What is Scrofula

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly tumps or swellings; which causes painful running sores on the arms, logs, or feet; which developes neers in the eyes, ears, or nose, often eausing blindness or deafness; which is the origin of pimples, cancerous growths, or many other manifestations usually ascribed to "humors." It is a more formidable enemy than consumption or cancer alone, for scrofuls combines the worst possible features of both. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

the business and political world.

The preliminary survey line for the proposed railroad to connect Kalamazoo with the Chicago and Grand Trunk Road at Marcellus has been completed. The route is said to be inexpensive to build and passes through Parson's Corners, a place of 300 inhabitants. Work will be begun at once, running a line along the south side of the river to Battle Greek. The present line from Battle Creek to Marcellus is 40½ miles, and the route which would bring Kalamazoo on the line will not be over 43½ miles. As the Grand Trunk propose to double-track their line, the enterprising citizens of Kalamazoo will endeavor to have that city on one of the tracks.
