but was brought to a halt at the King's Beach, and before any damage was done.

CITY'S HEALTH.—Fever is on the increase in the city, and during the past week three cases of scarlet and eight of diphtheria were reported. There are now in Hospital 28 scarlet fever patients, 10 of diphtheria and 5 of smallpox. The number of patients being nursed at home are nine of scarlet, three of diphtheria and one of typhoid.

ARCHBISHOP VISITS HOSPITAL SHIP.—Archbishop Howley accompanied by Monsignor Roche, Rev. Dr. Kitchen and Rev. Fr. Sheehan went on board the French Hospital ship in the harbour this morning. His Grace and party partook of luncheon aboard at noon coming ashore at 2 p.m. The ship was profusely decorated with bunting in honour of the visit.

FOUND.—We are continually finding lost articles for our advertisers. Yesterday we advertised the loss of a Lady's Gold Watch and also a Bracelet. This morning we had the pleasure of sending the articles to the owners, who, needless to say, were delighted. Advertisers can always depend on getting results from advts. placed in The Evening Telegram.

TRIED ON MONDAY.—The young woman who was arrested yesterday as a suspect in the infanticide case, came up before Judge Conroy yesterday afternoon. She was not asked to plead to the charge and was remanded. The preliminary enquiry was held by the Justice authorities to-day and the accused will appear before the Magistrate's Court on Monday morning to answer to the charge of concealment of birth.

The Placentia Garden Party.

The Best Outing Event of the Season.

The Placentia Garden Party, to be held at Placentia on the Verran and Blenheim grounds on August 15th, promises to be the outing event of the season. The ladies' and gentlemen's committees have prepared a splendid programme for the successful carrying out of the events of the day. Visitors may rest assured that all arrangements have been made for their convenience and comfort, and an enjoyable time awaits them. Members of the Committee will be at the Railway Station on the arrival of the train to meet visitors, and conduct them to the grounds and every information as to hotel accommodation, afforded those staying off a few days at Placentia and who are availing of the excursion rates and extension of time kindly offered by the R. N. Co. Three most enjoyable days can be spent in visiting the different places of interest in and around Placentia. Carriage and motor boats will be in readiness and, for a small fee, excursions can be arranged to the South East Arm where the river and pools are teeming with splendid trout and salmon and where Tullford's Hotel will supply all the delicacies of the season.

A climb up the far famed "Castle Hill" with its magnificent view of Placentia Bay—and to the less adventurous a romp on Mt. Prospect with its equally picturesque view of "Placentia, or a drive to Glendon's Cove, returning by way of Point Verde touching at the "Downs" and the P. V. "Light House," are amongst some of the attractions which will be afforded visitors to the Garden Party. Two bands under the leadership of Professor Power, will supply the music, and a night a sociable will be held in S. S. Hall.

Placentia, Aug. 9th, '12.

Bishop in Aeroplane.

The Lord Bishop of Saskatchewan, Dr. Newnam, paid a visit a short time ago to Europe, and during the trip sent his "Episcopal Notes" to the Saskatchewan Diocesan Magazine, which is a publication for all the parishes in the diocese. In the notes for May he describes a trip in an aeroplane at Monaco: "I wish I could send you a copy of my photograph—five of us—taken up in an aeroplane, with Mentone down under us in the distance. They insisted on me taking the wheel and lever for guiding and controlling the machine. I suppose because they thought I was accustomed to guide and control amid clouds and hot air, or in deference to my office as "sky-pilot" and in the picture I look as if I was quite at home at it."

LAST NIGHT'S ARRESTS.—The police were kept busy last night and up to midnight seventeen prisoners were jailed. Most of them were ordinary drunks.

Architects Specify Brandram's B. B. Genuine White Lead Standard Of The World For Many Generations

Brandram's B. B. Genuine White Lead is unequalled for whiteness, fineness and durability. It carries more Linseed Oil, makes more paint and covers more surface, works easier and better, than any other white lead made. If you want the best work—or if you want to do the best—be sure to start right with "Brandram's B. B." White Lead.

The Nova Scotian Won.

