

**"The Yellow Fellow"**  
 Is the title bestowed on the Stearns by the admirers of its orange rims. In constructing the '96 Stearns we have striven to make the best bicycle producible, and if best materials, superior workmanship, unsurpassed facilities and honest effort count for anything, we have surely succeeded.

Our handsome new catalogue, which we will mail on request, is not more artistic than the wheel itself.

**Something New in Bicycles**

is being brought out almost every day but for Bicycle Clothing the popular and "up-to-date" article is

**Rigby Cloth**

What we mean by "Rigby Cloth" is any cloth made waterproof by the Rigby Process.

**Rigby Rainproof Bicycle Suits**

You can get it in an endless variety of tweeds and in Ladies' Dress Goods already Rigby proofed, or your tailor will take any piece you may select and get it proofed for you. Thousands of Rigby Bicycle Suits are being worn now, but the only way you can tell they are Rigby proofed is that they don't get wet; yet the cloth admits the air as freely as before. Rigby simply makes the material's repellent to water. All up-to-date Tailors and Ladies' Dress Goods Houses keep it.
