Mexican Capital is Rejoiced

The Signing of Peace Brings Gratification to the Business Men of the Republic.

Mexico, May 22—The signing of a peace agreement by the Mexican government and the rebel peace commissioners at Juarez was received in the Mexican capital today with a remarkable absence of demonstration. The feeling here was that while peace had been generally accepted as a fact ever since President Diaz fixed the date of his retirement, the dilatory proceedings of the last few days were a cause of apprehension lest the peace program receive a setback and consequently to the general public the signing of the agreement last night came as a surprise. Business men at the capital showed relief at the conclusion of the negotiations, while they see a long term of business depression.

It is rumored that President Diaz will present his resignation to the cabinet today, but it is generally believed that the date of his retirement will be May 24th.

No effort is made now to disguise the fact that President Diaz will leave the country at an early date. It is expected that he will spend several months visiting Europe and it is reported that a passage has already been arranged for him on one of the boats of the French steamship line.

MINARD'S LINIMENT CO., Ltd.

Yarmouth, N. S.
Gentlemen,—In January last, Francis Leclaire, one of the men employed by me, working in the lumber woods had a tree fall on him, crushing him fearfully. He was, when found, placed on a sled and taken home, where grave fears were entertained for his recovery, his hip being badly bruised and his body turned black from his ribs to his feet. We used MINARD'S LINIMENT on him, and he was cured. He is now able to work. We used three bottles and it was completely cured and able to return to his work.

FLY CATECHISM.

It is not easy to keep delicacy in a discussion of the fly. The health authorities who attack it do not waste much time in effort to do so. The nature and habits of the pest make it next to impossible to say what it is and does without the use of plain English. The authorities are giving the people a catechism. The following is taken from a "Fly Catechism" distributed to the children in North Carolina schools:
"Where is the fly born? In filth.
"Where does the fly live? In filth.
"Where does he go? In to the kitchen and ironing room. He walks on to the bread, fruit and vegetables; he wipes his feet on the butter and bathes in the buttermilk.
"Does the fly visit the patient sick with consumption, typhoid fever and cholera infantum? He does, and may call on you next.
"What diseases does the fly carry? He carries typhoid fever, tuberculosis and summer complaint. How? On his wings and hairy feet. What is his correct name? Typhoid fly.
"Where is the fly written for children, but the adult mind need not be offended by its simplicity.

WOMAN'S FAMOUS DISCOVERY.

Madame Curie, the famous chemist, and widow of M. Curie, with whom she was the joint discoverer of radium, has, in collaboration with M. Debierne, just succeeded in obtaining pure radium. What is commonly called radium has never before been isolated. Madame Curie and M. Debierne obtained the radium by electrolyzing common radium and amalgam, which was then transferred to an iron disk placed in a quartz tube in which a vacuum had been created. The distillation was then made in an atmosphere of hydrogen, which had been purified by a special treatment, as ordinary hydrogen affects the metal. At about seven hundred degrees the distillation was finished, no mercury remained, and instead the discoverers found a layer of brilliant white metal, adheres fast to iron, scorches paper, decomposes water, and changes its character very rapidly when exposed to the air. Madame Curie hastened to place the speck of radium thus obtained in a glass vacuum tube, safe from the influence of the atmosphere. The report of the discovery was presented to the Academy of Sciences.

THE MODEL.

"I'd gladly lend you ten dollars, Jones," said Marrowby, "but really I'm busted. We've just moved out into the country and I've had to buy a machine."
"Really? Runabout or touring car?" asked Jones.
"Neither," said Marrowby. "Mowing."

MR. WILLIAM JENNINGS BRYAN COMMENDS THE CANADIAN GOVERNMENT ANNUITIES SCHEME.

The earnest tribute paid to the Canadian Government Annuities system by Mr. William Jennings Bryan during his address to the citizens of Galt on Friday last should do much to determine the question for those who have not yet taken advantage of the system, the opinion coming, as it does, from one who has made the social problem a life study. He is reported to have said: "I have been trying for years to figure out a similar scheme for the benefit of the citizens of the United States, and I cannot understand why every civilized country does not follow the lead of Canada and encourage the people to put something by for the day when they will be too old to work. This is true co-operative Government," he added. While other countries have established pension schemes, which are but extensions of Poor Law Relief, the result of which is to pauperize, and not to stimulate thrift, the Canadian Government has, by its Annuities Act, inaugurated a scheme whereby thrift is promoted, and the people are provided with facilities which will enable them to help themselves, and at the same time preserve their self-respect and dignity.

Launch First Naval Airship

Great Britain Has New Craft at Anchor.

Barrow-in-Furness, England, May 22—Great Britain's first naval airship, the construction of which has been surrounded by much secrecy, was successfully launched here today, and is now anchored behind a wind shield erected at the harbor. It is christened the Mayfly.

The airship which is five hundred and two feet in length is of the rigid type, with a blunt nose tapering to a pointed stern. A feature of the construction is the provision for two separate gondolas for the engines.

The airship is specially designed for naval purposes and can be moored on the water.

The watertight covering of the upper half of the dirigible which is forty-eight feet in diameter consists of silk treated with a special waterproof design over which illuminium dust has been sprinkled. The lower part of the bag is of yellow silk, treated with the same waterproofing material, but without the illuminium. The frame work contains eighteen gas bags, filled with hydrogen.

