Drummond & Brown received the following to-day over their private wire from Lamontagne, Clarke & Co., New York: Stock market opened feverish and about !4 per cent. lower than last night's closing for all active specialties on selling by London. U. P. St. P. and Atchison declined to ½ per cent., traders having scattered orders to buy and sell here balancing list. Trading professional, bond market showing no signs of life, and gold going out seems to keep market depressed. L. & N. also declared on London's selling. Of industrial stocks sugar was most prominent, advancing under heavy buying by traders. We still believe the market a purchase on declines and sale on railies for sometime, crop prospects and gold being principal topics discussed here. east, Toronto.

R. Cochran received the following to-day over his private wire from Henry Allen & Co. of New York: The ticker has stood still nearly all day. In sugar trust there was some vestige of activity, and the declaration of a four percent semi-annual dividend upon the common stock lifting the quotation on a spurt to 90, but it did not stay there. Something like inside manipulation knocked it down to 88. In the railway stock market there was practically nothing doing, and all the conspicuous stocks were weak. There is renewed talk of the dissolution of pools in St. Paul, Rock Island and Louisville & Nashville. More gold has been engaged, and though it has been loudly announced that exchange rates are against further exports the exports goright along. The call money market is easy, but time money is hard to get. An apprehension of a severe squeeze this summer is to be found in every conservative bank circle. The bankers are not talking dolefully, but actions speak louder than words. There is still no indication of any public interest in the market. Commission brokerage offices are all empty.
