

# Clean Fields Mean Increased Crops

By all means do everything possible to make and keep the soil productive—but *weeds flourish in a rich soil as well as the crops*, so it is important to keep your fields free from weeds.

CULTIVATE EARLY AND OFTEN WITH A

## **Massey - Harris CULTIVATOR**

And you will get rid of the most obstinate weed pests. Thorough cultivation at any desired depth, and the depth remains uniform regardless of dead furrows, ridges, etc.
