

THE PRIBILOFFS ALSO.

United States Willing That Proposed Close Season Shall Apply to Land Slaughter.

Upon That Understanding Canada May Agree to Hold Her Fleet for One Year.

WASHINGTON, Nov. 22.—One of the most important features of the Behring sea negotiations not heretofore disclosed is that in the event that Great Britain and Canada consent to a suspension of pelagic sealing for one year, the United States at the same time will agree to a suspension of all killing of seals for one year on the Pribiloff islands, constituting the American possessions in Behring sea.

As the islands are a part of the United States territory, no question has been raised as to the right of the United States to do as it chooses as to the seals on the islands and within three miles of shore, the three miles being a part of the island according to international law. During the recent negotiations the Canadians took the ground that if any suspension was to occur it would be inequitable to ask to suspend sealing in the outer waters while at the same time the United States persisted in sealing in the inner waters and on land.

The contention of the United States was primarily for the suspension of pelagic sealing, but under the exigency of the case it was felt that if a suspension of pelagic sealing could be secured, it would be reasonable to concede a similar suspension within United States territory. It was in this form that the final proposition took shape. The American proposition includes the Pribiloff islands in the proposed one year suspension, so that if Canada agrees to the suspension it will apply to the islands as well as to the high seas. The proposition follows the recommendation of the Paris court of arbitration, which suggested a temporary suspension of sealing on land and sea.

In the event of agreement between the United States and Great Britain and Canada, the right of the North American Commercial Company to take seals necessarily would terminate for a year. It is said the right of eminent domain gives the government authority for vacating the lease for this period without reference to the wishes of the company. Aside from this it is understood that the company would not stand on any technical rights, but would regard the concessions granted by Canada of such great advantage in the preservation of seals as to warrant a suspension on the Pribiloff islands during the stipulated one year.

TO SETTLE THE BOUNDARY.

Congress to Be Asked for An Appropriation to Be Applied to the Great Lakes.

NEW YORK, Nov. 22.—Reviewing the legislation to be before congress, which was assembled in Washington two weeks ago to-day, the Washington correspondent of the Tribune says: "Whatsoever may be the fate of the sealing negotiations and the various preparations affecting the relations between the United States and Canada, which have been submitted by and on behalf of the Dominion, it has been understood that the settlement of the Northern boundary question, which has been pending for an open one for more than a century, cannot much longer be safely delayed. That question, so far as it relates to the charting of the boundary line which traverses Lake Erie, is in a vague and unsatisfactory condition, which leads to frequent trespass and collisions of authority, and the same consequences result from the fact that the boundary line between the United States and Great Britain from the north shore of Lake Superior to the Lake of the Woods has never yet been surveyed and marked by international agreement. In the last congress a joint resolution having both objects in view was favorably reported from the committee on foreign affairs of the house, but no action was taken. This is a subject of importance not only to the inhabitants of Ohio, Michigan and Minnesota, and the inhabitants along the border of Canada, but to all the people of the United States as well, and the difficulties of a just and equitable settlement of it increase with every year's delay.

It is understood that a measure making an appropriation for an international boundary commission and survey to deal with this question is expected of the opening of the coming session, in order that there may be no unnecessary delay in case the negotiations now pending for such a commission and survey shall be brought to a successful conclusion."

ARBITRATION NO NEARER.

No Recent Action Between Great Britain and the United States and No New Treaty in Prospect.

WASHINGTON, Nov. 22.—It is stated from an authoritative source that no recent negotiations have occurred between Secretary Sherman and Sir Julian Pauncefote, the British ambassador, concerning a new arbitration treaty between the United States and Great Britain. No exchange of notes has occurred between Mr. Sherman and Lord Salisbury on this subject, and Sir Julian has not spoken of the matter since he returned to Washington some weeks ago from London.

These explicit statements were called out by detailed reports recently published, one of them being sent from Washington to London newspapers to the effect that negotiations on the new treaty had progressed to the final stage. When the ambassador returns from his present attack of rheumatism which confined him to his room, he probably will discuss the treaty matter with Mr. Sherman. This might lead to the opening of official negotiations between the two governments, although the present outlook is against any step whatever toward a new treaty.

THE AMER'S DISCLAIMER.

Surprised That He Should Be Charged With Responsibility for the Indian Disorders.

LONDON, Nov. 22.—A well informed correspondent at Kabul, the capital of Afghanistan, writing from that city under date of September 20, gives an account of an interview which he had with the Amer of Afghanistan in which the Amer, referring to the rising of the tribes on the frontier of British India, said: "I cannot imagine how anyone can think that I am responsible for the actions of the Haddad Mullah, who instigated the troubles, for it is he who raised the revolt of the Shinwaris and other tribes against me shortly after my accession. I inquired into his antecedents and failed to discover his tribe, caste or birth place. I only know he was a devotee of Mohammedanism and has great influence among Mussulmans of the border tribes."

When my governor at Jellalabad recently stopped the Haddad Mullah's followers from leaving Afghanistan, they said they had the right to fight the English, for their leaders had told them given them permission to do so. My governor thereupon arrested several of the leaders who were carrying green jehads (holy war) flags. He sent them to jail, where they are now in prison, and I know how to deal with them."

