

**Fleece Line Ventures, Ltd.**

545 Pacific Avenue  
 Brandon, Manitoba  
 Canada R7A 6N2  
 (204) 725-0751

**Contact: Glenn Rennick  
 General Manager**

Fleece Line Ventures, in the manufacturing business since 1981, has earned a respected reputation for its top quality line of sheepskin and leather products. The distinctive native flavouring of our mocassins, mukluks and mitts is evident and is highly-prized by our satisfied customers.

Designed for comfort as well as beauty, our line reflects the fact that our selections of sheepskin, leather and rabbit fur trim are based exclusively on the highest possible standards of excellence. The definite touch of quality which comes from hand crafting is quickly apparent in the beadwork designed especially to decorate our products.

Fleece Line Ventures is a name recognized across Canada when retailers are considering beautiful native products which are both reliable and affordable.

**Contact: Bill Day,  
 Vice President**

F.F. Plastics is a company dedicated to the production and distribution of one unique product line... its patented StakaPlant planters.

Constructed from durable plastic, StakaPlant is an original way to display plants in a new and distinctive fashion. Our product is highly flexible, and can be used in either free-standing or hanging applications.

StakaPlant is a modular system comprised of a base saucer and specially-designed pots which can be stacked until the desired height has been reached. Easy to assemble, StakaPlant provides your customers with the flexibility to develop their own unique floral arrangements.

Combine the Stakaplant system with your imagination to obtain a clear competitive edge in your market.

*Design your own  
 floral arrangements  
 with an original  
 modular system  
 which is easy to  
 assemble.*

**Glassworks**

82 Bathurst Street  
 Toronto, Ontario  
 Canada M5V 2P5  
 (416) 364-0077

**Contact: Shirley Fineblit,  
 Secretary-Treasurer**

The Glassworks studio, owned and operated by Glassmakers Collaborative Inc., began manufacturing handmade, decorative glass in 1979. The unique character of each piece reflects close co-operation between our designer, Shirley Fineblit, and a team of highly skilled craftspeople.

Bowls, bottles, vases, paperweights and sculpture are created by blowing, colouring and hand-shaping the hot glass without using moulds or stencils. Kiln-fired plates, bowls and wall panels are hand-coloured with glass enamels, placed in sculpted moulds and fired. As the glass softens into the shape of the mould, the enamels melt and fuse to the glass surface.

New designs are introduced to the line twice a year.

Glassworks manufactures a broad range of products prized by knowledgeable and discriminating decorative glass and giftware buyers. Our company has a history of efficient and reliable distribution in the U.S.A. and Canada, and is seeking distributors in other market sectors.

*Handmade and highly  
 decorative glass products  
 designed with the  
 discriminating buyer in mind.*