Sydney, N. S. W., Aug. 3.—Sam Langford, of Weymouth, N. S., won a 20 round fight here to-night from Sam McVey, of California, on points. The contest went the full distance. Neither scored a knockdown, but at the end McVey had received the greater punishment. Langford's superiority was so palpable that the referee's decision in his favor was loudly cheered by the crowd. Throughout, Langford was the aggressor, showing a strong preference for in-fighting and punishing in the clinches, which in the second round provoked a protest from the police. Again in the fourth round when the men were ordered to their corners, Langford was cautious. After that, while always on the aggressive, the "Tar Baby" showed more restraint, breaking in the clinches at the call of the referee. McVey displayed cleverness and fought cleanly, but his science was unavailing perior strength and stamina. In the eighth round Langford's attacks and successful round he was in distress, but his skill enabled him to avoid a knock-out. The betting was 5 to 2 on Langford. There were many women among the spectators.

Tiny Craft Halted Liner.

New York, August 5.—A tiny boat a thousand miles at sea, flying signals of distress, seen by officers of the Hamburg-American line steamer Amerika, which arrived here to-night proved to be the 35 foot power boat Detroit, which left New York for St.

Petersburg, on July 15, with Captain Thomas Fleming Day as its venturesome commander.

The ocean liner slowed down and headed for the small boat when the signals were sighted, but when Captain Knauth, of the Amerika got within speaking distance of the little craft, Captain Day informed him that he had hoisted the signals merely to attract attention, so that he could send word back to New York that all was well with him and his crew.

The Detroit, at that time on July 22, was in latitude 46.54 North and longitude 28.42 West, approximately 1,000 miles off the Irish coast. Captain Day reported having had generally good weather.

He is planning to outdo his voyage of last year, when he sailed from Province, R. I., to Rome in the tiny yawl, Seabird.

That Tire-some Voice.

"Yes, my friends," exclaimed a temperance lecturer, "there are many excuses for the glass. The sick man says he must have his glass to make him well, the shivering cabman must have his glass to make him warm, the hard-working mechanic must have his glass to make him cool. But they lie, friends. Don't believe the workman who says he cannot work without the glass. I defy anyone to mention me a workman who says he cannot work as well and better without his glass than with it."

"I'll tell you one," cried a voice from the audience. "I defy you to do so," said the lecturer. "I defy you, sir!" Then, amidst a ripple of laughter, the voice replied: "A glazier!"

SLEEP

Did you, sleepless one, ever try a dish of GRAPE-NUTS and CREAM just before bed.

Sure you never did or you wouldn't train with the "sleepless squad."

IT'S A BAD PRACTICE to load up the stomach with a promiscuous variety of rich, indigestible food at night because it "tastes" good.

Strength without Bulk is a requirement of an ideal food for the last bite before going to bed. The food that is concentrated so that a sufficient amount for all purposes will not distend the stomach; the food that is practically predigested so the organs can, without undue effort, absorb it wholly; the food that contains the tissue-repairing and energy-making elements from clean field grains—that contains the Phosphate of Potash which combines, by vital process, with Albumen to repair the gray matter in brain and nerve centres—that's

Grape-Nuts

TRY A DISH—about four heaping teaspoonfuls with cream, and a little sugar if desired, eaten slowly before retiring, if you're hungry, and note how well you sleep and how fresh you feel in the morning.

"There's a Reason"

Made by Canadian Postum Cereal Co., Ltd., Pure Food Factories, Windsor, Ont.

GOOD NIGHT'S SLEEP

No Medicine so Beneficial to Brain and Nerves.

Lying awake nights makes it hard to keep awake and do things in day time. To take "tonics and stimulants" under such circumstances is like setting the house on fire to see if you can put it out.

The right kind of food promotes refreshing sleep at night and a wide awake individual during the day. A lady changed from her old way of eating, to Grape-Nuts, and says: "For about three years I had been a great sufferer from indigestion. After trying several kinds of medicine, the doctor would ask me to drop off potatoes, then meat, and so on, but in a few days that craving, gnawing feeling would start up, and I would vomit everything I ate and drank."

"When I started on Grape-Nuts, vomiting stopped, and the bloating feeling which was so distressing disappeared entirely. My mother was very much bothered with diarrhea before commencing the Grape-Nuts, because her stomach was so weak she could not digest her food. Since using Grape-Nuts she is well, and says she doesn't think she could live without it."

It is a great brain restorer and nerve builder, for I can sleep as sound and undisturbed after a supper of Grape-Nuts as in the old days when I could not realize what they meant by a "bad stomach." There is no medicine so beneficial to nerves and brain as a good night's sleep, such as you enjoy after eating Grape-Nuts."

Name given by Canadian Postum Co., Windsor, Ont. Read the famous little book, "The Road to Wellville," in pkgs.