One of the officials of the Durbar, the latter adds, remarked: "Indeed these men are rascals."

WEYLER OF SOME ACCOUNT.

Spanish Government Warned That He May Even Upset the Dynasty.

LONDON, Nov. 22.—The Standard to-day warns the Spanish government that a personage capable of "exacting homage from such diverse elements as the Carlists, advanced Republicans, Conservatives and workmen's associations, did General Weyler at Corunna, the capable of developing into a popular hero who may upset the government and even the dynasty, unless care is taken."

BARCELONA, Nov. 22.—It is currently reported here that friends of General Weyler, who is now on his way from Montserrat, have advised him not to land here, but to remain at Palma, capital of the island of Majorca, his birthplace, as they fear the popular excitement here will create serious complications, the responsibility for which will be visited upon him.

A VISIT TO ROME.

A Montreal Prelate Before His Holiness—Canadian Bishops Upheld.

ROME, Nov. 22.—The Pope in receiving the Archbishop of Montreal, Monsignor Bruchesi, to-day, expressed special affection for the Canadian prelate. Later the Archbishop presented to His Holiness ten new pupils of the College of Rome. The Pope, in addressing the young men, recommended them to study hard, to love their country, to love the bishops, and to always maintain a close union with them as with the Supreme Pontiff. The Pope then presented Monsignor Bruchesi with a magnificent enamel portrait of himself. The Archbishop will start for Spain on Wednesday next and will visit the tomb of St. Leo de Compostella, to whose memory the cathedral of Montreal was dedicated.

The Pope's encyclical on the Manitoba school question was warmly applauded for some days to come, but it is understood that it confirms the stand taken by the Canadian bishops.

A MELBOURNE FIRE.

Entire City Block Destroyed With Loss of Nearly a Million Dollars.

MELBOURNE, Australia, Nov. 22.—Fire which broke out at 2 o'clock yesterday destroyed within three hours an entire block of buildings bounded by Elizabeth, Flinders and Swanston streets, and the loss of the property was estimated at nearly a million dollars. The fire broke out in a warehouse owned by the Australian Insurance Company, which was insured for \$700,000, of which amount \$500,000 will fall on British companies. The Australian company will lose the remainder.

THE WHEELMEN'S TROUBLES.

The Pacific Coast Problem Laid Before the President of the L.A.W.

NEW YORK, Nov. 22.—A conference between President Potter of the League of American Wheelmen and President Orr of the Canadian Wheelmen's Association relative to the Pacific Coast cycling difficulties, was held here to-day. Mr. Orr explained that while the C. W. A. did not desire to strain its present relations with the L.A.W., in the future the British Columbia division it could not deny the members of the Pacific Coast association from competing in British Columbia race meets. Mr. Orr also asked for the support of the L.A.W. in securing the international championship meet for Canada in 1899. After the conference Mr. Potter left for Pittsburgh, while Mr. Orr returned to Toronto.

BEARDING THE GENERAL.

A Montreal Colonel Publicly Flouts the Commander of the Canadian Forces.

The Department Must Now Intervene in the Matter—The Half-Fax Walk-Out.

OTTAWA, Nov. 22.—Col. Strath, the first acting commander of the Fifth Royal Scots of Montreal, will be brought to book for his alleged impudent refusal to General Gascoigne. The department will first ask him whether the interview reported in the newspapers is correct, and if Col. Strath admits its authenticity he will likely get his walking ticket, and the present difficulty in the battalion will be settled sooner than anticipated.

Montreal, Nov. 22.—In an interview with the Montreal Star, Col. Strath, the Fifth Royal Scots, says: "To the weakness and indecision of General Gascoigne himself is due the growth of difficulties in the regiment. He gave important trifles, instead of promptly settling them as most generals would have done when they commenced eighteen months ago, and as was recommended to be done by me, officially to headquarters at that time. He appointed a court of inquiry twelve months afterwards and this court sat for two months without discovering anything that could form the basis of a charge. Why did he allow an inquiry until he had something definite in the shape of a charge?"

"Not being able to discover anything either before the inquiry commenced or since it finished its labors, that could be the subject of a court martial in an inquiry, he has now decided to proceed with a court of inquiry. He is now in a position to say that he has done his best. How could he do more? He was coming out to a soft snuff, whereas they found they would have to work for a living. The post office department will issue a limited number of some of the Jubilee stamps to smaller offices."

IN DEFENCE OF FOOTBALL.

The President of Harvard Speaks Against the Movement for Its Suppression.

BOSTON, Nov. 22.—President Elliot of Harvard makes the following statement over his signature: "The grounds on which arguments are based for the legal prohibition of inter-collegiate football do not seem sufficient, in my mind, to justify the suppression of the game. The direct cause for the passing of a bill was the Georgia legislation, which made the playing of football a crime, simply on the ground that serious and sometimes fatal accidents are liable to occur in severely fought contests. The direct cause for the passing of a bill was the Georgia legislation, which made the playing of football a crime, simply on the ground that serious and sometimes fatal accidents are liable to occur in severely fought contests."

