Dr. Lemon: Dear Sir, -I have much plea sure in giving my testimony in the case of Elizabeth Hacker, formerly a patient in Toronto General Hospital for ten (10) months, and discharged from that institution a hopoless cripple. She came to the Haven in a very weak condition, where she was confined to her room and bed for nearly three (3) months.

When in the Hospital Elizabeth saw two young girls who were visitors, and had been grently benefited under your treatment, and while with us she expressed a wish to consuit you.

It was deemed advisable that she should do to, and she was sent in charge of a reliable person to your office, and after a second treatment she returned to the "Haven" without her crutches—cured and overwhelmed with joy-gunning up two (2) flights of stairs to tell me the good news. That was a day of grent gladment she returned to the "Haven" without her crutches—cured and overwhelmed with joyrunning up two (2) flights of stairs to tell me the good news. That was a day of great gladness, for she was regarded as a cripple for life. Elizabeth was appointed to wait at the door and in consequence had much going up and down, and suffered no inconvenience. This case is well known to many in Toronto. Personally, I feel grateful for your kind and gratuitous treatment of the poor girl, and thankful to God for the gift of healing He has given you.

I may also mention another case which has come under my notice, that of a young woman suffering from epilepsy, who has been much in the Home, and for years considered incurable. A few weeks since she came to see me and told me she was cured by Professor Lemon, and had not any symptoms of a fit since March last. In my public capacity I have met several who have gladly teatified to your magnetic power.

I regret that my health will not admit of my retic power.

I regret that my health will not admit of my trending the meeting of the committee trending the meeting of the committee Phursday, but you are at liberty to make what see you wish of this letter.
