VICE CHANCELLORSHIP OF OXFORD.—The Rev. Dr. Symons was elected to this office on the 8th of last month, by a majority of 882 to 183.

GENERAL CONVENTION OF THE PROT. EP. CHURCH IN THE U. S.—In addition to the information already given to our readers, of the interesting proceedings of this body, we have to record the painful fact that the late Bishop of Pennsylvania having acknowledged himself the cause of reproach and injury to the Church...

On the 22nd of October, the Convention established four stations for the jurisdiction of missionary Bishops, namely "Cape Palmas and parts adjacent on the Western Coast of Africa" (the Rev. Alexander Glennie to be the Bishop)...

A Pastoral Letter from the Bishops to the members of the Church was, according to usage, read, and 2000 copies of it were ordered to be printed.

PAYMENT RECEIVED.—From Mr. Henning, 6 months.

TO CORRESPONDENTS: Received Sigma—Orthodox;—F. H. A.;—Little Jim says that he reads all the pretty stories in Youth's Corner, and none ever pleased him so much as "Careful Susan"; he would be glad to know her: a piece of poetry he sends, but there is no room, and there is nothing about the Bible and the Lord Jesus in it, so it would not do for the Bazaar.—Poetry must wait, wait, wait: there is so much on hand, and we can spare so little room for it, that the Unknown begins to grumble.—P. S. One more communication, as encouraging as it is unexpected.

ENGLISH MAIL.—To be closed on Monday, 11th Nov.: Paid letters till 7 P. M. Unpaid till 9 P. M.

Political and Local Intelligence.

LATER NEWS FROM ENGLAND.—The Steamer Great Western, which arrived at New York on the 26th ult. brought Liverpool dates of the 12th October, being about a week later than our previous accounts. Nothing of any importance had occurred in the interval. The principal topic of interest in England was the visit of His Majesty Louis Philippe to our gracious Queen. His Majesty, accompanied by his young son the Duc de Montpensier and M. Guizot, landed at Portsmouth, and almost immediately proceeded to Windsor Castle, where preparations had been made to receive him in a becoming manner.

PARLIAMENT is further prorogued to the 12th December.

REVENUE.—The Statement for the quarter ending the 10th Oct. is very satisfactory, showing an increase for the year of £1,395,349 and for the quarter of £520,944. In the Customs the increase for the quarter is £473,347. In the Post-Office do. do. £40,000. There is a trifling decrease in the Excise for the quarter which it is supposed, and we hope truly, arises rather from growing habits of temperance among the lower classes than from a diminution of means, since activity prevails in all the manufacturing districts, and wages are much higher than last year.

IRELAND continued perfectly tranquil.—Lady Heytesbury, the Lady of the Lord Lieutenant of Ireland, died on the 6th instant. The death of the Marquis of Donegal is also mentioned, in the 76th year of his age. The New London Royal Exchange was to be opened by the Queen in person towards the end of the last month.

EARLY HOURS.—The system of closing shops at seven o'clock in the evening is becoming general in London, Liverpool, and other large towns of England.

ERUPTION OF VESUVIUS.—Letters from Naples state that an eruption was expected: the crater was full of lava and the fountains and springs no longer gave their supply of water.

SUPPRESSION OF LOTTERIES.—A letter from Vienna mentions that the Emperor of Austria has positively ordered the suppression of lotteries in his dominions from the 1st of January next.

RIDEAU CANAL.—The Officers of Her Majesty's Ordnance have given notice that the water will be let out of the Rideau Canal on the 20th of November, in order to effect repairs, if possible, before the winter sets in.

POSTSCRIPT.
The Mail Steamer Unicorn came in late last evening with the English mail of the 19th ult. being about a week later than our advices by the Great Western: she was detained for some time by fog below Bic. We have just time to give a few items of the news, which is not important. It is a matter of regret that incendiarianism prevailed in Suffolk; many such outrages are mentioned in the papers, and it is a melancholy evidence of an increase of crime and destitution.

A violent storm blew over the Irish Channel, which caused the loss of many vessels and much destruction of life and property. The gale is described as being nearly equal in violence to the hurricane of January, 1839.

Accounts have been received from Dr. Wolff, which state that he is in close custody and great danger.

Ireland continues in a state of tranquillity. The Commercial News is satisfactory. Canadian exports continued in good demand and at steady prices; the manufacturing districts were still employed, and the money market as buoyant as ever.

The Duchess of Marlborough died at Blenheim Palace on the 12th ult.

