

ANNA GOULD'S COSTLY COUNT

Family Paid \$1,600,000 of the
Scapegrace's Debts.

Princess Chimay Deserts Her
Palace in Egypt.

Additional Cases of the Plague in the
Vicinity of Glasgow—Nearly 8,000
Deaths in a Week From Cholera in
India.

PRINCESS CHIMAY.
London, Sept. 4.—A special from
Cairo, Egypt, says: Ex-Princess Chi-
may has given up her palace in the de-
sert near Cairo, after having spent \$90-
000 in making it luxurious enough to
suit her.

COTTON MILLS MAY CLOSE.
The spinners at Manchester, Eng.,
using American cotton are, it is re-
ported on the exchange, considering
the closing of their mills for four-
teen days owing to the scarcity of
water.

AWFUL RAVAGES OF CHOLERA.
Bombay, Sept. 4.—Official returns
show that there were 1,980 deaths from
cholera in the native and British states
during the week ending Aug. 25. The
numbers of relief works are decreasing
and the members receiving
gratuitous relief are increasing.

COUNTS COME HIGH.
Paris, Sept. 4.—It is now known
why the sale of Count Castellane's cas-
tle was countermanded. Countess
Anna, though falling to sway her bro-
thers, and especially her sister Helen,
to give money for Count Boni on their
last trip to New York for that purpose
some months ago, decided to make a
last appeal, and her distress was so
pitiful that Edwin was touched, and he
finally prevailed upon George.

The brothers then sent for Count
Boni, and after imposing upon him
some rather severe conditions, put up
enough money to pay the main cred-
itors and stop the sale.

Well informed friends allege that
Count Boni when he saw, how desirous
the Gould family was to prevent the
scandal of a sale under the hammer,
took advantage of the situation and
refused to accept any help unless his
whole debts were wiped out.

The same people further affirm
that George Gould refused to trust the
money in the count's hands, and paid
the creditors themselves, the sum thus
advanced aggregating 8,000,000 francs,
about \$1,600,000.

Edwin sailed on Saturday on the
St. Louis from Cherbourg. George
and his wife are still here.

PLAGUE SPREADING.
Glasgow, Sept. 4.—The area infected
with bubonic plague has spread to Gov-
an, a suburb of Glasgow, and Satur-
day and yesterday the medical author-
ities certified that he was a victim of
the disease. Three additional suspected
cases of the plague have been re-
ported in this city.

VIENNA, Sept. 4.—On account of the
outbreak of bubonic plague at Glasgow
the Austro-Hungarian Government has
ordered a medical examination of all
ships arriving from English ports.

NEW YORK, Sept. 4.—Health Officer
Dr. Dohy boarded the City of Rome,
which arrived Sunday night, from
Greenock, Scotland. He found no traces
of bubonic plague, and the vessel was
allowed to go to her pier at noon.

WASHINGTON, Sept. 4.—On the re-
quest of the Canadian Government,
Surgeon-General Wyman called on
Assistant Surgeon Thomas, the mar-
ine hospital official watching the bu-
bonic plague situation in Glasgow,
directions to inspect the vessels of the
Allan and the Donaldson Lines sail-
ing from Glasgow for Canada during
the period of danger or until the ar-
rival of a Canadian quarantine of-
ficer there. To the request was added
that the Canadian Government would
pay for the inspections.

SAVED A BOY'S LIFE.
Toronto, Sept. 4.—By prompt action
and at great risk to his own life, Major
Macaulay, of the high school, Montreal,
on Saturday afternoon saved from
drowning Leslie Floyd, son of Mr.
Stanley Floyd, of the high school, Mon-
treal. The boy had gone in bathing alone in the lake
off Island Park, and after walking out
on a sandbar for some 25 yards, he
began to swim on his back. Soon find-
ing, as he was only a lad of 9 or 10
years, he tried to stand upright, think-
ing he was still on the sandbar, where-
as he was in water ten feet deep. The
major saw the situation, and without
waiting to take off his clothes, plunged
into the water, swam out to the
drowning lad, who was going down for
the third time, and brought the boy
safely to shore, where he soon regain-
ed consciousness.

