

A TRENTON MIRACLE.

A REMARKABLE CURE IN A CASE
PRONOUNCED HOPELESS.An Estimable Young Lady Raised from
a Death-bed After Being Given up
by Several Doctors—A Simple State-
ment of Facts.

Trenton Courier.

At intervals during the past year the proprietor of the *Courier* has been publishing newspaper reports of miraculous cures occurring in various parts of Canada and the United States. Perhaps among the most notable of these were the cases of John Marshall, of Hamilton, Ont., Mr. C. B. Northrop, of Detroit, Mich., and Mr. Chas. A. Quant, of Galway, N.Y. Mr. Marshall's case was more prominently fixed in the public mind by reason of the fact that after being pronounced incurable by a number of eminent physicians he was paid the \$1,000 disability claim allowed by the Royal Templars of Temperance, and some months afterward was announced his almost miraculous restoration to health and active life. The case of Mr. Northrop created equally as profound a sensation in Detroit, where he is one of the best known merchants in the city. Mr. Northrop was looked upon as a helpless invalid, and could only give the most desultory attention to his business on days when he could be wheeled to the store in an invalid's chair. In his case the same simple (yet wonderful) remedy that had cured Mr. Marshall restored Mr. Northrop to a life of active usefulness. The case of Mr. Chas. Quant is perhaps the most marvellous of all, inasmuch as he was not only perfectly helpless, but had had treatment in one of New York's best hospitals under such eminent medical scientists as Prof. Ware, and Dr. Starr, and in Albany by Prof. H. H. Hun, only to be sent out as incurable and looked upon as one who had but a few months before death would put an end to his sufferings. Again the same remedy which restored Mr. Marshall and Mr. Northrop was resorted to, with the same remarkable results, and to-day Mr. Quant, restored to health, anticipates a long life of usefulness. The remedy which has succeeded, where the best physicians had failed, is Dr. Williams' Pink Pills for Pale People—and a name that is now a familiar household word throughout the continent—and a remedy that apparently stands without a rival in the annals of medical science. Having published, among others, the cases above alluded to, the curiosity of the publisher of the *Courier* was aroused and he determined to ascertain if anyone around Trenton had been benefited by the use of Pink Pills. In conversation with Mr. A. W. Hawley, druggist, he was told that the sale of Pink Pills was remarkable, and steadily increasing. And Mr. Hawley gave the names of a number within his own observation who had been benefited by the use of this remedy. Among others Miss Emma Fleming, granddaughter of Mr. Robt. Young. It was stated that Miss Fleming, had been raised from what was supposed to be her death-bed, after all other remedies and physicians had failed, by the use of Dr. Williams' Pink Pills. This statement was so startling that the *Courier* determined to investigate it further, and if true set the facts before the public for the benefit of other sufferers. Mr. Robt. Young, grandfather of the young lady was first seen, and in reply to an enquiry said it was a miracle the manner in which these pills had restored his granddaughter. As a last resort, and with a prayer in his heart, he had purchased a box

"August
Flower"

Mrs. Sarah M. Black of Seneca, Mo., during the past two years has been affected with Neuralgia of the Head, Stomach and Womb, and writes: "My food did not seem to strengthen me at all and my appetite was very variable. My face was yellow, my head dull, and I had such pains in my left side. In the morning when I got up I would have a flow of mucus in the mouth, and a bad, bitter taste. Sometimes my breath became short, and I had such queer, tumbling, palpitating sensations around the heart. I ached all day under the shoulder blades, in the left side, and down the back of my limbs. It seemed to be worse in the wet, cold weather of Winter and Spring; and whenever the spells came on, my feet and hands would turn cold, and I could get no sleep at all. I tried everywhere, and got no relief before using August Flower. Then the change came. It has done me a wonderful deal of good during the time I have taken it and is working a complete cure." ④
G. G. GREEN, Sole Man'fr, Woodbury, N.J.

