PAN-AMERICAN CONGRESS BULLETIN.

SECTION ON MEDICAL PEDAGOGICS.

The Pedagogic Section will devote its attention especially to the History of the Development of Medical Education in America.

In the papers presented by leading teachers recent advances in methods of instruction will be considered.

The *art of teaching*, which is regarded as a study of great interest in other branches of learning, has received hitherto but little attention from the medical profession.

The Section in Medical Pedagogics will therefore be made a prominent feature of the Congress, and it is hoped that those interested in medical education will co-operate in the work of this section, by being present and by actively engaging in the discussion of subjects presented.

Any inquiries or communications may be made through the Secretaries undersigned.