The project of an extensive electric
power development from water falls
in Ireland has every prospect of be-
coming law.

A Syracuse (N. Y.) woman brought
suit against her sister because she
would not go home after her six weeks'
visit was "up."

When Travelling
Always take with you a bottle of Dr.
Fowler's Extract of Wild Straw-
berry.

The change of food
and water to which
those who travel are
subject, often pro-
duces an attack of
diarrhoea, which is as
unpleasant and dis-
comforting as it may
be dangerous.

A bottle of Dr.
Fowler's Extract of
Wild Strawberry in
your grip is a guaran-
tee of safety.

One of the first in-
dications of Cramps,
Colic, Diarrhoea or
Dysentery, a few
doses will promptly
check the further ad-
vance of these dis-
eases.

As Dr. Fowler's Extract of Wild Straw-
berry is being widely and shamelessly
imitated, your safety lies in seeing that the
full name is on every bottle you buy.

STRANGLED BY FALSE TEETH

A Banker Loses His Life at
Brighton Beach.

Waterloo Man Shoots a Watchman
and His Dog—Carpenter's Fatal
Fall.

New York, Sept. 4.—While thousands
of Brighton Beach visitors looked on,
Arthur T. J. Rice, 65 years old, of No.
109 East Seventy-ninth street, who was
for 45 years employed in the National
Broadway Bank, perished in only six
feet of water. The fact that his false
teeth had lodged in his throat, led an
ambulance surgeon to believe that Rice
might have been strangled and not
drowned.

WATCHMAN SHOT.
Waterloo, Ont., Sept. 4.—Early Mon-
day morning the town's night watch-
man's dog was shot dead, and Night
Watchman Peppier wounded in the
legs by a shot from a gun in the hands
of Joe Alexander, a man well known
around the town. About an hour be-
fore the shot was fired the dog had
jumped on Mr. Alexander, when the
night watchman helped him into the
house where Mr. Alexander boarded.

When Mr. Peppier made his early
rounds past the house a shot was fired,
killing the dog and wounding the night
watchman. The gun was found in bed
with Alexander.

CARPENTER'S FATAL FALL.
Quebec, Sept. 4.—Saturday, a car-
penter named Francois Dumont, em-
ployed at the rebuilding of the Roman
Catholic Church at Hedgesville, met in-
stant death through a fall. He was
standing on a ladder at a height of 60
feet from the ground, when he lost his
hold and went down to the ground be-
low, the body striking with terrific
force. Death was instantaneous.

CROSSING DISASTER.
Syracuse, N. Y., Aug. 4.—The fast
mail train due in this city from the
west at 8:40 p.m., struck a carriage
containing four people at Oswego Jun-
ction, four miles west of here, last night.

The victims are Patrick J. Foley, of
Syracuse, every limb in body broken;
Ellen Foley, of Split Rock, sister of
Patrick, skull crushed and body badly
bruised; Josephine Blanchard, of Syra-
cuse, skull crushed and body badly
bruised.

FOUND DEAD.
Toronto, Sept. 4.—Mrs. J. Lewis, a
woman of about 45 years of age, was
found at 509 Queen street west, was found
dead in a chair in her room on Satur-
day night, with an empty cup by her
side, in which a pink mixture, appar-
ently rat poison, had been prepared.

Mrs. Lewis' husband died three weeks
ago, and she had been in low spirits
because of inability to support her-
self.

