

BENGOUGH BROTHERS' Shorthand Employment Bureau

30 Adelaide Street East, TORONTO, ONT.
Next door to the Post Office.

FOR several years we have been identified with shorthand writers of all schools, in the way of supplying phonographic literature, conducting manuscript phonographic magazines, and—by virtue of the official position of one of the members of the firm—in conducting negotiations between phonographers on the one hand, and Insurance Companies, Newspaper Publishers, Lawyers, and the Professions, on the other, with the object of furnishing the former with employment and the latter with assistants. Our relations with the fraternity in all these branches have been most pleasant, and we have been enabled to secure permanent and lucrative positions for phonographers who, without the assistance proffered them, might to-day have been plodding on in small towns at poor salaries.

The extending of a helping hand to Phonographers striving for positions in which they might both utilize and increase their knowledge of the "beautiful art," has been in the past a labor of love—no attempt being made at a system of registration, and the endeavor to meet the wishes of employers and employees has, therefore, been made under many disadvantages, which have now been removed by complete organization.

PLAN.—We will keep a register of names of all applicants for employment, each one furnishing us with full particulars as to speed, education, salary required, etc., upon a blank form prepared for the purpose. A nominal charge of \$1 will be made for registration. This fee will include all expenses—correspondence, advertising, etc., until the applicant is settled in his situation, when a nominal commission on the annual salary secured will be received—payable on receipt of the first month's salary.

PARAGRAPHS.—The field for the employment of Shorthand Writers who can bring to their work a thorough knowledge of the art, a clear head, energy, and will to work, is unlimited, and we have unsurpassed facilities for finding out vacancies and learning just what kind of men are wanted.

Shorthand Writers who are out of employment, or desire to improve their positions, will be furnished with a blank form for registration on receipt of a 25¢ stamp. All correspondence confidential.

Address
BENGOUGH BROTHERS,

Shorthand Employment Bureau,

30 Adelaide Street East, Toronto, Canada.

ONE of the Best and Cheapest English Shorthand Magazines is
