TORE LARGE HOLES IN CURRENCY BILL

Republican and Democratic Senators Fused Against Straight Administration.

PUBLIC - OWNED BANK

Such is Latest Program, But Caucus May Straighten Tangle.

WASHINGTON. Nov. 6. - (Can. ress)-Amendments characterized by Chairman Owen as "altering the entire Chairman Owen as "altering the entire theory of the bill" were written into the administration currency measure today by a coalition of Republican and Democratic members of the banking and currency commission. The administration supporters in the committee were decisively out-voted on all but one of the points settled today, and later the talk of a caucus of Democrats was revived. Notices were sent out summoning absent Democrats back to the senate chamber, but no definite call for a caucus was issued.

The committee today voted into the bill the following affirmative provisions:

That the regional banks to administer the new currency scheme be capitalized by public subscription, the stock not taken by the public to be taken up by the member banks of the system.

To Control Regional Banks.

That each regional bank be controlled by nine directors, five to be named by the government thru the federal reserve board, and four to be chosen by the member banks.

That the new currency to be issued be treasury notes guaranteed by the government. This sustains the administration bill as it passed the house.

That the new notes be redeemable in gold by the regional banks and the treasury, and not in "gold and lawful money," as provided by the administration bill.

Democratic Ranks Split.

with the exception of the proposal to endorse the administration provision making the currency government notes, each amendment today split the Democratic side of the committee. Sentors Reed and Hitchcock voted with the five Republicans to make the regional banks publicly owned and government controlled, as against the administration proposal for bank-owned and bank-controlled regional banks. On the proposal to eliminate the words "lawful money" from the redemption clause of the bill, Senator O'Gorman joined Senators Reed and Hitchcock, with the Republicans, leaving only genators Owen, Hollis, Pomerene and Shafroth behind the administration provision.

All the Democrats and Senator Craw-ford from the Republican side voted to sustain the administration for treasury

Principles Set Aside.

When the committee adjourned tonight there was pending a proposal
advanced by Senator Crawford to allow
the regional banks to do a general commercial banking business. The amendments adopted today with Senator ments adopted today with Senator Crawford's amendment, Chairman Owen deciared, would "alter the entire theory of the bill."
"We started out," he said, "to write

"We started out," he said, "to write a bill which would provide a bank, or banks with the power of rediscount and of issue, and which would mobilize the banking reserves. Now we have shifted about to a "public-owned, government-controlled bank, and it is proposed to let it do a general banking business in competition with the 25,000 banks thruout the country."

FINE PROGRAM FOR SATURDAY'S
