

OUR PATENT BLOWER ATTACHMENT as a Silo filler is all right. It has been thoroughly tested at 20, 25 and 30 feet, and will elevate green corn 40 feet if necessary. We are so satisfied that our Blower Elevator is the coming machine that we offer to forfeit the machine if we fail to elevate the desired height. In the language of one customer "the Blower has come to stay."

WARNING! One of the best evidences of the value of this invention is the attempts at imitation that are being made. We warn everyone against purchasing, selling or using Blower attachments that infringe on our patents.

The advantages of this machine over chain and slat carriers are too apparent to require any explanation.

We manufacture a full line of Cutting Boxes with all the latest improvements—concave or convex knives; also the "Ripper" Feed Cutter, the stock-feeders' favorite machine, and the latest improved Tread Powers for two or three horses.