of Pink Pills at Mr. Spaulsbury's drug store, and so much good resulted that the remedy was continued until his granddaughter was as well as ever she had been. Miss Fleming's aunt was next seen, and she corroborated what had already been told the *Courier*, giving as well some additional particulars. Miss Fleming was next seen, and we must confess to being surprised, and at first somewhat incredulous, that this young lady in the bloom of womanhood and health was the person whom we wanted to interview. Miss Fleming, however, soon convinced us that it was she who was so miraculously saved from death, and cheerfully consented to give a statement of her case. Her father, she said, was for years miller under Mr. Spence, and afterwards at Gordon's mills, near Trenton, and is now miller at Union. Three years ago Miss Fleming's mother died of consumption. Up to four years ago Miss Fleming stated that she had enjoyed good health, but taking a severe cold then she had not had a well day since, until she began the use of Dr. Williams' Pink Pills last December. She was reduced in weight to 90 pounds, but now weighs 111 pounds; a gain of 21 pounds. She consulted a number of doctors and took their remedies, but never obtained more than temporary relief. A physician at Newmarket whom she consulted said she was going into a decline and that he could do nothing for her. Her Trenton physician said that a sudden cold would go to her lungs and he had no hope of her ever getting better. She felt very miserable, strength continually failing, suffered so much distress from food that she had no desire for it and lost all appetite. She kept continually growing worse until last fall she was not able to stand without support, and gave up all efforts to help herself. In December she was taken with inflammation of the bowels and Dr. Moran was called in. He gave her medicine that relieved her and cured the inflammation, but her strength was gone and she had to be lifted in and out of bed and could not sit on a chair at all. She had taken her bed expecting never to rise again, and this was the opinion of all her friends. It was at this juncture that her grandfather, having read in the *Courier* of the wonderful cures effected by Dr. Williams' Pink Pills, and as a last resort purchased a box, and urged his granddaughter to take them. Miss Fleming had been before this recommended by a friend in Toronto to try Pink Pills, but declared she had no faith in them. Now, however, to please her friends she consented to take the Pink Pills; on the seventh day after beginning the use of the Pink Pills, she was able to walk down stairs, and has not gone back to a sick bed since. The effect upon her system was truly marvellous. Her appetite was gone, strength gone, prostrate upon her supposed death-bed, in seven days she was able to walk down stairs, feeling renewed strength and a better appetite than ever before. Miss Fleming continued the use of Pink Pills, daily gaining health and strength, until she was able to take part in the household duties without the least injurious effect. Miss Fleming still continues to take one pill after each meal, and now feels as well as she ever did in her life. She feels truly grateful for what this great remedy has done for her, and only a sense of gratitude enables her to overcome her modest scruples in giving this testimony to the wonderful virtues of Dr. Williams' Pink Pills for Pale People.

Miss Fleming has recommended Pink Pills to a number of lady friends who say they are doing them much good.

A further investigation revealed the fact that Dr. Williams' Pink Pills are not a patent medicine in the sense in which that term is usually understood, but are a scientific preparation successfully used in general practice for many years before being offered to the public generally. They contain in a condensed form all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, pale and sallow complexions, and the tired feeling resulting from nervous prostration; all diseases depending upon vitiated humors in the blood, such as scrofula, chronic erysipelas, etc. They are also a specific for troubles peculiar to females, such as suppressions, irregularities and all forms of weakness. They build up the blood and restore the glow of health to pale and sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, over-work or excesses of whatever nature.

These pills are manufactured by the Dr. Williams' Medicine Company, Brockville, Ontario and Schenectady, N.Y., and are sold in boxes (never in loose form by the dozen or hundred, and the public are cautioned against numerous imitations sold in this shape) at 50 cents a box or six boxes for \$2.50, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company from either address. The price at which these pills are sold makes a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

The forms of sea life in the upper portion of the ocean waters may descend to a depth 1,200 feet or so from the surface, but there then succeeds a barren zone, which continues to within 360 to 300 feet from the bottom, where the deep-sea animals begin to appear.—*Chicago Herald.*

Minard's Liniment Cures Distemper.

THE NEW SAFE.

PERHAPS one of the most original inventions of late years, and one which promises to be of great use to commerce, is the new method of protecting safes from burglars, by the use of explosives applied to the exterior of the safe door in panels covered and hidden from view by a coat of composition, which offers but little opposition to the explosive force but which is further protected from chance concussions and injury by a thin elastic wire network.

It seems a kind of poetical justice which thus brings the favourite weapon of the midnight toiler to bear against himself, and it will be a boon to bankers and others who are at present depending on very uncertain methods of protection, for late cases of burglary have shown that the skill of these gentry is more than match for the safemakers. Mr. Mower Martin, the Toronto artist, has already procured patents for this invention in the United States and Canada, and is now in negotiation for letters patent in Germany, France and England. So far nothing but favourable reports and opinions of its usefulness have been received, and it is anticipated that safes of the new improved pattern will soon be placed upon the market by some of the enterprising firms of the U. S., as well as by Canadian safemakers who are in treaty with Mr. Martin on the subject.

As the improvement can be applied to old doors at moderate cost there must be a large field open for this invention, and if the burglar's occupation may not be altogether gone, it will soon we hope be very much curtailed.

OIL has hitherto been the only material that has been successfully employed for breaking the force of the waves. An ingenious inventor while crossing the Gulf Stream observed that the vast fields of floating sea-weed, though upheaved by the swell, always remained glassy and smooth, and this suggested to him the idea of a device for lessening the force of the waves. The invention consists of a thin cotton or silken net rendered non-submersible by being dipped in a special chemical composition. The device is being experimented with by the Paris society for the saving of life in shipwrecks, and it has been found to act as a wave-dispeller in the same manner as the sea-weed in the Gulf Stream.—*Indianapolis News.*

IT IS NOT WHAT WE SAY but what Hood's Sarsaparilla does, that makes it sell, and has given it such a firm and lasting hold upon the confidence of the people. The voluntary statements of thousands of people prove beyond question that this preparation possesses wonderful medicinal power.