**MOUNTAIN OF
COPPER ORE**
Worth \$3,000,000—Sir Charles Tupper's
Description of W. H. Treat's
Discovery.

Vancouver, B. C., Sept. 4.—W. H.
Treat, of New York, has made an im-
portant discovery of copper ore on
Hove Sound. One of his prospectors
has located a veritable mountain of
copper not a mile from the famous
Vancouver group. Mr. Treat says it
will go six per cent copper, and is
richer than the Sultan group, which
sold for \$1,500,000. He said:

"I have seen many big mines in my
day, but never anything like the show-
ing of the Goldsmith. My new find
Nature has cut away the soft crust and
left the mineralized rock standing
500 feet high. Nature has done what
it would take a large gang of men five
years to do in the way of exposing the
ore. It is as if a tunnel were driven
down 500 feet and then broken off, so
that the ore was exposed. On the sur-
face there have been several open cuts,
and the mineral can be traced for 1-
500 feet."

Sir Charles Tupper said:
"If the people of Canada had any
conception of what the Goldsmith cop-
per properties were like they would
be greatly excited over the fact that
such a marvellous body of ore was ly-
ing at the very doors of Vancouver."

"After seeing the property, I at once
put up with a purchase of a half-inter-
est from W. H. Treat. We will now
incorporate a company. I can only de-
scribe what I saw as a clean mountain
of ore. On the Daisy claim the action
of the water for perhaps many decades
has exposed a sheer bluff of copper
quartz, where one can go about with
a hammer and knock off pieces of ore.

"The rock is well mineralized, and it
would have to be low grade indeed not
to be worked at a tremendous profit.
If the Britannia is worth a million and
three million as a 'prospect' only, in
my estimation. The big deposits are
not a half mile apart."

PRESBYTERIANS
Circular Issued by Committee on
Creed Revision.

Pittsburg, Sept. 4.—The committee
on creed revision appointed at the last
meeting of the Presbyterian general
assembly, has issued a circular to the
presbyteries of the church reciting the
authority for the appointment of the
committees to ascertain the general
feeling in regard to the proposed re-
vision of the creed, and requesting the
presbyteries to consider and answer
the following inquiries:

1. Do you desire a revision of our
confession of faith? or
2. Do you desire a supplemental, ex-
planatory statement? or
3. Do you desire to supplement our
present doctrinal standards with a
brief statement of the doctrines
"most surely believed among us," ex-
pressing in simple language the faith
of the church in loyalty to the system
of doctrine contained in Holy Scrip-
tures and held by the reformed
churches?

4. Do you desire the dismissal of the
whole subject, so that our doctrinal
standards shall remain as they are,
without any change whatever, whether
revisional, supplemental or substitu-
tional?

The presbyteries are requested to
record the affirmative and negative
votes. This, it is thought, will cause
a divided vote in the Allegheny and
Pittsburg presbyteries, as most of the
ministers differ regarding the pro-
posed revision of the creed.

TWENTY FOUR YEARS AFTER

Divorced Couple Remarried—A
Deadwood Romance.

Wedding of a Giddy Couple Whose
Combined Ages Total 151 Years.

Lansing, Mich., Sept. 4.—News has
been received here of the marriage of
Mrs. Estella A. Timmerman, formerly
a teacher in the Industrial School, to
John A. Greenough, of Deadwood, South
Dakota. A romance is connected with
the event. Greenough is Mrs. Timmer-
man's first husband, the couple having
been married in Lansing in 1869. A few
years later, the husband, who had lost
his property, went to the Black Hills
in search of gold, his wife securing a
position here as a teacher. Their let-
ters became less and less frequent and
finally stopped altogether. She obtain-
ed a divorce in due time on the grounds
of desertion and married James Tim-
merman, with whom she lived until he
died a few years ago. Meanwhile Green-
ough had grown rich. He hunted up
the wife of his youth, and when they
were married at Bay View Sunday they
had not seen each other for 24 years.

The reunited couple are now taking a
trip up the lakes. They will live in
Deadwood.

77 AND 74.
Houghton, Mich., Sept. 4.—Justice C.
O. Olivier has just had the pleasure of
tying the knot for one of the oldest
couples ever married in Houghton
county. Their combined ages were 151
years, and the groom said he had had
the step because he wanted a wife,
while the bride, who had buried two
husbands, said she wanted a man. The
wedding was witnessed by a few
intimate friends. The name of the
groom is Peter Wendel, of this city,
aged 77, and the bride was Mrs. Sophie
Guthell, of Houghton, aged 74. The
groom has a home in the west and is
reputed to be worth several hundred
dollars.

