Rev. Robert Brown, of Markinch, has resigned his charge, owing to old age. His farewell sermon was preached on Sabbath week.

The Rev. G. D. Baker, D.D., of Philadelphia, declines the appointment recently tendered him as secretary of the Board of Foreign Missions.

The address of sympathy presented to the Irish Assembly was signed by nearly eighty ministers and a large number of elders and managers.

Notice has been given in Glasgow Presbytery by Mr. Henderson, elder, of an overture to the Synod for union with the Free Church in foreign mission work.

Rev. Dr. Walter C. Smith, Moderator of Assembly, presented the prizes to the successful Aberdeen competitors under the Welfare of Youth scheme, at a large meeting in that city, last week.

A beautiful mural memorial of white marble is being erected to the late Principal Cairns, in the vestibule of Wallace Green church, Berwick, of which he was minister for thirty-one years. In the centre is a head of the deceased, finely sculptured by Mr. D. W. Stevenson, R.S.A.

Principal Hutton says that to bolster up the Church of Scotland when disestablished will in no wise conduce to its best interests, or to union about which political men were wonderfully anxious, but which was none of their business. Sir Charles Cameron's bill wrote religious equality on its front but privilege in its heart.

Rev. Dr. John MacLeod wants an inquiry by Glasgow Presbytery into the religious instruction in board and secondary schools. He fears that the children of the middle classes are dependent for their religious knowledge on the services of the Church, which he thinks are not always calculated to train the understanding in the vital principles of the Christian faith.

Saved Her Life.

Mrs. C. J. WOOLDRIDGE, of Wortham, Texas, saved the life of her child by the use of Ayer's Cherry Pectoral.

"One of my children had Croup. The case was attended by our physician, and was supposed to be well under control. One night I was startled by the child's hard breathing, and on going to it found it strangling. It had nearly ceased to breathe. Realizing that the child's alarming condition had become possible in spite of the medicines given, I reasoned that such remedies would be of no avail. Having part of a bottle of Ayer's Cherry Pectoral in the house, I gave the child three doses, at short intervals, and anxiously waited results. From the moment the Pectoral was given, the child's breathing grew easier, and, in a short time, she was sleeping quietly and breathing naturally. The child is alive and well to-day, and I do not hesitate to say that Ayer's Cherry Pectoral saved her life."
