

JUDGE ROBSON DEFENDS O'CONNOR

Says J. D. McGregor Makes
Groundless Attacks and
Ignores Facts.

Judge Robson of the board of commerce yesterday issued a statement from the city hall in reply to the charges brought against Mr. O'Connor, vice-chairman of the board, by J. D. McGregor of Winnipeg, stating, amongst other things, that the orders of the board were ruining the live stock industry. Mr. McGregor made his charges at Victoria, B.C., before a convention of the Western Canada Live Stock Union.

In his statement, Judge Robson says: "I have noticed in The Globe of today, the report of some extravagant utterances of Mr. J. D. McGregor, which he attacks Mr. W. F. O'Connor, my associate in the board of commerce."

"One inference from the item is that Mr. O'Connor has individually made orders. I wish to state that no orders are made in such matters by one commissioner. The orders to which Mr. McGregor refers are orders which had my concurrence."

"The attack made by Mr. McGregor on these orders, as I have said, is entirely groundless. All the board of commerce did in that connection was to temporarily check the prices of milk while a proposed increase could receive consideration. The consumer was entitled to be considered. Was he to be deprived of all right to be heard? Mr. O'Connor secured to the consumer that right, and he had my full concurrence therein at the time."

"The further intimation, wherein, this board has been charged with touching the live stock industry is in the matter of hog products. The facts are that Chicago live weight hog prices are lower than ours, and foreign demand is very low."

"Not a cent ever came off the farmer by any action of the board of commerce. Those are all the instances in which it can be said that the board of commerce got even within sight of the cattle or hog products, and Mr. McGregor says Mr. O'Connor unsettled the whole live stock industry all over Canada."

"If Mr. McGregor is really looking for some grievance to remedy, let him inquire into the price fixing of mill feeds. He will find something there which really touches the subject."

"It is regrettable that a man making a public utterance, as he was, was so ignorant of all the pertinent facts. He is, of course, likewise ignorant of efforts being made by the board of commerce to materially reduce the cost of milk. These efforts are likely to be successful."

"Mr. McGregor, to be reasonably fair, should have pointed out the fact that the high cost of milk feeds is the cattle-raiser's real difficulty, and that the burden of that lies with the Canadian wheat board, which has the price-fixing power. The question of the price of feed should be brought before the board tomorrow by a representative of the board of commerce."

(Signed) "H. A. Robson."

END OF THE WORLD!

T. W. Williams, of Ontario, begins his winter campaign of Sunday evening lectures, at the Allen Theatre, Sunday evening next. His subject, "End of the World."

ROBBED HIS EMPLOYER

Harry Robinson, alias H. Steinberg, was sent to the Jail Farm for 30 days by Magistrate Denison in the police court yesterday for the theft of \$26.71 and tickets to the amount of \$45, which he stole from his employer, George Lawrence, the baker. This theft, according to the evidence, occurred some time ago, and the defendant, who is a Jew, was a well-known character in the neighborhood. He was arrested after a search of his home, and the money has also been made, but the sentence was imposed by his worship.

Could Not Sleep

Mr. Earnest Clark, Police Officer, 338 King St., Kingston, Ont., writes:

"For three years I suffered from nervousness and sleeplessness. I believe my condition was brought about by overwork. I had frequent headaches, neuralgic pains and twitching of nerves and muscles. I had indigestion, was short of breath and easily tired. I commenced a treatment of Dr. Chase's Nerve Food, and seven boxes of this medicine cured me of all my symptoms. I am now feeling one hundred per cent. better than I was, and have to thank Dr. Chase's Nerve Food for the good health I am now enjoying."

Dr. Chase's Nerve Food, 50 cents a box, 6 for \$2.75, all dealers, or Edmondson, Bates & Co., Ltd., Toronto.

UNIVERSITY BRIEFS

The faculty of medicine is reported to be taking up the matter of limiting the number of students allowed to register in any one year. In view of the large number applying for admission in spite of the six-year course, this question presents a very knotty problem. Both the students and the public will await with much interest the outcome of their deliberations.

Rev. Ernest Thomas, who will speak in convocation hall on Sunday morning, is an outstanding figure in the social constructive work of the Methodist Church in Canada. His subject will be "The New World God is Making," at 3 o'clock. All those who wish to ask him questions will be afforded the opportunity in the lecture room at Hart House.