HOOD'S PILLS cure Constipation by restoring the peristaltic action of the alimentary canal. They are the best family cathartic.

AN Atlanta, Ga., druggist has invented a bottle that will prevent druggists from making mistakes in filling prescriptions. It has a stopper which is covered with sharp points that will prick the hand of the person handling it if he is not careful. The idea is to put all poisons in such bottles.—*New York Tribune.*

BAD DRINKING WATER.—Travellers suffer greatly from the different kinds of water they are compelled to drink, as nothing is so likely to bring on an attack of Diarrhoea as change of drinking water. PERRY DAVIS' PAIN-KILLER is the only safe, quick, and sure cure for Diarrhoea, Cramps, and Cholera Morbus, and the valise of every traveller should contain a bottle of the mixture, which he can procure at any reputable drug store. 25c. for a large bottle.

C. C. RICHARDS & Co.

Sirs,—I was formerly a resident of Port La Tour and have always used MINARD'S LINIMENT in my household, and know it to be the best remedy for emergencies of ordinary character.

Norway, Me.

JOSEPH A. SNOW.

THE great reason for the success of Hood's Sarsaparilla is found in its positive merit. It cures where other preparations fail.

You Need It Now

To impart strength and to give a feeling of health and vigor throughout the system, there is nothing equal to Hood's Sarsaparilla. It seems peculiarly adapted to overcome that tired feeling caused by change of season, climate or life, and while it tones and sustains the system it purifies and renovates the blood.

We earnestly urge the large army of clerks, book-keepers, school teachers, housewives and all others who have been closely confined during the winter and who need a good spring medicine, to try Hood's Sarsaparilla now.

Glad to Recommend Hood's.

"I had a very sore leg for a long time, owing to impure blood, and was advised to try Hood's Sarsaparilla, which I did and found it of great benefit to me. I have much pleasure in recommending it." T. Crow, Carriage Builder, 619 Yonge Street, Toronto.

For Blood Poisoning.

"I have used Hood's Sarsaparilla for blood poisoning, and it cleansed my blood and cured me entirely. I recommend it to others as the best blood medicine." Mrs. E. JOHNSTON, 188 Chestnut St., Toronto, Ont.

Hood's
SARSAPARILLA
Cures

Where other preparations fail. Be sure to get Hood's Sarsaparilla. It is peculiar to itself.

Hood's Pills cure liver ills, constipation, biliousness, jaundice, sick headache.

At a late meeting of the Paris Geographical Society, Lieutenant Vedel read an interesting paper on the Polynesians, whom he has had constant opportunities of studying during the last seven years. Referring to the Maoris, he said it was impossible not to be struck with the extraordinary resemblance which exists between their myths and those of the ancient Greeks.—*Philadelphia Ledger.*

THE manner in which men fall depends also upon the nature of the action in which they are engaged. Nearly every one is familiar with the traditional stage fall, where the victim of a supposed death-shot strikes an attitude, clasps his hand to his heart, stiffens every joint and muscle, breathes hysterically, and goes down like a log toppled over from the end. Another popular yet erroneous notion is that men shot through the vitals leap into the air and go down in a dramatic attitude. Sometimes men are found on the field in striking positions, but often an examination shows that the position was taken after the fall. As a rule, a man who is hit above the hips goes down. The slightest the wound the more commotion, for the body instinctively resists just as it does when one slips or is pushed or collides with some object. But a wound in a vital spot weakens the resistance, and men sink at once, or reel and tumble with very little self-control.—*From First Actions of Wounded Soldiers, by George L. Kilmer, in the Popular Science Monthly for June.*

Are a BLOOD
BUILDER
AND NERVE
TONIC.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

They supply in condensed form ALL the substances needed to enrich the blood and to rebuild the Nerves, thus making them a certain and speedy cure for all diseases arising from impoverished blood, and shattered nerves, such as paralysis, spinal diseases, rheumatism, sciatica, loss of memory, erysipelas, palpitation of the heart, scrofula, chlorosis or green sickness, that tired feeling that affects so many, etc. They have a specific action on the sexual system of both men and women, restoring lost vigor.

WEAK MEN

(young and old), suffering from mental worry, overwork, insomnia, excesses, or self-abuse, should take these PILLS. They will restore lost energies, both physical and mental.

SUFFERING WOMEN

affected with the weaknesses peculiar to their sex, such as suppression of the periods, bearing down pains, weak back, ulcerations, etc., will find these pills an unfailing cure.

PALE AND SALLOW GIRLS

should take these Pills. They enrich the blood, restore health's roses to the cheeks and correct all irregularities.

BEWARE OF IMITATIONS. These Pills are sold by all dealers only in boxes bearing our trade mark or will be sent by mail, post paid, on receipt of price—50 cents a box or 6 for \$2.50.
