Greceries.

Trade during the past week has been fairly good, the general stiffening of the market having a tendency to promote sales. Payments are somewhat better than last week, but there is somewhat better than last week, but there is considerable paper maturing to-morrow which is looked upon as being shaky. Renewal notes will probably be pretty well met, and it is estimated about 60 per cent of the new paper will be retired, leaving a smaller balance to be carried over than for some few months past.

Prices are firm and in some cases higher. Sugars have advanced sharply about \$ to ic. all round. Granulated is quoted at 71c. and yellows at 6ic. There has been a very large quantity of sugar sold during the past week. the advance being daily expected. Even at the advance the market is not being pushed.

Coffees are about ic. stronger here, although reported as somewhat easier abroath. Sellers are holding at 21 to 22c. Tens are quiet and easy, with sellers pushing sales vigoronsly expecting a decline. Japuns are steady and held at old prices, as also are greens, but blacks and Congous are being sold at cut prices. Spices are easy and dull. Canned goods unchanged, excepting puss and commenced that jobbers who sold largely corn, peas and tomatees, early in the season, at a very slight advance on cost, expecting a marked decline, are now experiencing considerable difficulty in replacing stocks.

In shelf hardware there is no change in prices to note.

Metals are generally active and with the exception of copper, prices are ruling strong. Canada plates are held firmly at \$2.75 in view of an expected advance. Tin plates are strong. I. C. charcoal quoted at \$4.35 to \$6, according to brand, with cokes at \$4 to \$4.10, and \$1 advance for crosses. Galvanized iron is steady and unchanged. Ingot tin is fairly firm, the foreign finct untions not being sufficiently great to affect local prices. L. and F. is quoted at 23 to 25c for ingots and 25c to 28c for bars, with half-and-half, solder at 18 to General iron and steel markets are in a healthy and vigorous condition. Travelers orders are coming in freely.

Montreal reports say that the volume of business transacted in Quebec during the past week has been very satisfactory and this coming from the headquarters of the largest interests in Canada can only be regarded as an indication of prosperity in the boot and shoe line. Local reports also favor the idea that business has increased. Payments are pretty fairly kept up. Thivelers orders are about as usual, some lines having had a good run. There is more confidence apparent in the trade than has been exhibited of late, and although wholesalers are still cautious in extending credit large orders are being booked.

Bry Goods.

During the past week trade has been quite active and brisk but not rushing. Local houses report brisk sales and pretty steady outside trade. Payments are about as usual, there being no marked impression. Fine sateens, French dress goods, trimmings of all kinds, including ribbons, etc., and parasois are in good demand and attracting most attention.

Prices of goods are very firm with an upward tendency. The established advance of from 10 to 15 per cont. on French dress goods and Irish linens will doubtless be held throughout the season.

The volume of business for the past week ha

The volume of business for the past week has been fully up to expectations, and it is now stated that the total March business was, not, withstanding the numerous complaints, quite up to that of the same month last year.

Prices have had a tendency to decline except for prime No. 1 sole leather, of which there is a scarcity. Common the last have been in fairly good sunnly but exof which there is a scarcity. Common grades have been in fairly good supply, but export shipments have cleared away a good deal of the surplus stock. We quote:—Spanish sole No. 1, 25 to 27c per 1b; do No. 2, 22 to 23e; do No. 3, 20 to 29c; Canadian calf, 50 to 75c; French calf, \$1.10 to \$1.30; splits, 20 to 36c; buff; it to 16c; oak soles (cut), \$4.50 to \$7.50; other prices unchauged. Live Stock.

The cattle market has been devoid of interest during the past week, owing to the quietness of business. The advance reported last week has been well maintained, and the surplus stock here is taken for Montreal. The average ptice raid is 3 to 3 to, with 3 to revery choice. Shaen paid is 31c, with 32c for very choice. Sheep and yearling lambs have been in good supply at easy prices—\$4.75 to \$7 per head.

Fish.

Trade is very quiet with prices tending downward. Sea herring are dull and lower. Smelts find no sale. Ciscoes are active at \$3 to Smelts find no sale. Ciscoes are active at \$3 to \$3.50 per 100. Owing to mild weather, frozen rish have not been handled to any extent, and altogether there seems to have been an entire absence of anything that would tend to stimulate trade. Quotations are: Haddock, 4 to 5c per lb.; steak cod, 6 to 7c.; market cod, 44 to 5c; whitefish, 5 to 6c; sea herring per 100. 60 to 7cc; oysters per gallon, \$1.10 to \$1.50; flounders per lb., 6c; smelts, 6 to 8c.

Dried Fruits and Nuts. Trade in these articles has been quiet and prices are entirely unchanged. There is more domand for currants and rasins. Nuts are demand for currants and rasins. Nuts are about the same, except wainuts, which are re-ported as being in somewhat better demand. kleme figs are brisk and are quoted at 13c. to 15c, per 1b.

Coal, Wood and Lumber.

During the past week business in coal and wood has been slack, and it is expected will continue so until the next season's trade begins.

In the lumber trade, things are looking up.
Buyers are in Canada from the States and have
placed some good orders. With the spring
building trade, there is an increased demand,
and prices are firm. Before the opening of the
saw mills, it is expected there will be a temporary advance.

Hops.—Dull and mactive. There seems to be no business doing except in very occasional cars to outside brewers, local consumers claiming to have already a full stock.

Seeds.—Timothy is dull at \$1.75 to \$1.95 for jobbing lots. Red clover and alsike are also easier, the latter being especially slow at \$4.50 to \$8. o \$8. Honey.—Steady but in poor demand. Liquid and granulated quoted at 12 to 15c, with secand granulated quoted at 12 to loc, with section at 20 to 25c.

Tobacco.—Market unchanged for raw material. Trade is reported as gretty good in job bors'lines, and there is no change to note in
