

FREDERICK STEARNS & CO.'S PREPARATIONS OF KOLA.

Preparations of the Fresh (Undried) Nut.

KOLAVIN A delicious wine, each tablespoonful representing 30 grains of the fresh (undried) Kola nuts. In full pints.

KOLABON Elegant Confections or bonbons, each representing 10 grains of fresh (undried) Kola.

FLUID KOLA A concentrated liquid extract, each minim representing one grain of fresh (undried) Kola.

Preparations of the Dried Nut.

STEARNS' KOLA CORDIAL (The Original.)

A delicious cordial, each teaspoonful representing 15 grains of dried Kola. In 12 oz. bottles.

Our Claims on Kola.

1. We introduced Kola commercially in America in 1881 (see New Idea, March, 1881.)
 2. We introduced the first palatable preparation of Kola in the form of Stearns' Kola Cordial in 1893.
 3. We originated the first and only preparation of fresh (undried) Kola in 1894, when Kolavin was introduced.
 4. We to-day are the only importers of fresh (undried) Kola from Africa.
 5. We have done more scientific work on Kola than any other American house. (See our 80 page monograph issued last year, 1894.)
 6. We have done more by liberal advertising in the pharmaceutical and medical press to call Kola to the attention of these professions than all other houses combined.
- THEREFORE we consider ourselves headquarters for Kola and its preparations, and believe the profession will endorse our positions.

FREDERICK STEARNS & CO.,

The introducers of Kola to commerce in America.

The Physician of To-Day

has escaped a great many popular prejudices—his preceptors had to fight them.

Cod Liver Oil was one of them—but there was some reason back of that prejudice. Plain cod liver oil could never have become popular—patients requiring it could not, on account of its taste and indigestibility, take it in this plain form.

The modern idea of it—SCOTT'S EMULSION—together with the intelligent, experimental tests of progressive physicians, have resulted in vastly multiplying the uses of cod liver oil.

SCOTT'S EMULSION of Cod Liver Oil with Hypophosphites is employed with success where plain oil is out of the question.

Prepared by **SCOTT & BOWNE, Chemists,**
Scott & Bowne Building, New York.

—SAMPLE of Scott's Emulsion delivered free to the address of any physician in regular practice.

FORMULA: 50% of finest Norwegian Cod Liver Oil; 6 grs. Hypophosphite of Lime; 3 grs. Hypophosphite of Soda to the fluid oz.