The science members of Newman Hall staged a very successful dance in their club rooms on St. Joseph street last night. The halls and drawing-room were tastefully decorated for the occasion, and about one hundred couples spent a very enjoyable evening.

SMALLPOX SHOWS MARKED DECLINE

Only Sixteen New Cases Reported Yesterday—No Deaths to Date.

During the 24 hours ending at five o'clock last night there were only 16 new cases of smallpox reported to the health authorities. This shows a distinct falling off from the average of the last few days.

The following table shows how the outbreak stands at present in regard to reported cases:

Cases reported	16
Quarantined at home	53
Exposed persons quarantined	180
Patients discharged	4
General Total	
Cases reported in city	365
In hospital at present	28
Quarantined in homes	320
Patients discharged	14
Homes quarantined containing patients	277
Homes quarantined from which patients removed	21
Homes quarantined	298
People quarantined as exposures	1,011

It costs seven dollars a week to maintain a quarantined person, and the city is paying out for this alone \$7,077 per week. There is little, if any, of the original appropriation of \$10,000 remaining and the board of control will be asked for an additional \$50,000 to carry on the work of fighting the disease. It is estimated that should the outbreak last ten weeks it will cost the city not less than \$100,000. Also the end of the outbreak is not yet in sight. The back of it has been broken, but the disease is still felt by the authorities. Some of the family bread-winners have been quarantined as exposures, and yesterday they issued an order that should one member of the family be stricken with the disease, the remainder of those in the house must be vaccinated, even if they have satisfactory marks from a previous vaccination. They may then be released from quarantine to live elsewhere, but will be kept under close observation by members of the health department.

BERMUDA.

For the last four years, on account of the war, the beautiful island of Bermuda has more or less of a reputation as a traveling public. The two lines operating, one from New York and the other from Halifax, were very much handicapped on account of the loss of ships, labor troubles and dangers of attack, and but during all this time Bermuda has not lost its wonderful charm as a winter resort, and with this in view the steamship companies are spending a great deal of money to give their patrons ships and service that Bermuda could never boast of before.

The Quebec Steamship Co. from New York will operate the winter, starting Dec. 6, the steamships "Fort Hamilton" and "Fort Victoria" sailing about three times a month and the Royal Mail S. S. Co. from Halifax, about the same service.

A. F. Webster & Son, general steamship agents, 53 Yonge street, are having a great many inquiries for Bermuda and the south and are particularly qualified to give information on account of their 35 years in business.

To House Canadian Women Visiting Graves in France

London, Nov. 14.—The Canadian Red Cross has secured a house in Prince's Gardens as a hostel for Canadian women arriving next spring to visit graves in France. The houses will accommodate fifty persons, each given to pay seven shillings for daily maintenance. Arrangements also will be made for a journey to Boulogne and subsequently to the cemetery.

Not a Bite of Breakfast Until You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps you fit.

Just as coal, when it burns, leaves behind incombustible ashes, so the food and drink taken day after day leaves in the alimentary canal indigestible material which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and putrefactive poisons are formed and, sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before breakfast each morning drink a glass of hot water with a teaspoonful of limestone phosphate in it. To wash out of the bowels the previous day's poisons and toxins, and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

HOLY CATS! WHAT NEXT?

DEER FRIEND HILDEGARDE: It was sure

nice of you, old ben, to leave off twiddling your thumbs and to take to the road. I'm havin' the time of me life since you hit the trail makes me laff. Lissen, Hildegard, you're a real one. You wouldn't believe it, but I've been crunched cinders under me scows ever since you was gone. It's just one wallop after another. You bet it in time, I'll say, as there's a little thing like a autumn rash busted out, and it's ripping the town to pieces, and every body's gettin' their initials cut on their upper pins. I ain't scared or nothin', but you know, safety first me slogan, so I took an awful chance of gettin' medical skippers and told him I wanted me monogram carved, and rite away he begins workin' on me, and, seein' I'm intelligent 'an all, he tells me that the juice he's going to shoot into the scratch is took from a cow. "Wad-you-mean, cow?" I says, slingin' a mean look, and I grabbed me arm off on him, stepped on the gas, and hit it on all six out of the door. But he "gosh" (same as I got him, take it from me, he was some looker). "You little rascal, I'll get you," he says, and he lands me in a chair and welds the wicked mallet into me arm. "I'm kinda workin' under difficulties," he says. "I can't see your arm behind the needle, and when I do get a pike at it I can't find no room to make much of a gasp."
