J. J. Moat.	G. C. Moring.	A. S. Wright.
W. Gell.	F. Burrows.	

Chairman,—

"Reports of standing committee." Nil.

"Unfinished Business." Nil.

"New Business." I expect we will take the same procedure as has been in the past in regard to the appointment of a new member for the Executive, the Executive nominating a member for the vacancy.

"Reports of Special Committee." Nil.

"Unfinished discussions of papers read at previous meetings."

Would be pleased to know if any member present has anything to say in regards to the paper given at the last meeting by Mr. Patterson. Nil.

"Reading of papers and reports and discussions thereof."

As said before, we have with us to-night Mr. J. R. Armer, Mechanical Draughtsman of the Grand Trunk Railway, Toronto, who has prepared a paper on "Producer Gas." I have now much pleasure in introducing Mr. Armer.

PRODUCER GAS—ITS MANUFACTURE AND USE.

BY MR. J. R. ARMER, MECHANICAL DRAUGHTSMAN, GRAND
TRUNK RAILWAY, TORONTO.

There is not time to go into any detail on any of these points. In taking up the subject generally we have not time in one evening, but perhaps at a later meeting, if it is of sufficient interest to the members, it might be gone over more in detail.
