

fairly steady on spot, only because there is so little available; for domestic iron any reasonable offer for a fair lot would not likely be refused. OILS, PAINTS AND GLASS.—The advance in turpentine noted last week is fully maintained. Linseed oil very steady; stocks in England are said to be low, and prices there are very firm. No stock of olive oil here, and very little demand. Fish oils not in request. Paints are without changes, and the same may be said of glass. We quote:—Turpentine, 53c. per gallon for single barrels; two to four barrels, 52c. WOOL.—Woolen mill men complain that orders for fall goods are as yet very light, and are not disposed to buy. Very few of them, however, have any great amount of stock on hand, and as local supplies are small, there is a pretty steady feeling. Latest advices from American markets report an improved feeling there, with bids for some large lines. A series of sales have just begun in London. We quote Cape, 18½ to 16c.; B. A. scoured, 28 to 34c.; fleece, 17 to 19c.; British Columbia, 10 to 12c. per lb.

TORONTO MARKETS.

TORONTO, March 2nd, 1894.

DRUGS.—In comparison with last week we find that trade has shown but little improvement. In values, opium and quinine continue on the firm side, while cubeba and cloves show opposite tendencies and the feeling in these goods is somewhat weaker. The New York market is thus reported by the *Journal and Bulletin of Commerce*: "The market retains a

YOU A STEAM BOILER?

If so, do you think of preserving it at a small annual cost? An outlay of about \$20 per annum on the reliable English boiler compound called "Vegetable Liquid Anti-Scale," will effectually remove and prevent incrustation in a 40 h. p. boiler, and bring you good results in saving of fuel, preservation of plates, &c. It is the best boiler compound known and no steam users can afford to be without it. Send for circulars and testimonials.

The attention of the insuring public and live progressive agents is called to the following reasons for selecting this company:

First—It is the only Canadian company giving its policyholders the security of a four per cent. reserve; all others without exception reserving on a lower standard.

Second—The policy contract is as liberal as any issued. No restriction as to residence, travel or occupation, and incontestable after one year.

Third—The premium rates are low and the cost to the policyholder is certain to be less than in any other company because a better rate of interest can be earned in the west than at the home of any other company.

Fourth—Every desirable plan of insurance is issued from the low priced "PAY AS YOU GO" plan to the shortest single premium endowment.
