Topics of Today.

The majority of the new Ministers at Ottawa were re-elected by acclamation when they returned to their constituents this afternoon.

Mr. C. C. James, Deputy Minister of Agriculture for the Province of Ontario, has received a letter from Mr. Watson, curator of the Imperial Institute at London, England, asking for the names of Canadian exporters of tinned ox tongues. Several English and German firms wish to import from Canada, and are seeking information regarding the industry here. There is a good market for canned goods in England, and our canners should see to it that they have their full share of it. This country can produce the goods.

The "potato patch" scheme of the Ottawa associated charities this year has proved a great success. The chief merit of this self-helping system is that it gives the idle something to do, and brings reward for their labor.

The number of employees in the Department of Indian Affairs at headquarters in 1875 was 8; it is now 53. There seems to be room here for the pruning knife, also. The country is not a pensioner bureau.

Dr. Jameson and his fellow-prisoners are to be treated as first-class misdemeanants, which means that they will have a first-class time in jail. This can hardly be regarded as punishment.

Chatham takes its domestic water supply from the Thames.

At a meeting of the Butter and Cheese Association at Montreal, Geo. Sandfield Macdonald, on behalf of the Patrons, urged that the new Government at Ottawa should be asked to make an inquiry into the policy of the Australian and Argentine Governments in regard to the export of meat and dairy products to the British markets. The Patrons, he stated, wanted to know how these countries were beating Canadians in the British markets. A delegation was nominated to wait on Premier Laurier and ask for a full investigation. It will doubtless be granted.

Two important British conventions will be held in Canada next year. The British Association for the Advancement of Science will convene at Toronto, and the Medical Association immediately afterwards at Montreal. Dr. Roddick, of Montreal, has been elected president of the last-named body.

This, it seems, is the season for "saw-offs." London is not affected by the developments elsewhere.

The Long Point Company intend to go extensively into bee culture. The managers expect to find a good market for their honey in the United States.

Hon. L. H. Davies, Minister of Marine in the new Canadian Government, had a splendid reception at a recent demonstration in his honor at his Prince Edward Island home. On the present occasion, he said, when they were rejoicing over the advent of a new Government, it would be ungracious to speak unkind words of those whose sun has shined in obscurity. Still, he would allude to the fact that Sir Charles Tupper, who for a few weeks flaunted as the Premier of Canada, while in Charlottetown during the late campaign, brought exasperation upon his own name by attempting to pour obliquity upon the memory of the late Hon. Alexander Mackenzie. The effort was in exceedingly bad taste, and to their credit be it said, it was resented by Sir Charles Tupper's own supporters. Mr. Davies says the new Government will carry out its programme for the welfare of Canada in due course.

Paris, July 30.—The Russian loan of 1,000,000,000 francs (\$200,000,000) issued by the Rothschilds, has been covered 25 times over.

THE MOSCOW DISASTER.

St. Petersburg, July 30.—An imperial ukase has been issued stating that the Czar has personally considered the results of the inquiry into the disaster that occurred on the Hodynsky Plain on the occasion of the coronation festivities. The ukase declares that the Moscow authorities are answerable for the disaster, and orders that Police Prefect Vlassovsky be cashiered and that minor penalties be inflicted upon other officials who have been found to be in any way responsible for the calamity.

JOHN MORLEY ON ARBITRATION.

London, July 30.—The next issue of the Nineteenth Century will contain an article by John Morley on arbitration with America, in which he deals with the Venezuelan question, saying: "It will be ridiculous or criminal if it ever becomes more than a petty question." He says further that the difference between the two Governments is so narrow that a rupture would be preposterous and incredible. The article is a strong and eloquent plea for the creation of a permanent tribunal of arbitration, disposing of Salisbury's apprehensive objections as exaggerated and groundless.

FEASTING IN PRISON.

London, July 30.—It is stated today on what seems unimpeachable authority that the Home Secretary, acting under instructions from Premier Salisbury, has directed that Dr. Jameson and his companions be treated as first class misdemeanants. Already comfortable furniture, held in suspicious readiness, has been taken into Holloway jail, while last night they supped on luxurious fare, including an abundance of champagne. As Willoughby remarked: "This is a heap better than we got from old man Kruger." This petting of convicts will likely cause a storm of indignant protest to sweep the country.

ITALIANS EJECTED.

Zurich, Switzerland, July 30.—The Italians in this town are in a state of panic in consequence of the riots growing out of the killing of a Swiss by an Italian during an attack on the Italian quarter, in which serious excesses were committed. Landlords who have Italians for tenants, fearing that damage may be done to their property, are putting the Italians into the street by wholesale, and hundreds of them are sleeping in the forest adjacent to the town about bivouac fire.

CHILDREN'S DEFECTIVE VISION.

London, July 30.—As the result of an inquiry instituted by Mr. Brudenell Carter for a committee, appointed by the Education Department, into the extent and causes of the defective vision said to exist among children attending the public elementary schools, he has found that of more than 8,000 children in London schools, only 20.15 per cent possessed normal vision in both eyes; but the eyes of the children examined, and presumably those of London school children generally, are in no way inferiorly affected by the conditions of elementary school life. The great cause of alarm to school managers has now for some years been aggressive myopia, but Mr. Carter has failed to find evidence of any exaggerated prevalence of this condition.

COMMENTS ON THE RAIDERS' SENTENCES.

The Chronicle says: "The sentences are merciful; the raid is reduced to its proper proportions."

The Times says: "The conclusion will commend itself to the general judgment of the country. The sentences vindicate the law without the appearance of vindictiveness."

The Graphic approves the verdict. The Daily Telegraph considers that the court has found a medium between indulgence and excessive rigor.

The lobby correspondent of the House of Commons has made approaches to President Kruger, of the Transvaal, suggesting that he should plead with the British Government that clemency should be shown to Dr. Jameson and his followers in the raid into the South African Republic, has written a letter stating that Dr. Jameson instructed him to oppose any action of the sort, the defendant feeling that any interference on the part of the Transvaal authorities would be unwarranted, as well as being extremely distasteful to them.

There was absolutely no demonstration in the court room when the prisoners were taken away, or outside of it when they were escorted to jail. And yet a few months ago, when Dr. Jameson and his troops arrived in London, they were loudly cheered in the streets and everywhere as men who had fought gamely for their country. Any mention of their names in the music halls was the signal for uproarious cheering, and no stage production was considered complete without some mention of Dr. Jameson and his troops. For the fingers had set them up as their idols for the time being. But all this has ended, for it has been shown that the