"But if we stop to consider other sports, we find that there are, every year, serious accidents in baseball, boxing, rowing and sailing, gymnastics and many other games. Rowing and sailing are especially pastimes, yet one reads of many drownings every year. This does not seem to lessen the interest in rowing or sailing."

"Everybody cannot play football, it is only the strong and well built men who can. Any boy who gets into the game of football is doing so with a full knowledge of the degree of success. Football is a game, a valuable exercise to those who are strong and well built. It is a game, a valuable exercise to those who are strong and well built. It is a game, a valuable exercise to those who are strong and well built."

"It might have been a breach of discipline, were it not for General Gascoigne's example, to reply in the newspaper columns, but I must not remember that I am now speaking in self-defense. In the interest of the regiment, and when no other resource is left, and if I have carried the war into Africa, I am simply following the example of the major-general himself."

A ZOLLVEREIN IMPOSSIBLE.

Because Great Britain's Colonies Cannot Adopt Free Trade.

LONDON, Nov. 22.—The Times in a special article by a well-informed writer says this morning: "The sensation created in Canada by the Toronto Globe's statement regarding Mr. Chamberlain's proposals of preferential trade with the colonies, will hardly be shared in England. The proposals are recognized as identical with the Zollverein already discussed and dismissed from the present rank of practical politics."

The writer, elaborately and at great length, quoting trade statistics in support of his contention, holds that a Zollverein is impossible because the colonies cannot adopt free trade.

MEXICAN POLICE SENTENCED.

Ten of Those Concerned in the Arroyo Murder to Suffer the Extreme Penalty.

MEXICO, Nov. 22.—The great trial of Arroyo's murderers is over, terminating this afternoon with the sentence of death pronounced on ten of the police officials and police concerned. The jury were out seven hours. The prisoners took the verdict coolly. Bellico was sentenced to eleven months imprisonment, and Queller, who bought the knives at the order of his master, the late Inspector-General Velasquez, and also Bravo, were acquitted and set free.

Bank Extension.

WINNIPEG, Nov. 22.—A report is current in banking circles that C. S. Hoar, manager of the Imperial bank here, has been asked to go to Montreal to open up a branch of the bank in that city. A cup of muddy coffee is not wholesome, neither is a bottle of muddy medicine. One way to know a reliable and skillfully prepared balm-purifier is by its freedom from sediment. NEWS OF THE CAPITAL.

Disappointed Welshmen Send Home Unfair Reports—Cigar Makers Ask Concession.

How Government Aid Has Developed P. E. Island Dairying—More Jubilee Stamps.

[From Our Own Correspondent.]

OTTAWA, Nov. 22.—The marine and fisheries department to-day decided to permit the United States fishing schooner, James and Ella, now at Halifax, to purchase stores for the homeward voyage, although the vessel is not possessed of a Canadian license. The concession, however, is not to be regarded as a precedent.

A deputation representing the Dominion Cigar Manufacturers' Association had a long interview with Messrs. Patterson and Joly this afternoon, when they urged that the customs duty be computed on the standard weight of the packages in place of the actual weight, as to make allowance for moisture. They also asked a rebate of 14 cents per pound on exported cuttings.

Commissioner Robertson has received a report of the work of the cheese factories in Prince Edward Island during this year. The total output exceeds in value \$300,000. There are 33 factories in successful operation in summer and 19 creameries in winter as a result of government assistance for a few years. Referred to in the report are the various circles that the Welsh laborers employed on the Crown's Nest Railway sent home such unfavorable reports. It is evident that the Welsh laborers were coming out to a soft snuff, whereas they found they would have to work for a living.

The post office department will issue a limited number of some of the Jubilee stamps to smaller offices.

BOILER INSPECTOR KILLED.

An Unexplained Explosion of Which the Official Fell a Victim While on Duty.

ROCHESTER, N.Y., Nov. 22.—A terrible accident occurred shortly before three o'clock to-day by which two men have lost their lives, while a number more received slight injuries. The 250 horse power boiler exploded in a one-story brick building at the corner of Jones and Centre streets, from which power is furnished to operate three big engine blocks. No cause can be assigned at present for the explosion, but an inspection of boilers was in progress when the accident occurred. R. Henry, a fireman, and Robt. Starr, the boiler inspector, were killed.

FORESTERS' PROGRESS.

REVIEWS, Nov. 17.—J. H. Falconer, D. S. O. R., and Inspector for the L.O. F., has just returned to Revelstoke from Golden, B.C., where he instituted a large court of the order, accepting 44 members and initiating them into the mysteries of Forestry. He had a great reception there, and on Monday evening, at the Kootenay house, he was presented with a beautiful complimentary address at an oyster supper given by the brethren. At Golden young Orwood, who was accidentally killed there last Friday, had his name upon the Foresters' list to become a member when the court would be instituted the following Monday. As a mark of esteem Mr. Falconer and all the incoming charter members were marched in procession from the Foresters' hall at Golden to the hospital, where his remains laid, and followed the funeral to the cemetery. Mr. Falconer went from there to Arrowhead, Sandon and Nelson.
