

The winning smile and learned air of G. A. Cornish, '00, account for the mistake made in the dining hall one day last week when the waiter drew out a chair for him at the Faculty table. All the difference between a minister with portfolio and without.

"Sappho" O. to other Freshman, on Tuesday: "Say, have you any lectures this afternoon?" O. F.: "Yes, one in French." S. O.: "Are you going to take it?" O. F.: "Why, certainly." S. O.: "But say, the buildings will not be open. There is a notice up 'Varsity out to-day.' Didn't you see it?"

William M., '03, was very anxious to know if he would be "jollied" if he took his cousin (?) to the grounds. Why, certainly not. If every man did so, think of the overflowing treasury the Athletic Association would have.

The familiar form of R. A. Cassidy, '01, again graces the library and the halls—more particularly the halls. His "carpet-bag," however, is missed as yet.

W. T. Comber, '0, has been married lately in Bobcaygeon. On account of his honeymoon he will not return to Varsity until Christmas, when we may congratulate him personally.

The rusticity of an especially verdant Freshman, who hails from "the wilds of Muskoka" so impressed Charlie that the latter wrote his name on the list of letters "Barley." The indignant Freshman immediately sought an interview with the Janitor and gave him a few pointers in orthography. Charlie now uses a slightly modified method.

Fears are entertained that J. B. Clarke, '03, is either dead or married, as he has not yet put in an appearance.

Anybody would have thought last week that Ralph Delury had been through an election or a inter-college "scrap." It was all the result of a kick in the face received while playing Association on Wednesday. It is a pleasure to know that the cheek has subsided rapidly.

T. A. Hargrave, '03, is one of the late arrivals. He spent the summer on a ranch near his home in Medicine Hat, and is now preparing for a critical study of "parabolic curves" and "motion about a fixed axis" on the horizontal bar in the gymnasium.

Duncan McDougall, '99, is at present teaching classics in the High School at Forest. Last year Duncan was president of the Lit. at the Normal College at Hamilton.

THE ROYAL MILITARY COLLEGE.

There are few national institutions of more value and interest to the country than the Royal Military College at Kingston. At the same time its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government institution, designed primarily for the purpose of giving the highest technical instructions in all branches of military science to cadets and officers of Canadian Militia. In fact it is intended to take the place in Canada of the English Woolwich and Sandhurst and the American West Point.

The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and in addition there is a complete staff of professors for the civil subjects which form such a large proportion of the College course.

Whilst the College is organized on a strictly military basis the cadets receive in addition to their military studies a thoroughly practical, scientific and sound training in all subjects that are essential to a high and general modern education.

The course in mathematics is very complete and a thorough grounding is given in the subjects of Civil Engineering, Civil and Hydrographic Surveying, Physics, Chemistry, French and English.

The object of the College course is thus to give the cadets a training which shall thoroughly equip them for either a military or civil career.

The strict discipline maintained at the College is one of the most valuable features of the system. As a result of it young men acquire habits of obedience and self-control and consequently of self-reliance and command, as well as experience in controlling and handling their fellows.

In addition the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures good health and fine physical condition.

An experienced medical officer is in attendance at the College daily. Five commissions in the Imperial regular army are annually awarded as prizes to the cadets.

The length of course is three years, in three terms of 9½ months' residence each. The total cost of the three years' course, including board, uniforms, instructional material, and all extras, is from \$750 to \$800.

The annual competitive examination for admission to the College will take place at the headquarters of the several military districts in which candidates reside, in May of each year.

For full particulars of this examination or for any other information, application should be made as soon as possible, to the Adjutant General of Militia, Ottawa, Ont.

THE CANADIAN ANIMAL BOOK

- Mooswa -
and Others of the Boundaries

By W. A. FRASER,

WITH 12 ILLUSTRATIONS BY ARTHUR HEMING

Author and illustrator have co-operated in making this story of the woods and their chief denizens a book of imaginative interest and romantic realism. Each knows the Canadian wilderness with the thoroughness of long familiarity, and together they have vividly portrayed the world of the trackless Northern forest. Carcajou, the wolverine; Mooswa, the moose; Muskwa, the bear; Black Fox, the King, and the various other fur-bearing animals, are the *dramatis personae* of a fascinating story which depicts animal life from the inside. The greatest animal story book yet produced. Specially adapted for a Christmas gift.

CLOTH, GILT, \$1.50 NET.