PACIFIED HIM WITH \$10.
Owosso, Mich., Sept. 4.—Dora Shep-
pard, the 16-year-old daughter of Mr.
and Mrs. Elias Sheppard, of Chesaning,
has been working for a family near
Corunna, and while there became ac-
quainted with J. A. Johnson, who on
Wednesday took her to Corunna, and
stated she was 19 years of age, securing
a marriage license. The marriage cere-
mony was performed before the frater-
nity got next to the proceedings.

He then came to Owosso and swore
out a warrant for Johnson's arrest, but
the latter pacified his father-in-law by
paying him \$10. Mr. and Mrs. Johnson
will live with his mother in Owosso.

MARRIAGE A "JOKE"
How Some Couples Are United in St.
Joe—102 Weddings on Sunday.

St. Joseph, Mich., Sept. 4.—All re-
cords in the marriage business were
broken here Sunday, when 102 wed-
dings took place. Three-fourths of
the couples came from Chicago. It is
the common belief here that the di-
verse court will be called upon to take
a hand in many of the cases.

MARRIAGE A JOKE.
As an instance of the way things go
in this Greena Green the following in-
cident is related as having occurred
Sunday:

A party of four consisted of couples
No. 1 and No. 2. The young man of
couple No. 1 dares his fellow comrade
No. 2 to marry the lady of couple No.
1, and in twenty minutes the license
was issued and the marriage performed.

BEE'S STINGER IN HIS TONGUE.
Lansing, Mich., Sept. 4.—Howard E.
Treat, of this city, while riding
through the country on his wheel, was
stung by a bee, which left its stinger
in his tongue. The young man's tongue
became so swollen that he could not
speak, and he came near being arrest-
ed at Grand Lodge for being drunk.

ALASKA RIVER PERILS.
Seattle, Wash., Sept. 4.—Twenty-one
of the crew of the British steamer
Cutch, wrecked on Douglas Island,
have arrived here on their way to
Vancouver, B. C. They say the steam-
er will be a total loss. The Yukon
River steamer Bonanza King, one of
the fastest in the service was wrecked
in Fifty-Mile River, Aug. 25, by strik-
ing a rock. Her 45 passengers and the
crew escaped to safety in a life boat. Mer-
chant-ship cargo is a total loss. The
steamer may be saved. Skagway print-
ers have formed a union with 17 mem-
bers, the first in Alaska.

Hospital employees of Chicago are
said to give "tips" to undertakers
when a patient is going to die. The
undertakers sometimes arrive before
the patient is dead.

If you don't feel quite well try a
bottle of Fowler's Extract of Wild Straw-
berry. It is a
wonderful tonic and invigorator. It
will help you.

The so-called shipworm, which bores
holes in the wood of ships, is in real-
ity a form of shellfish.

IF ATTACKED WITH CHOLERA
or summer complaint of any kind send
at once for a bottle of Dr. J. D. Kel-
logg's Dysentery Cordial and use it ac-
cording to directions. It acts with
wonderful rapidity in subduing that
dreadful disease that weakens the
strongest man and that destroys the
young and delicate. Those who have
tried this cholera medicine say it acts
promptly.

The London County Council will soon
be asked to introduce season tickets on
its tram lines.

**DR. J. D. KELLOGG'S DYSENTERY
CORDIAL** is prepared from drugs
known to the profession as thoroughly
reliable for the cure of cholera, dysen-
tery, diarrhoea, griping pains and sum-
mer complaints. It has been used suc-
cessfully by medical practitioners for a
number of years with gratifying re-
sults. If suffering from any summer
complaint it is just the medicine that
will cure you. Try a bottle. It sells
for 25 cents.

Even as late in the year as this you
may find many birds still nesting.
House-martin starlings and sparrows
frequently lay a second time in Au-
gust.
