### What PITTSBURGH Thinks of Republic Trucks

In Pittsburgh, with its hills and heavy hauling, where power and stamina are absolutely essential; half of all the motor trucks in use are Republics.

"We found Republic Trucks so satisfactory in spite of over-loading and strenuous overtime service that we have just purchased another Republic," say Best Company, manufacturers of pipes, valves, etc.

"Because of the demonstrated efficiency of the first Republic we purchased, we are now using a fleet, including 1½, 2, 3½ and 5 ton, all Republics," say W. E. Osborn Co., large wholesale produce dealers.

"In spite of the severity of service in the oil and gas fields and over difficult country roads, our Republic Trucks have been absolutely trouble-proof," say People's Natural Gas Company.

"Even the additional abuse of war-time driving has had no apparent effect on the Republic Trucks which we have had in operation for three years. They continue to give the most satisfactory service," say Ziegler Lumber Com-

Each of the owners listed in this advertisement and hundreds of others have learned the efficiency and economy of hauling with Republic Trucks. That is why there are as many Republic Trucks in op-eration in Pittsburgh as there are of all other makes combined.

The same sturdiness and dependability that has made Republic Trucks so popular in Pittsburgh is creating a constantly increasing demand for them in every part of the world.

Republic Trucks are a profitable investment for any business with a hauling problem.