Lord Ellenborough, late Governor General of India, had arrived in England, and had been raised a step in the peerage, by the title of Earl of Ellenborough and Viscount Southam.

The French King returned to his own dominions on the 15th ult. His Majesty was honoured by being made a Knight of the Garter before his departure from Windsor Castle. The ceremony was performed with great pomp in the presence of a number of spectators of the highest rank, and a splendid dinner in St. George's Hall, at which a hundred guests were present, terminated the festivities.

There had been a fire at the Dover Railway Station, New Cross, which destroyed property to the amount of £20,000. There have been more explosions at the coal-pits near New Castle on Tyne, by which several lives were lost.

A new war steamer, the Gladiator, of 1190 tons and pierced for 20 guns, was launched at Woolwich on the 15th ult.

SHIPPING INTELLIGENCE.

The Apollo, troopship, which sailed hence early in September with a company of Royal Artillery, Captain Lethbridge, on board, arrived at Woolwich Dock-yard, on the 6th October. The Apollo called at Newfoundland on her way and embarked Captain Jude's company, R. A.; the two companies disembarked the day after their arrival. The Apollo lost her captain of the main-top on the passage: he having been blown overboard in a gale.

The new steamer Quebec was launched on Saturday last from the ship-yard of Mr. George Black. She went off in fine style, and is considered a beautiful specimen of naval architecture.

Stromness, Oct. 8th.—The brig Hope, of Maryport, laden with timber, from Quebec, is on shore at Chapel Russan (Bay of Luce).

Beauvais, Oct. 9.—The ship Enterprise, Bell, from Quebec, for Bangor-bridge, was in the offing this afternoon, but put out to sea.

Kirkcaldy, Oct. 9.—The Triad, Davies, of this port, from Quebec, waiting moderate weather in Leven Roads to discharge part of her cargo, drove on the sands this morning during the gales, and it is feared, unless the weather moderates suddenly, that she will go to pieces next tide. The Triad lost a man on her passage, A. Fraser, belonging to Leith.

Falmouth, Oct. 7.—The British King, Mackie, from Quebec to Liverpool, has been towed in here water-logged, and with deck laid thrown overboard, and top-gallant masts, sails, rigging, &c., cut away. Three weeks since stove in fore port-hole to prevent her blowing up.

Liverpool, Oct. 11.—The Ben Nevis, from this port to Savannah, has put back leaky. The Ocean Queen, for Savannah, has put back with loss of cutwater, having been in contact on the 9th instant, with the Nymph, from Liverpool to Lynn, when the latter sunk: captain and two boys lost; the mate and two men saved.

Shields, Oct. 7.—The Independent, Kirkley, from Quebec, got aground on the In-sand, 5th instant, but has been got off after discharging her deck-load.

The Brigantine Sultan, 139 tons, N. M., coppered and copper fastened, five years old, was sold by auction yesterday to Mr. Curry for £800.

GREAT SAVING IN SOAP & LABOUR.

JUST RECEIVED BY THE SUBSCRIBER, 30 BOXES WARD'S PATENT WASHING AND CLEANSING POWDER.

THE peculiar advantages of this powder are—1. Firstly.—In saving one half the soap necessary when the Soda is used.

Secondly.—Great saving in the labour of washing.

Thirdly.—The colour of linen and other fabrics turns out far superior in whiteness to that which is given by any other means.

Lastly.—From their being cleansed much more readily, than in any other way, their durability is prolonged.

Warranted not to injure even the finest articles. HENRY S. SCOTT, UPPER TOWN MARKET, Quebec, 7th Nov. 1844.

THE Rev. C. L. F. HAENSEL is induced, by various circumstances, and among them by the direction which has of late been happily given to the public mind towards combined movements for the purpose of providing for the education of youth—to propose the dissolution of his school at the expiration of the present Term (21st December.)

He gives publicity to this announcement, because he has reason to believe that some parents have looked to his school for the future reception of their sons, for whom it may be desirable to be at once apprized of his intentions.

Private conference with parents leads Mr. H. to believe that a wish will be entertained for him still to be engaged in the tuition of youth on so reduced a scale as may be consistent with the discharge of the various duties which press upon him. He is ready to be communicated with on the subject, with a view to an arrangement which may be formed for that purpose.

The publicity of this communication forbids his giving expression to feelings which arise when he thinks of the severance of that tie by which he has been made the member of many families in this city, whose unbroken harmony with him may well make him cling to the scholastic profession in the midst of all its discouragements.
