CANADIAN BREEDER

AGRICULTURAL REVIEW. AND

PROSPECTUS.

In presenting to the stock-breeders and farmers of Canuda THE CANADIAN BREEDER AND AGRICULTURAL REVIEW. we come beforethem strong in the belief that we can render them material service by advancing those interests upon the progress of which their own prosperity largely; depends. Whatever Ontario and Quebec may have been possess, if they would not be surpassed in the race for will, aim at being a family-fireside and household-story the benefits thus arising are not to be obtained by those in the condition of things. The day is not far distant when the settlers upon the vast prairies of the North-west will be able to offer to the world beef and bread at much lower rates than those which could be quoted in the older provinces of the Dominion; when that time comes, the day will have arrived for Ontario and Quebec to hold their rightful positions as stock-raising provinces. For a long time, perhaps for all time, labor will be much cheaper here than in the North-west; timber for barns and stables will always be more plentiful, and the facilities for carefully wintering costly and valuable stock will always be all that could be desired. It follows, then, that it will become the business of the older provinces to furnish the finely bred animals that shall be utilized in refining and improving the qualities of the vast herds of horses and cattle that must soon take the place of the banished buffalo on the broad fertile plains of the North-west.

If a breeder of horses or cattle would keep up with his class, he must not be content to pursue the methods of his forefathers in all things. The improvement of live stock is a science in which rapid progress has been, and is now being, made. He who would succeed at it must keep quite abreast of the times in his methods, as well as in his importations. He must know the results of the latest successful them. The journal is issued under the management of Mr. experiments in the breeding and feeding of stock if he would successfully compete with others in the same trade. As already pointed out, the older provinces must, in the future, depend largely on the production of choice animals for breeding purposes, and in the establishment of valuable and fashionable families or strains of stock, while the cheaper products of the North-west will, to a great extent, take the place of theirs in the ordinary beef and horse markets.

One of the great aims of THE CANADIAN BREEDER AND AGRICULTURAL REVIEW will be to promote the breeding of valuable live stock in Canada. It is intended to circulate largely in Great Britain and the United States, thus furnishing at all times a ready means of communication between producers and buyers of first-class live stock. It will be the aim of this journal to keep its readers thoroughly posted as to what is going on among stock breeders and agriculturists, whenever any intelligent advancement has been made in breeding and agriculture. Through this journal, the breeder will have a means of communicating will be able to learn just where they can obtain whatever affairs will be said to learn just where they can obtain whatever affairs will be said to learn just where they can obtain whatever affairs will be said to learn just where they can obtain whatever affairs will be said to learn just where they can obtain whatever affairs will be said to learn just where they can obtain whatever affairs will be said to learn just where they can obtain whatever affairs will be said to learn just where they can obtain whatever affairs will be said to learn just where they can obtain whatever affairs will be said to learn just where they can obtain whatever affairs will be said to learn just where they can obtain whatever affairs will be said to learn just where they can obtain whatever affairs will be said to learn just where they can obtain whatever affairs will be said to learn just where they can obtain whatever affairs will be said to learn just where they can obtain whatever affairs will be said to learn just where they can obtain whatever affairs will be said to learn just where they can obtain whatever affairs will be said to learn just where they can obtain whatever affairs will be said to learn just where they can obtain whatever affairs will be said to learn just where they can obtain whatever affairs will be said to learn just where they can obtain the said to learn the said th they happen to be in search of. OPINIONS OF THE PRESS.

Bobcaygoon Independent, Sept. 25, 1894

THE CANADIAN BREEDER AND AGRICULTURAL REVIEW is a new journal published in Toronto. The destiny of Ontario is to become a stock-yard for England, and a journal in the special interest of stock brewlers must be of great use.

Law and Order Advocate, Belleville, Sept., 1881.

THE CANADIAN BREEDER is the title of a new journal published in Toronto. S. Beatty is the manager of this paper, and it makes its visits weekly for the small sum of \$2 a year. We like it well, and send our kind regards to its worthy manager. May it live long to help on the stock and farming interests of Canada.

Toronto Telegram, Sept. 24, 1884.

Farmers and breeders throughout the country will find in the new publication called THE CANADIAN BREEDER AND AGRICULTURAL REVIEW information especially designed for Samuel Beatty. It has been most favorably noticed by the press, and has met with general acceptance at the hands of the agricultural community.

Farmer and Dairyman, Syracuso, N.Y., Sept. 19, 1884.

THE CANADIAN BREEDER AND AGRICULTURAL REVIEW is a new applicant for favor among farmers and breeders of all kinds of stock. The initial number, which has reached our table, is a bright, 16-page weekly, full of live matter pertaining to stock. The journal is published at Toronto, and if future numbers fulfil the energetic promise of the tirst, it should meet with success.

New LIVE STOCK JOURNAL -A more attractive and and paper are first-class, and the various articles it contains are written in pure Anglo-Saxon, at once vigorous and scholarly, and are a credit to journalism. That its affairs generally will be administered with tact and ability is assured from the fact that our well-known citizen, Mr Samuel Beatty, is manager. This new enterprise will, no doubt, meet with great success, and it well deserves to do

Toronto News, 9th Sopt., 1884.

NEW LIVE STOCK JOURNAL .- We have received a copy of THE CANADIAN BREEDER AND AGRICULTURAL REVIEW, & journal for the horse and cattle breeder and the agriculturist. The title page bears a fine woodcut of the Hereford bull Sir Charles, which stockmen will view with pleasure. The editorials, which are evidently the work of men who are thoroughly versed in the subjects upon which they write, are interesting, not only to stock-raisers and farmers, but to the general reader. It is a sixteen page quarto, and is filled with interesting selections and communications. It is printed in Toronto. S. Beatty, manager.

Monetary Times, 13th Sept., 1884.

We have seen the first and second numbers of THE CANADIAN BREEDER AND AGRICULTURAL REVIEW, & weekly journal, published in Toronto, and devoted to the interests of the general farmer, the stock-breeder, the dairyman, and all who are interested in farm products. Much information of a practical kind is given in the twelve roomy quarto pages of each issue, and the subjects editorially treated show that intelligent knowledge has been brought to bear. A journal of the kind, kept up to the standard of its initial number, can hardly fail to find numerous patrons, and to do great good. The typographical appearance of THE BREEDER is admirable; distinct new type and toned paper render it a pleasure to peruse its pages.

A New Weekly .- The latest addition to periodical literature is a new weekly named THE CANADIAN BREEDER AND AGRICULTURAL REVIEW. As the title imports, THE BREEDER will devote its best energies to the promotion of all interests whereby the stock-man and the farmer may be benefitted. Improvement in the grade of horses and cattle, and still greater development in the scientific processes under which tilled land is now being so profitably worked, will claim a large share of its attention; and it will, from time to time, suggest such methods as to stock and farm as will materially aid those desirous of arriving as nearly as possible at perfection in both. THE BREEDER is handsomely illustrated, and printed in nest and convenient form for binding. The annual subscription is two dollars, and it can be procured by addressing the manager, Mr. S. Beatty, corper of