Miss Lucy M. Montgomery, authoress of "Anne of Green Gables," and formerly of the Echo staff, was visiting recently in Boston, and the Boston Herald man quizzed her as to whether she would like to live in the baked beans belt. Here is Miss Montgomery's answer, which has a flavor very grateful at the present time: "I must answer 'No.' I have enjoyed my sojourn among you most heartily, but noble as your land is, it is not my land; friendly and delightful as your people are, they are not 'mine own people'; beautiful as your starry banner is, it is not my old flag that has 'braved a thousand years the battle and the breeze.' Only in the shadow of that old flag could I wish to make my home."

CURED BY A NATURAL HEALER

For near two years Mrs. Schofield, of Karolale, N.S., had been taking treatment from a regular M. D. for a leg ulcer. It steadily grew worse. I mailed her \$2.00 worth of EARTH INE. After a few weeks she wrote me she was cured, and is very thankful for what I did for her with so little cost.

Some of my customers are not willing to allow that a Quack Doctor cured them. However, some of the best natural healers we know of have no license, they are called Quacks and must not charge for their service. Is it best to starve out all natural healers and have all drug doctors?

A PROPHECY.

(Victor Hugo in 1849.)

A day will come when a cannon ball will be exhibited in public museums, just as an instrument of torture is now, and people will be amazed that such a thing could ever have been. A day will come when these two immense groups, the United States of America and the United States of Europe, will be extending the hand of fellowship across the ocean, exchanging their produce, their industries, their arts, their genius, clearing the earth, peopling the desert, improving creation under the eye of the Creator, and uniting, for the good of all, these two irritable and infinite powers, the fraternity of men and the power of God.

RAGING HEADACHE STOPPED AT ONCE

When He Took "Fruit-a-tives"

SHANLY, ONT., Sept. 23rd, 1910.
"You certainly have the greatest discovered Headache Cure in the world. Before 'Fruit-a-tives' came before the public, I suffered tortures from Headaches caused by Stomach Disorders.

"One of your travellers called on me when I had one of my raging headaches and had my head almost raw from external applications.

"I hated to see any person coming into the store (much less a commercial traveller) and I told him very curtly that I had a headache but he insisted on my trying 'Fruit-a-tives'.

"I did so, with what I would call amazing results. They completely cured me and since then (nearly six years ago) it is only necessary for me to take one occasionally to preserve me in my present good health. I was 55 years old yesterday and have been a general store keeper at the above address for twenty-five years."
WM. PITT

As Mr. Pitt says "Fruit-a-tives" is the greatest headache cure in the world. Dealers everywhere have "Fruit-a-tives" at 50c. a box, 6 for \$2.50 or trial size, 25c. or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

CONFERENCE IS INAUGURATED

King and Queen Receive Imperial Congress Delegates.

London, May 22—The imperial conference was formally inaugurated by a luncheon at Buckingham palace this afternoon at which King George and Queen Mary entertained the visiting colonial premiers and their wives and daughters. Most of the members of royalty who are now in London, were present at the luncheon as were Premier Asquith and Mrs. Asquith, and the officials of the colonial office.

King George, who is intensely interested in colonial affairs, and who is personally intimate with them through his visits to the colonies, was markedly attentive to the visiting statesmen.

The conference will open tomorrow at the foreign office, when Premier Asquith will outline in his address the government's program.

PROVE PSYCHINE

(PRONOUNCED SI-KEEN)

With a 50c. bottle free from your Druggist

It's not so long ago that the doctors bled a man to make him strong.

"Stuff a bold and starve a fever" is miles behind our to-day's knowledge of curative science, yet our fathers had it preached to them time and again.

You may not know it, but to-day there are just as ineffective methods of cure being preached and practised.

All because most people do not know the real cause of disease.

There are two kinds of corpuscles in the blood—red and white.

The red corpuscles contain nutrition, the white destroy disease germs.

If for any cause the white corpuscles become depleted and are not sufficiently strong to destroy the germs of disease, then disease controls the body.

That's the cause of disease.

Years ago certain herbs were found to cure disease.

These herbs are contained in Psychine—they're responsible for the great results obtained from Psychine a third of a century ago.

They're responsible for the hundreds of thousands that Psychine has cured since that time.

It's because of these herbs that we have received hundreds of thousands of testimonials attesting to wonderful cures that Psychine has made.

And it's because of these very same herbs that we will buy within the next twelve months hundreds of thousands of 50-cent bottles of Psychine and give them away free to whomsoever sends us the coupon in this announcement.

Now if you wish to relieve or prevent any of the disorders in this list send in that coupon:

- La Grippe
- Bronchitis
- Hemorrhages
- Sore Throat
- Anemia
- Female Weakness
- Indigestion
- Poor Appetite
- Chills and Fevers
- Sleeplessness and Nervous Troubles
- After-effects of Pleurisy, Pneumonia and La-Grippe
- Bronchial Coughs
- Weak Lungs
- Weak Voice
- Spring Weakness
- Early Decline
- Catastrophic Affections
- Catastrophic of Stomach
- Night Sweats
- Obstinate Coughs
- Laryngitis and Dyspepsia

Now, we don't ask you to take our word for the tremendously beneficial effect of Psychine. Fill out the coupon below, mail it to us and we'll give your druggist an order (for which we pay him the regular retail price) for a 50-cent bottle of Psychine to be given you free of cost.

We will undoubtedly buy and distribute in this manner, hundreds of thousands of these 50-cent bottles of Psychine.

And we do that to show our entire confidence in this wonderful preparation.

A confidence that has been based on our 30 years' experience with this splendid preparation, with a full knowledge of the hundreds of thousands of cures it has made.
