Battleford and South African campaign, have chosen a very appropriate eccasion for their first annual combined church parade, viz., Sunday the latt inst., the centendial anniversary of the death of General Brock of Queenston Heights. It is expected that every Canadian veteran will parade at the Armories on that evening at six of clock, wearing medals, and proceed to St. James' Cathedral. There will be special music and a sermon by Rev. Canon Plumptre.

National Land v. Vandewater—R.
McKay, K.C., for defendant. R. G.
Hunter for plaintiff. Motion by defendant for an order changing venue from Toronto to Pieten. Judgment—Defendant says he will have 28 witnesses. The plaintiff does not state what number (if any) he will require who are resident in Terento or eisewhere beyond saying that all the important witnesses on the company's side reside in Toronto. This is not sufficiently definite to displace the defendant's affidavit. The order will go with costs in the cause. If it turn out that this order increases the costs of the trial the plaintiff can apply to the trial judge to have this burden borne by the defendant if the action falls.

Cooper v. Williamson—McLaughlin (Beatty & Co.) for defendant. Motion by defendant on consent for an order dismissing action without costs. Order made.

Hawes-Gibson v. Hawes-Gordon (Pieten) & Co.) for defendant.

# "ALL ROADS LEAD TO ROME"

Don't worry about the road so long as it takes you where you want to go.

If you want lower light bills don't quibble about the mere method by which the rates are figured. Your light bill will be lower if you let Hydro-Electric

"current" do your lighting. Of course Hydro-Electric rates are "different." But don't let rates confuse you. The read to Hydro leads to low bills. You can figure light bills according to any method. But Hydro-Electric means actually the cheapest light by the year.

This low price "current" is supplied by the high quality service of Toronto Hydro-Electric System. When you use Hydro-Electric power you are giving support to

an enterprise in which you have a personal ownership interCall at the Hydro-Electric Shop and find out how much you can save by using Hydro-Electric "current" to do your lighting. Or, if you would rather,

write or phone and we'll have a DON'T BE CONTENT WITH LOWER RATES-DEMAND LOWEST BILLS

man come to your office to tell you all about it.

Portable lights afford probably the best opportunity for effective, decorative lighting. There is nothing money can purchase that will make such a vast difference to a room. It is astonishing what improvement can be effected by the installation of a light such as the one illustrated.

The intensity of gas light calls for a full display of the colors, and the design of the lamp. They shed an ideal light, and at the same time give that indefinable impression of fitness and taste.

Our display of these lights includes a number of Art Glass effects that are strikingly beautiful and sure to please your sense of the artistic. They run from \$375 up. Every fixture is efficient and will give many years of

service. The Consumers' Gas Co. 12-14 Adelaide St. West Telephone Main 1933
